*Latinx Photography in the United States* Elizabeth Ferrer,2021-01-14 Whether at UFW picket lines in California's Central Valley or capturing summertime street life in East Harlem Latinx photographers have documented fights for dignity and justice as well as the daily lives of ordinary people. Their powerful, innovative photographic art touches on family, identity, protest, borders, and other themes, including the experiences of immigration and marginalization common to many of their communities. Yet the work of these artists has largely been excluded from the documented history of photography in the United States. Through individual profiles of more than eighty photographers from the early history of the photographic medium to the present, Elizabeth Ferrer introduces readers to Latinx portraitists, photojournalists, and documentarians and their legacies. She traces the rise of a Latinx consciousness in photography in the 1960s and '70s and the growth of identity-based approaches in the 1980s and '90s. Ferrer argues that in many cases a shared sense of struggle has motivated photographers to work purposefully, driven by a deep sense of resistance, social and political commitments, and cultural affirmation, and she highlights the significance of family photos to their approaches and outlooks. Works range from documentary and street photography to narrative series to conceptual projects. *Latinx Photography in the United States* is the first book to offer a parallel history of photography, one that no longer lies at the margins but rather plays a crucial role in imagining and creating a broader, more inclusive American visual history.

*Historical Narratives of Global Modern Art* Irina D. Costache,Clare Kunny,2023-07-31 Diversifying the current art historical scholarship, this edited volume presents the untold story of modern art by exposing global voices and perspectives excluded from the privileged and uncontested narrative of "isms." This volume tells a worldwide story of art with expanded historical narratives of modernism. The chapters reflect on a wide range of issues, topics, and themes that have been marginalized or outright excluded from the canon of modern art. The goal of this book is to be a starting point for understanding modern art as a broad and inclusive field of study. The topics examine diverse formal expressions, innovative conceptual approaches, and various media used by artists around the world and forcefully acknowledge the connections between art, historical circumstances, political environments, and social issues such as gender, race, and social justice. The book will be of interest to scholars working in art history, imperial and colonial history, modernism, and globalization.

**Turn-of-the-Century Photographs from San Diego, Texas** Ana Carolina Castillo Crimm,Sara R. Massey,2010-06-28 Situated in the South Texas borderlands some fifty miles west of Corpus Christi, San Diego was a thriving town already a hundred years old at the turn of the twentieth century. With a population that was 90 percent Mexican or Mexican American and 10 percent Anglo, the bicultural community was the seat of Duval County and a prosperous town of lumberyards, banks, mercantile stores, and cotton gins, which also supplied the needs of area ranchers and farmers. Though Anglos dominated its economic and political life, San Diego was culturally Mexican, and Mexican Americans as well as Anglos built successful businesses and made fortunes. This collection of nearly one hundred photographs from the estate of amateur photographer William Hoffman captures the cosmopolitan town of San Diego at a vibrant moment in its history between 1898 and 1909. Grouped into the categories women and their jobs, local homes, men and their businesses, children at school and church, families and friends, and entertainment about town, the photos offer an immediate visual understanding of the cultural and economic life of the community, enhanced by detailed captions that identify the subjects and circumstances of the photos. An introductory historical chapter constitutes the first

published history of Duval County, which was one of the most important areas of South Texas in the early twentieth century.

**García Alix Photographs** Alberto García-Alix, 2002 The hundred and fifty or so pictures that make up this retrospective of the work of Alberto Garcia-Alix (Leon, 1956) illustrate one of the most outstanding careers on the past quarter-century of Spanish photography. His artistic experience unfolds in a sort of poetic narration: that of his own private journey into the depths of the night. His ongoing autobiographical endeavour has driven him to document the chronicle of his time through a set of portraits which often include his own. Three different approaches can be discerned in his vast production. The initial period (1975-1982), to which most of his 35mm. work belongs; the eighties, which evidence the mature style of a sophisticated composer of frames; and the recent nineties, which witness a shift towards an increasingly cold, bare and essential perspective. Projects that reflect the multifaceted and heterodox nature of an artist whose oeuvre rooted in the most classical tradition of black and white photography.

**The God Who Riots** Damon Garcia, 2022-08-23 The God of the Bible was never neutral. Pointing to today's protests, riots, and strikes, popular YouTuber and public theologian Damon Garcia rallies progressive Christians to set aside niceness and the compulsive need for harmony to walk in Jesus's footsteps--the Jesus who flipped tables in the temple and shook empires.

**ESPAÑA OCULTA PB** ,1995-08-17 When Spanish photographer Cristina Garcia Rodero went to study art in Italy, in 1973, she fully understood the importance of home. Yet her time abroad formented a deeper interest in was happening in her own country and, as a

result, at the age of 23, Garcia Rodero returned to Spain and started a project that she hoped would capture the essence of the myriad Spanish traditions, religious practices and rites that were already fading away. What started as a five-year project ended up lasting 15 years and came to be the book *España Oculta* (Hidden Spain) published in 1989. At 39 years old, Garcia Rodero had managed to compile a kind of anthropological encyclopedia of her country. The work also captured a key moment in Spain's history – with Spanish dictator Franco dying in 1975, and the country commencing a period of transition – something that would come to have a huge effect on the way the nation's cultural traditions and rites were experienced and performed from then on.

*Adventure Capitalism* Raymond Craib, 2022-07-05 Imagine a capitalist paradise. An island utopia governed solely by the rules of the market and inspired by the fictions of Ayn Rand and Robinson Crusoe. Sound far-fetched? It may not be. The past half century is littered with the remains of such experiments in what Raymond Craib calls "libertarian exit." Often dismissed as little more than the dreams of crazy, rich Caucasians, exit strategies have been tried out from the southwest Pacific to the Caribbean, from the North Sea to the high seas, often with dire consequences for local inhabitants. Based on research in archives in the US, the UK, and Vanuatu, as well as in FBI files acquired through the Freedom of Information Act, Craib explores in careful detail the ideology and practice of libertarian exit and its place in the histories of contemporary capitalism, decolonization, empire, and oceans and islands. *Adventure Capitalism* is a global history that intersects with an array of figures: Fidel Castro and the Koch brothers, American segregationists and Melanesian socialists, Honolulu-based real estate speculators and British Special Branch spies, soldiers of fortune and English lords, Orange County engineers and Tongan navigators, CIA operatives and CBS news executives, and a new breed of techno-utopians and an old guard of Honduran coup leaders. This is not only a history of our time but, given the new iterations of privatized exit—seasteads, free private cities, and space colonization—it is also a history of our future.

*New York Magazine*, 1971-10-11 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.
