Chinese Law Deborah Cao,2017-03-02 Studying Chinese law from a linguistic and communicative perspective, this book examines meaning and language in Chinese law. It investigates key notions and concepts of law, the rule of law, and rights and their evolutionary meanings. It examines the linguistic usage and textual features in Chinese legal texts and legal translation, and probes the lawmaking process and the Constitution as speech act and communicative action. Taking a cross-cultural approach, the book applies major Western philosophical thought to Chinese law, in particular the ideas concerning language and communication by such major thinkers as Peirce, Whorf, Gadamer, Habermas, Austin and Searle. The focus of the study is contemporary People's Republic of China; however, the study also traces and links the inherited and introduced cultural and linguistic values and configurations that provide the context in which modern Chinese law operates.

History of the Language Sciences / Geschichte der Sprachwissenschaften / Histoire des sciences du langage. 1. Teilband Sylvain Auroux,E.F.K. The gradually emerging institutions concerned with the study, organisation, documentation, and distribution are considered as well as those dealing with the utilisation of language related knowledge. Special emphasis has been placed on related disciplines, such as rhetoric, the philosophy of language, cognitive psychology, logic and neurological science.

Translation and Cultural Change Eva Hung,2005-01-01 History tells us that translation plays a part in the development of all cultures. Historical cases also show us repeatedly that translated works which had real social and cultural impact often bear little resemblance to the idealized concept of a 'good translation'. Since the perception and reception of translated works □ as well as the translation norms which are established through contest and/or consensus □ reflect the concerns, preferences and aspirations of their host cultures, they are never static or homogenous even within a given culture. This book is dedicated to exploring some of the factors in the interplay of culture and translation, with an emphasis on translation activities outside the Anglo-European tradition, particularly in China and Japan.

Christian Interculture Arun W. Jones,2021-02-26 Despite the remarkable growth of Christianity

in Africa, Asia, and Latin America in the twentieth century, there is a dearth of primary material produced by these Christians. This volume explores the problem of writing the history of indigenous Christian communities in the Global South. Many such indigenous Christian groups pass along knowledge orally, and colonial forces have often not deemed their ideas and activities worth preserving. In some instances, documentation from these communities has been destroyed by people or nature. Highlighting the creative solutions that historians have found to this problem, the essays in this volume detail the strategies employed in discerning the perspectives, ideas, activities, motives, and agency of indigenous Christians. The contributors approach the problem on a case-by-case basis, acknowledging the impact of diverse geographical, cultural, political, and ecclesiastical factors. This volume will inspire historians of World Christianity to critically interrogate—and imaginatively use—existing Western and indigenous documentary material in writing the history of Christianity in Asia, Africa, the Americas, and Oceania. In addition to the editor, the contributors to this volume include J. J. Carney, Adrian Hermann, Paul Kollman, Kenneth Mills, Esther Mombo, Mrinalini Sebastian, Christopher Vecsey, Haruko Nawata Ward, and Yanna Yannakakis.

Zen Paintings in Edo Japan (1600-1868) Dr Galit Aviman, 2014-12-28 This book explores the playfulness reflected in the artwork of two prominent Japanese Zen monk-painters: Hakuin Ekaku (1685-1768) and Sengai Gibon (1750-1837). Aviman elaborates on the nature of this particular artistic expression and identifies its sources, focusing on the lives of the monk-painters and their artwork. The author combines a holistic analysis of the paintings, i.e. as interrelated combination of text and image, with a contextualization of the works within their specific environments.

A History of Modern Japanese Aesthetics Michael F. Marra, 2001-02-01 This collection of essays constitutes the first history of modern Japanese aesthetics in any language. It introduces readers through lucid and readable translations to works on the philosophy of art written by major Japanese thinkers from the late nineteenth century to the present. Selected from a variety of sources (monographs, journals, catalogues), the essays cover topics related to the study of beauty in art and nature. The translations are organized into four parts. The first, The Introduction of Aesthetics, traces the formation of notions of beauty, culture, and art in Japan. It includes discussion of the creation of the museum in Japan and the frenetic efforts of Nishi Amane, Okakura Tenshin, Ernest Fenollosa, and Mori Ogai to introduce German, British, and French aesthetic thought to the Japanese. This is followed by three sections that examine the transformation of the aesthetic field into an academic discipline that flourished at three major Japanese universities. Aesthetics at Waseda University begins with an essay on the spiritualism and idealism of Onishi Hajime and continues with essays on the impact of German Lebensphilosophie (philosophy of life) on Shimamura Hogetsu and Takayama Chogyu, and work by the major Waseda aesthetician of the twentieth century, Aizu Yaichi. Thinkers of the Tokyo School adopted a scientific method in the study of art theory. Part 3, Aesthetics at the University of Tokyo, focuses on the ideas of Otsuka Yasuji (holder of the world's first Chair of Aesthetics), Onishi Yoshinori, Watsuji Tetsuro, Abe Jiro, Takeuchi Toshio, and Imamichi Tomonobu. The section concludes with a look at the contemporary philosopher Sakabe Megumi. The last section, Aesthetics at the University of Kyoto, includes essays on Nakagawa Shigeki and Fukada Yasukazu, pioneers in the field of aesthetics, and on the philosophy of art of the Kyoto School, which was deeply inspired by the thought of Nishida Kitaro. Finally the work of Kuki Shuzo, an influential teacher of Western philosophy at the University of Kyoto, is examined. *A History of Modern Japanese Aesthetics* is a companion volume to *Modern Japanese Aesthetics: A Reader* (UH Press, 1999).

Afterlives of Letters Satoru Hashimoto, 2023-10-24 When East Asia opened itself to the world in the nineteenth century, Chinese, Japanese, and Korean intellectuals had shared notions of literature because of the centuries-long cultural exchanges in the region. As modernization profoundly destabilized cultural norms, they ventured to create new literature for the new era. Satoru Hashimoto offers a novel way of understanding the origins of modern literature in a transregional context, drawing on Chinese-, Japanese-, and Korean-language texts in both classical and vernacular forms. He argues that modern literature came into being in East Asia through writerly attempts at reconstructing the present's historical relationship to the past across the cultural transformations caused by modernization. Hashimoto examines writers' anachronistic engagement with past cultures deemed obsolete or antithetical to new systems of values, showing that this transnational process was integral to the emergence of modern literature. A groundbreaking cross-cultural excavation of the origins of modern literature in East Asia featuring remarkable linguistic scope, *Afterlives of Letters* bridges Asian studies and comparative literature and delivers a remapping of world literature.

The History of China-Japan Relations Ping Bu, Shinichi Kitaoka, 2023-01-01 Focusing on the ancient, medieval, and early-modern eras, this collection considers the beginnings of Sino-Japanese Relations in the Ancient East Asian World, focusing on changes of the East Asian international system. It examines the establishment of the East Asian International Order in the 7th Century and the advance of Sino-Japanese relations in medieval times. It also considers the impact of initial contact with modern Western powers on modernization, and examines the points of rupture which deeply affected both cultures, for China the Opium War, and for Japan it the Black Ships of Commodore Matthew Perry and the Meiji Restoration. Based on research conducted jointly by Chinese and Japanese scholars, this collection provides a unique insight into the development of Chinese and Japanese culture from comparative perspectives, offering an in-depth study of the countries' political, religious and societal structures to deepen objective perception toward history and promote mutual understanding in East Asia.
