Turkey, the EU and the Middle East Buğra Süssler, 2020-02-24 This book focuses on the dynamics of Turkey's relationship with Europe in the context of the 'Arab Spring' and analyses Turkish behaviour vis-à-vis foreign policy cooperation with the EU. Süssler explains the complexity of Turkey-EU relations by looking beyond membership negotiations and examines informal foreign policy dialogue between Turkish and EU officials. The book discusses the reactions of the Turkish government to the uprisings in Libya, Syria, and Egypt and cooperative opportunities between Turkey and the EU. The analysis finds that although cooperation varies across cases, foreign policy dialogue has become a main driver of the Turkey-EU relationship. A counter-intuitive finding of the research is that the EU has often been the actor seeking Turkey's cooperation, rather than the other way round, clearly challenging the original power asymmetry between Turkey and the EU. Based on interviews with diplomats and policy makers and extensive documentary research, this book will be of interest to political scientists, students, policy makers and researchers focusing on Turkish foreign policy and Turkey-EU relations. This book is also about exploring inventive ways of maintaining a complex working partnership with the EU and will be of interest to scholars working on the EU's relationship with outsiders.

Knowledge, Control and Critical Thinking in Singapore Leonel Lim, 2015-09-07 This book examines how critical thinking is regulated in Singapore through the process of what the influential sociologist of education Basil Bernstein termed pedagogic recontextualization. The ability of critical thinking to speak to alternative possibilities and individual autonomy as well as its assumptions of a liberal arrangement of society is problematized in Singapore's socio-political climate. By examining how such curricular discourses are taken up and enacted in the classrooms of two schools that cater to very different groups in society, the book foregrounds the role of traditional high-status knowledge in the elaboration of class formation and develops a critical understanding of post-developmental state initiatives linked to the parable of modernization in Singapore. Knowledge, Control and Critical Thinking in Singapore offers chapters on: • Critical Thinking and the Singapore State: Meritocracy, Illiberalism and Neoliberalism • Sacred Knowledge and Elite Dispositions: Recontextualizing Critical Thinking in an Elite School • Power, Knowledge and Symbolic Control: Official Pedagogic Identities and the Politics of Recontextualization This book will appeal to scholars in comparative education studies, curriculum studies and education reform. It will also interest scholars engaged in Asian studies who are struggling to understand issues of education policy formation and implementation, particularly in the areas of critical thinking and other knowledge skills.

The Political Economy of the Gulf Sovereign Wealth Funds Sara Bazoobandi, 2013 Using four Gulf sovereign wealth funds as case studies – Iran, Kuwait, Saudi Arabia and the UAE - this book examines and analyses the history, governance and structure, and investment strategies of the above mentioned funds, in the context of on-going debates about their transparency. The book discusses how most Gulf sovereign wealth funds were established under colonial rule, and have operated in the global financial system for many decades. With the increase of oil

revenues, it goes on to look at how the funds have broadened their asset classes and their institutional development. Debate over the transparency of sovereign wealth funds has highlighted various global practices. Recently, organisational measures have been introduced for calculating possible risks from non-commercial investment incentives of funds, whose politically-driven investment strategies are viewed as potentially a major threat to the national security of their host countries. Highlighting a number of incidents that triggered the transparency debate, the book scrutinises the reaction of some of the Gulf sovereign wealth funds to these recent regulatory codes and strategies. It is a useful contribution to Development, Political Economy and Middle East Studies.

Being Young, Male and Saudi Mark C. Thompson, 2019-09-30 Although the position of Saudi women within society draws media attention throughout the world, young Saudi men remain part of a silent mass, their thoughts and views rarely heard outside of the Kingdom. Based on primary research across Saudi Arabia with young men from a diverse range of backgrounds, Mark C. Thompson allows for this distinct group of voices to be heard, revealing their opinions and attitudes towards the societal and economic transformations affecting their lives within a gender-segregated society and examining the challenges and dilemmas facing young Saudi men in the twenty-first century. From ideas and beliefs about, identity, education, employment, marriage prospects and gender segregation, as well as political participation and exclusion, this study in turn invites us to reconsider the future of Saudi Arabia as a globalized kingdom.

House of Commons - Foreign Affairs Committee: The UK's Relations with Saudi Arabia and Bahrain - HC 88 Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2013-11-22 Saudi Arabia and Bahrain remain key partners for the UK but relations are complicated by the differences between our societies and the pressing need for reform in the Gulf. Historic warm relations between the UK government and the leaders of Saudi Arabia and Bahrain are not mirrored in public opinion in Saudi Arabia and the UK, and the UK's reputation in Bahrain has also suffered since 2011. The Government must make its public profile and reputation a more central part of its work in the Gulf, consider how it can best support much-needed economic and political reforms, and how it can explain its policies and point to specific achievements when speaking to the public at home and in the Gulf. In Saudi Arabia, the Government must convert its promising steps so far in providing assistance on legal and judicial reform into solid and reportable programmes. In Bahrain, it must work to secure access for NGOs and the UN Special Rapporteur on Torture, and press more strongly for swifter implementation of reforms. Saudi Arabia's role as a key buyer for the UK defence industry is controversial but the report finds little to suggest that ending defence sales from the UK would have any positive effect. The aggressive way in which the Bahraini security forces handled events in 2011 has deeply damaged Bahrain's reputation. The recommendations of the Bahrain Independent Commission of Inquiry (BICI) were sensible and the Bahraini government's failure fully to implement them is inexplicable.

Mathematics Achievement of Immigrant Students Dirk Hastedt, 2016-04-04 This book examines the mathematics achievement of immigrant students on the basis of data from the IEA Trends in International Mathematics and

Science Study (TIMSS). It combines an analysis of large-scale assessment data with an in-depth exploration of policy studies and transforms the insights gained into recommendations on how to promote better education for students with an immigrant background. In a world defined by globalization, education systems face the challenge of providing high-quality education for an increasing number of immigrant students. This book addresses topical questions, such as the circumstances and policies that promote good education, and why some countries are more successful than others in catering for the needs of this very diverse group of students. It provides details on the differences between immigrants and non-immigrants in education, includes case studies on policies of two “successful” countries, and gives hints to policy makers for policies that can help improve the situation for immigrant students in schools.

Global Entrepreneurship Nir Kshetri, 2018-09-07 This second edition of a Choice Outstanding Academic Title improves coverage of the global environments in which entrepreneurs operate. In *Global Entrepreneurship: Environment and Strategy*, Nir Kshetri explores and illuminates the economic, political, cultural, geographical, and technological environments that affect entrepreneurs as they exploit opportunities and create value in economies around the world. Grounded in theory, the book begins by laying out the concepts, indicators, and measurements that have unique impacts on entrepreneurs in different regions. This framework sets the scene for a close examination of global variations in entrepreneurial ecosystems and finance. Kshetri methodically examines entrepreneurship patterns in diverse economies through the lenses of economic system, political system, culture and religion, and geography (both by country and continent) – and for the first time, includes an entire chapter on entrepreneurship in Latin America. All new for this edition, *Global Entrepreneurship* offers case studies at the end of each chapter to illustrate relevant concepts, as well as two detailed cases in an appendix, to encourage broader reflection. The book is accompanied by online resources, bringing additional value for instructors and students in entrepreneurship and international business classes.

The contributions deal with the confluence of Islamic Principles with entrepreneurial and business ownership characteristics; resource use by entrepreneurs; means of entrepreneurial success, and ethics and social responsibility.

Revisiting the UK and Ireland's Transatlantic Economic Relationship with the United States in the 21st Century Anne Groutel, Marie-Christine Pauwels, Valérie Peyronel, 2016-10-25 This book revisits the economic relationship that

ties the UK and Ireland to the United States in the aftermath of the greatest economic crisis of the past fifty years. When considering recent developments to these economic links, it appears that oppositional forces are at work. On one hand, globalization and the rise of new economic powers may undermine the ties. Besides, Ireland's and the UK's European Union membership could also loosen their economic ties with the US. Conversely, the future Transatlantic Trade and Investment Partnership agreement may well strengthen trade and investment links between the US and Europe. Are the economic bonds between the US, the UK and Ireland waning, as some pundits purport? Or are those claims overstated? Could their economic relationship simply be going through a process of change? Although there may not be a single and straightforward answer to these questions, the authors seek to address these issues and provide insight into the changing dynamics of this historic economic relationship.

Research, Innovation and Entrepreneurship in Saudi Arabia Muhammad Khurram Khan, Muhammad Babar Khan, 2020-04-03 This book provides valuable insights into the Kingdom of Saudi Arabia (KSA) through a comprehensive examination of Vision 2030, an ambitious economic plan by the KSA to reinvent and diversify its economy from a heavy dependence on hydrocarbon to knowledge-based resources. *Research, Innovation and Entrepreneurship in Saudi Arabia: Vision 2030* discusses how this initiative will assist the government in achieving its envisioned goals by creating a culture of research, innovation and entrepreneurship. It studies the current state of the field as well as new policies and reforms in Saudi Arabia which encompass education systems, ICT infrastructure and a vibrant innovation landscape that includes academia, the public and private sectors and civil society. The authors present a number of real-life case studies as a model of inspiration for cross-sector development. The book provides a source of inspiration for other nations in studying the KSA's determined and ambitious plans as a country in a transitioning journey, from a natural resources-based economy towards a knowledge-based country with considerable diversification in all sectors. This book is a useful reference for students, researchers and policy and decision-makers in understanding Saudi innovation and the economic diversification ecosystem.

Islamic Finance Hans Visser, 2019-12-27 In this extensively updated third edition, Hans Visser explores the ideas and concepts that drive and shape Islamic finance. This incisive book reviews the products, institutions and markets offered by Islamic finance in the modern marketplace, offering a critical discussion of the ways in which fiscal and monetary policy can be adapted to Islamic financial institutions. Visser offers new directions for economics and finance students, as well as students of Islamic finance and Islam studies more broadly.

Arab Development Outlook United Nations Economic and Social Commission for Western Asia, 2016-10-03 The Arab region is in crisis and it is easy to succumb to pessimism about its future. This report, however, embraces a vision of hope: one that illustrates the many ways in which the region can act to ensure its future security and prosperity. It envisages a day when authoritarianism, occupation, foreign domination and all forms of discrimination end. A vision of human development and economic prosperity implies that citizens are free to voice their opinions and practice their beliefs without fear, the rule of law applies equally to all, and the basic necessities for a decent life are affordable even for the least fortunate. It calls for choices to be made in

order to lay the foundations of an inclusive society, so as not to slip further into a spiral of deepening violence, instability and recession that would undermine development for generations to come. This report presents a vision of improved governance, advanced social justice and human well-being, transformed economies, and intensified regional integration; in short, an Arab region at peace, stable and prosperous.

The Report: Saudi Arabia 2015 Oxford Business Group, 2015-09-22 While Saudi Arabia's economy remains dominated by its hydrocarbons sector, several other sectors have emerged in recent years as key propellers of economic growth. The Kingdom's financial services industries have continued to expand steadily despite the liquidity challenges posed by falling oil prices. Trade and investment are being treated as key priorities as the government looks to negotiate this altered economic landscape, aiming to leverage its large population, high per capita income and many sea and air links. The country's capital markets sector meanwhile is poised for a period of significant growth on the back of the opening of Tadawul to international investors in 2015 and the raft of regulatory upgrades implemented as result. The domestic insurance industry, which remains dominated by the motor and medical segments, has enjoyed double-digit growth over the past five years in both revenue and net profit. Elsewhere the targets outlined in Vision 2030 indicate that a period of greater opportunity and integration is on the horizon for private players operating in core sectors such as health care, utilities, industry and ICT.

Prophets and Princes Mark Weston, 2011-04-20 Saudi Arabia: oil-rich, devoutly Muslim, and a vital ally To many in the West, Saudi Arabia is easy to criticize. It is the birthplace of Osama bin Laden and fifteen of the nineteen 9/11 hijackers. Saudi women are not permitted to drive, work with men, or travel without a man's permission. Prior to 9/11, the Saudis sent millions of dollars abroad to schools that taught Muslim extremism and to charities that turned out to be fronts for al-Qaeda. In *Prophets and Princes*, a highly respected scholar who has lived in Saudi Arabia contends that despite these serious shortcomings, the kingdom is still America's most important ally in the Middle East, a voice for moderation toward Israel, and a nation with a surprising ability to make many of the economic and cultural changes necessary to adjust to modern realities. Author Mark Weston offers an objective and balanced history of the only nation on earth named after its ruling family. Drawing on interviews with many Saudi men and women, Weston portrays a complex society in which sixty percent of Saudi Arabia's university students are women, and citizens who seek a constitutional monarchy can petition the king without fear of reprisal. Filled with new and underreported information about the most controversial aspects of life in Saudi Arabia, *Prophets and Princes* is a must-read for anyone interested in the Middle East, oil, Islam, or the war on terror..

Ethical Dimensions of Islamic Finance Zamir Iqbal, Abbas Mirakhor, 2017-09-27 This book provides an introductory theoretical foundation of the ethics embedded in Islamic economics and finance, and it shows how this ethical framework could pave the way to economic and social justice. It demonstrates how Islamic finance—a risk-sharing and asset-backed finance—has embedded universal values, ethical rules, and virtues, and how these qualities may be applied to a supposedly value-neutral social science to influence policy-making. This book argues that ethical and responsible finance, such as Islamic finance, could lead the efforts to achieve sustainable economic development.

Iqbal and Mirakhor then conduct a comparative analysis of Islamic and conventional financial systems and present Islamic finance as an alternative that can address today's growing problems of inequality, social injustice, financial repression, unethical leadership, and lack of opportunity to share prosperity.

The Politics of Truth Management in Saudi Arabia Afshin Shahi, 2013-12-04 Exploring the management of 'truth' in the Kingdom of Saudi Arabia, this book aims to investigate the ways in which the official 'truth' is constructed and institutionalised in the country. The Politics of Truth Management in Saudi Arabia argues that there are two interrelated notions which articulate the ways in which 'truth' is conceptualised in Islam. One, at macro level, constitutes the trans-historical foundational principles of the religion, a set of engrained beliefs, which establish the 'finality', and 'oneness' of Islam in relation to other competing narratives. The other, at a micro level, takes place internally to find 'truth' within the 'truth'. Unlike Islamic truth at the macro level, which is entrenched, the Islamic truth at the micro level refers to the various attempts by different agencies to claim to have found the 'truth' within the 'truth'. Wahhabism, which is the product of an eighteenth century revivalist movement, is portrayed as the most 'authentic' reading of Islam. It is seen as the *raison d'être* for the prevailing political mechanism in the country and is introduced as an example of truth management at the micro level. Arguing that truth is not born in a power vacuum and often its construction and institutionalisation signify domination in one way or another, this book will be of interest to students of Religion, Politics, and Saudi Politics more specifically.

Saudi Arabia and the Path to Political Change Mark C. Thompson, 2014-06-16 State-society dialogue in Saudi Arabia is one of the most contested issues in the country today, yet little is known about the National Dialogue process, and its relationship with Saudi society is frequently and widely misunderstood. The first to examine the Saudi Arabian National Dialogue process in its entirety, Mark C. Thompson investigates the relationship between the King Abdulaziz Center for National Dialogue (KACND) and the key social constituencies of Saudi society. Since its establishment in 2003, the KACND has attempted to promote a culture of dialogue and has encouraged the debate of contentious socio-political issues by bringing individuals together from across the Kingdom. Drawing on Antonio Gramsci's theory of hegemony, the author asks whether the Saudi socio-political system is moving from a form of patrimonial state to one of ideological hegemony and, if this is the case, whether the KACND is a catalyst, or even a driving force, in this transition. *Saudi Arabia and the Path to Political Change* investigates the practices and the impact of the KACND and assesses the extent to which the institution's activities, and the ongoing National Dialogue process, represent a viable attempt to address emerging political concerns in Saudi Arabia. Covering pivotal issues including women's empowerment, public health and employment, the author here explores the extensive impact of the KACND's activities on internal cross-constituency communication and discourse and shows how the process relates to wider regime strategies and to the evolution of the Saudi polity. Based on approximately 120 interviews conducted in Saudi Arabia from 2009 to 2011 and drawing on the evidence of a wide

range of focus groups and interviews with National Dialogue participants, KACND officials, government ministers, lawyers and journalists, this book provides a unique insight into the effects and consequences of Saudi National Dialogue, and questions the extent to which wider ideological debate is possible in the Kingdom.
