Mystic Miracles – Book 1 C. A. Baxter,2023-07-21 Imagine a world, not unlike the wizard's world of J. K. Rowling, but a mystical world, set in the angelic realms made of 10 kingdoms where even angels have their problems and go to school! The Head Angel at the Angel Academy calls upon the talents of the crystal child – Crystalina – who has a special gift for working with crystals and along with the Crystal Council, she uses her powers to protect and save the 10 kingdoms from enemies, one such enemy being the evil Sharaha, the Black Crystal Queen. Crystalina needs help from her brave band of friends, Luke and John (two angels in training from the Angel Academy who have to earn their wings), one knight to be, Jeffrey, a girl called Angela and Gravitass, the King of Gravity and Pelippa, the Queen of Speed. But will that be enough to defeat Sharaha, the ruler of the Kingdom of Sound? She schemes to cause havoc in the Kingdom of Light and on Tempura, spreading disorder throughout the other kingdoms. She hopes that by doing so she can overthrow the Crystal Council in the process. Will they have to call upon higher help from that mightiest of mystical creatures – the King of the Unicorns?

Jelly Clare Rees,2021-05-18 A survival story unlike anything you've ever read—perfect for fans of Patrick Ness and Rory Power The biggest problem with being trapped on a jellyfish isn't what you'd expect. You get over the fear of death (because you start looking forward to it) and the smell of fish (because it quickly becomes your breakfast, lunch, and dinner). Boredom is an issue, sure, but it's not the main one; the biggest problem is not being able to get away from everyone. Martha is stuck on the back of the jellyfish and has been for a long time. She and everyone else living there don't know how exactly they got there or how long they've been there or where they're going—they just remember that something traumatic happened. And they can't escape. But now, the crew has finally had enough. They're going to escape the jellyfish—or die trying. (Which probably means dying.) Funny, strange, and completely original, Jelly is an unforgettable young adult debut.

147 Things Jim Chapman,2017-10-05 It's Sapiens for teenagers.' The Times LIFE IS WEIRD. Nothing gives you a sense of perspective like finding out just how weird. I'm an extremely curious chap and with this book I wanted to share the content of my noggin, because I think these are the 147 things that have helped me through this thing we call life. Sometimes because it shows how lucky we are to be here at all, but often because I'm a moron and learned whatever lesson it taught me the hard way, and I'd like to save you the pain of making the same mistakes (I refer here to the waxing of my pubic hair). Ever wondered if first times are over-rated (hint: they are), whether you'll ever find the one (hint: there are 7 billion of us) or pondered the sheer unlikelihood of the you who is you being in the world right now? If so, then YouTube superstar and fact-obsessed, over-sharer Jim Chapman is here to explain it all – whether it's why your heart actually aches after a break-up, what's happening when you get hangry, or why people are just so plain RUDE online. Along the way, we'll find out how much fun he has when Tanya's sleep-talking and why he looked like a gangly T-rex with wonky teeth when he was a teenager. As with his videos, no subject is off-limits, as Jim lifts the lid on his life and his relationships, sharing embarrassing stories and things he's learnt along the way (trust us, the thing about kangaroos will really freak you out).

Jellyfish is quietly crooning in the shallows, when knife-nosed Swordfish swooshes, races and chases her, down, down, down, deep into the dark blue sea. Blindsight Peter Watts,2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, Blindsight Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You

send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
