 Buku Pemikiran 100 Ekonom Indonesia Edisi Kedua
 merupakan kumpulan tulisan para ekonom Indonesia yang
 diharapkan mampu memberikan kontribusi substantif,
 setidaknya dalam enam subjek penting dan beragam
 perspektif. Kontribusi substantif tersebut dibagi dalam
 enam bagian besar, yaitu (1) sinergi stimulus fiskal dan
 percepatan infrastruktur, (2) inklusi keuangan, (3) usaha
 mikro, kecil dan menengah (UMKM), industri dan persaingan
 usaha, (4) sumber daya manusia, daya saing dan
 kemandirian ekonomi, (5) pembangunan pertanian
 pedesaan, dan daerah tertinggal dan (6) tantangan
 mewujudkan kesejahteraan. Bagian I dari buku Pemikiran
 100 ekonom ini membahas sinergi stimulus fiskal dan
 percepatan infrastruktur, dengan argumen bahwa

pengeluaran ekstra besar untuk percepatan pembangunan infrastruktur masih senantiasa dibayangi sekian macam risiko fiskal. Bagian II membedah inklusi keuangan, karena para ekonom amat peduli pada tingkat suku bunga perbankan di Indonesia yang tercatat amat tinggi, yang tentu amat mempengaruhi akses keuangan, terutama bagi kelompok usaha kecil dan menengah. Bagian III membahas UMKM, industri dan persaingan usaha dengan berbagai spektrum. Hampir semua ekonom sepakat tentang potensi besar UMKM sebagai basis ekonomi, termasuk revitalisasi koperasi sebagai amanat konstitusi untuk memajukan kesejahteraan umum, tantangan UMKM era disrupsi teknologi dan sebagainya. Bagian IV membahas sumber daya manusia (SDM), daya saing dan kemandirian ekonomi, yang juga mendapat perhatian Pemerintah, setidaknya telah tercantum dalam rancangan teknokratik Rencana Pembangunan Jangka Menengah (RPJM) 2020-2024. Bagian V menyoroti secara khusus pembangunan pertanian perdesaan, dan daerah tertinggal, yang selama beberapa tahun terakhir masih mengandalkan intervensi negara melalui APBN dan terlalu fokus pada program swasembada pajale (padi-jagung-kedelai). Bagian VI atau terakhir membahas beberapa perspektif penting dan tantangan strategis dalam mewujudkan kesejahteraan umum. Para ekonom cukup prihatin terhadap lambannya penurunan kemiskinan dan ketimpangan pendapatan, walaupun kinerja pertumbuhan ekonomi masih di atas 5 persen per tahun.

Technological Innovation Driving Sustainable Entrepreneurial Growth in Developing Nations Asabere, Nana Yaw, Gyimah, Glenn Kwabena, Acakpovi, Amevi, Plockey, Florence, 2023-09-11 Developing nations in Africa need access to advanced technology, innovation, and entrepreneurial skills for sustainable development as they address challenges that face the world at large in the 21st century. Since Ghana's development indices (high or low) remain deeply rooted in the measure of education provided to its citizens, the nation must seriously and continuously invest in university education and technological and entrepreneurial skills to enhance sustainable development. The strategy for sustainable development in Ghana appears to be well planned for global and regional agendas, with

higher education serving as a panacea. Education 2030 Framework for Action (EFA) and the African Union Agenda 2063 provide foundations for the transition to the Sustainable Development Goals (SDGs) with the promise of technological and entrepreneurial innovation, as well as education for all. Technological Innovation Driving Sustainable Entrepreneurial Growth in Developing Nations builds a bridge of communication between the worlds of education and business through the exploration of critical research on the fight against poverty, hunger, malnutrition, and disease. This book also examines the interplay between entrepreneurial education and sustainable economic development in developing countries. Covering topics such as engineering technologies, entrepreneurship, and communication technologies, this book is ideal for researchers, educators, business administrators, students, and more.

Soup For The Qan Paul D. Buell, Eugene N.

Anderson, 2013-10-28 First published in 2000. In the early 14th century, a court nutritionist called Hu Sihui wrote his *Yinshan Zhengyao*, a dietary and nutritional manual for the Chinese Mongol Empire. Hu Sihui, a man apparently with a Turkic linguistic background, included recipes, descriptions of food items, and dietary medical lore including selections from ancient texts, and thus reveals to us the full extent of an amazing cross-cultural dietary; here recipes can be found from as far as Arabia, Iran, India and elsewhere, next to those of course from Mongolia and China. Although the medical theories are largely Chinese, they clearly show Near Eastern and Central Asian influence. This long-awaited expanded and revised edition of the much-acclaimed *A Soup for the Qan* sheds (yet) new light on our knowledge of west Asian influence on China during the medieval period, and on the Mongol Empire in general.
