The Brass Cupcake John D. MacDonald,2014-01-14 One of the most beloved American thriller writers of the twentieth century kicks off a rip-roaring career with his exhilarating first novel, a hard-boiled classic full of twists and turns, good intentions and bad coincidences, the stench of corruption and the pursuit of justice at any cost. Introduction by Dean Koontz Ex-cop Cliff Bartells might be the last honest man in Florence City, Florida. After quitting the force over a crisis of conscience, he takes a job at an insurance company buying back stolen jewelry. Cliff is focused on keeping the bottom line down and staying out of the spotlight. But when an affluent tourist from Boston is murdered over a hefty collection of jewelry, Cliff finds himself wrapped up in a case that's making national headlines. With the victim's beautiful niece, Melody Chance, determined to help retrieve the goods, suddenly Cliff has the partner he never knew he wanted. Now all they need is a suspect: someone capable of cold-blooded murder in the name of profit. And that could mean anyone in this crooked town. Praise for John D. MacDonald "As a young writer, all I ever wanted was to touch readers as powerfully as John D. MacDonald touched me."—Dean Koontz "To diggers a thousand years from now, the works of

John D. MacDonald would be a treasure on the order of the tomb of Tutankhamen.”—Kurt Vonnegut

Eric Lyons and Span Barbara Simms,2018-01-08 Due to popular demand we are delighted to offer this new paperback edition of Eric Lyons and Span. Lavishly illustrated and deeply researched, this book celebrates the work of the architect Eric Lyons OBE (1912-1980), whose famous post-war housing - that today would be marketed as 'lifestyle housing' - is as well-loved today as it was vibrantly successful when first constructed. Built almost entirely for Span Developments, its mission was to provide an affordable environment that gave people a lift. Influenced by Walter Gropius, Lyons

brought a commitment to high density housing and the idea of fostering community into his Span work without compromising his intuitive sensitivity for landscape. His success brought the practice an impressive array of awards and led to a term as President of the RIBA. The enduring success of his design philosophy can be traced forward to 2005, when Span received a special Housing Design Award given to schemes that meet the current Sustainable Communities Plan. Indeed, the concept of Span mirrors current best practice thinking in housing design and continues to offer a fresh, relevant challenge to volume housebuilders in Britain today. This book serves as a lively reminder of that fact. Written by distinguished historians, practitioners and Span enthusiasts, the book has been researched using the archive compiled by Ivor Cunningham, one of Lyons ex-partners while a detailed gazetteer contains scale plan drawings of many of Spans housing templates.
