Indian Antiquary ,1908 At a time when each Society had its own medium of propagation of its researches ... in the form of Transactions, Proceedings, Journals, etc., a need was strongly felt for bringing out a journal devoted exclusively to the study and advancement of Indian culture in all its aspects. [This] encouraged Jas Burgess to launch the 'Indian antiquary' in 1872. The scope ... was in his own words 'as wide as possible' incorporating manners and customs, arts, mythology, feasts, festivals and rites, antiquities and the history of India ... Another laudable aim was to present the readers abstracts of the most recent researches of scholars in India and the West ... 'Indian antiquary' also dealt with local legends, folklore, proverbs, etc. In short 'Indian antiquary' was ...entirely devoted to the study of MAN - the Indian - in all spheres ... -- introduction to facsimile volumes, published 1985.

The Genesis of the Falklands (Malvinas) Conflict M. González, 2013-11-12 Drawing on a wide range of British and Argentine sources, this book highlights the importance of the neglected 1960s as the decade in which the dormant Falklands (Malvinas) dispute became reactivated, developing into a dynamic set of bilateral negotiations on the question of sovereignty.

Colonial Trauma and Postcolonial Anxieties Maureen Sioh, 2024-04-01 Colonial Trauma and Postcolonial Anxieties argues that economic decisions reflect unconscious anxieties about survival and dignity experienced in a cycle of repeat trauma tracing back to the original trauma of loss in colonialism. Readers will understand how emerging economies evaluate the costs and benefits of key economic policies in the postcolonial era using a psychoanalytical framework. While there are psychoanalytic studies of the economy and finance from a western perspective, there have been no sustained psychoanalytic studies from the perspective of East Asian economies, the fastest growing in the world. Scholars will also find the

methodology combining archival research with and field studies, including rare interviews with senior decision-makers useful in their own research since it is rare to find studies of social theory that are empirically rich. This book will be of interest to policymakers and scholars of political economy, international development, human geography, postcolonial studies, psychoanalysis, and area studies (Southeast and East Asia). The book can also be used as a text for graduate and upper level university courses.

Defences in Contract Andrew Dyson,James Goudkamp,Frederick Wilmot-Smith,2017-02-09 This book is the third in a series of essay collections on defences in private law. It addresses defences to liability arising in contract. The essays range from those adopting a predominantly black-letter approach to others that examine the law from a more theoretical or historical perspective. Some essays focus on individual defences, while others are concerned with the links between defences, or with how defences relate to the structure of contract law generally. One goal of the book is to determine what light can be shed on contract law doctrines by analysing them through the lens of defences. The contributors – judges and academics – are all leading jurists. The essays are addressed to all of the major common law jurisdictions.
