Following a military career, Alex Martell starts working for an auto tool company in London - which has a production factory in Albania. Alex becomes aware that this factory could possibly manufacture the machine gun which Alex has designed ... that is, of course, if the factory owners in Albania can be persuaded to take that moral step. Meanwhile, on the other side of London, Gemma Lott is building up her computer game company with honest hard graft. Following a family tragedy, her sole focus is to give herself and her oldest friend, the outrageous Karla, a steady income. Then, by chance, a simple act of fate crosses the paths of Gemma and Alex. They fall deeply in love, get married and create a happy family. Alex keeps his

real business a dark secret from Gemma. He is unable to tell her that the tool company in London, which he now owns, is actually a front for selling machine guns to terrorist organizations. Due to its expansion - most activities having been moved abroad for security reasons. Alex never feel secure but accept it as part of his life Years pass before Gemma suddenly stumbles upon the truth about her husband's seriously questionable profession. Their comfortable and seemingly happy life is within hours turned upside down. Shocked and horrified, she is confronted by a dilemma. The world press are demanding answers, which she can't give – while she is considering their children and their previous happy life together. Should she stand by her morale principles ... or should she stand by her man? The depth of Alex's deceit not only puts Gemma and her family at risk but also her successful computer game company. Karla persuades her to go to the police right away. Alex immediately flees to a remote church in Jutland, Denmark and then into hiding in an abbey in France. Gemma, meanwhile, is left in London to face the consequences alone of Alex's dishonourable profession. She finally ends up in prison herself, having not being believed. husband and some years later she goes in search of Alex. This exciting thriller by bestselling Scandinavian author John Eidemak, tells the story of what in life can be most valuable.

2 Blocks Down Riley Mitchell, 2019-03-08 Y2K... a time when the music world was filled with new directions and a lot of new groups. A time far past the music I grew up with. A time when my teenage children were discovering their own musical likes and dislikes. Teen Pop... Dance Pop... Bubblegum Pop... Brit Pop... Euro Pop... to name just a few of the genres. Enter four bubbly, high-energy, teenagers from Sweden, with voices that worked perfectly together. Discovered by another Swedish vocalist, who traded in singing for songwriting and managing, these kid's amazing journey began in the blink of an eye... They opened for a number of established acts, released their first CD in multiple countries, performed on a number of major TV shows, had songs on at least three movie soundtracks, released a DVD of their lives on the road, sold a million records, and finished recording their second album as well. The thing is, they managed all this, in three short years... Then one day, as quickly as it started, it was over. They went their own ways... back to their own lives. Fifteen years later,

Alexander Brooks drops into their lives... and pretty much upends all of them. Alex has just one motto - 'All Things Are Possible', and he fully intends to prove it. It takes him eight months to not only convince them he isn't crazy, but that his 'idea' is one of the better ones he has come up with. Best of all, is the reason he gives them to drop everything, and play along... 'Because you can... '

Alex Faraway G. F. Brynn, 2024-01-30 Only a week after a fierce battle in the abandoned scrapyard against the wicked horde of large insect-bots known as The Others, culminating in their destruction when the huge Mars Biosphere spaceship blasted its way out of the scrapyard, Alex Faraway waits impatiently for his long-missing father's promised return from that planet. But Dart, Alex's large, robotic Guardian Dragonfly, is unsure if the sinister creatures from his own past are gone for good. The robot flies regular patrols over the 100 acre scrapyard until one morning he abruptly disappears. Alex goes in search of his adventurous friend, unaware that the plot to invade Mars and destroy the last remaining Martians before they awaken from their hibernation Time Tombs is far from finished. The battle from the previous week has only added weight to the might of The Others and has

triggered the arrival in the scrapyards of an ever more powerful robot - one with brutish motivation to complete the creation of a deadly machine from ten thousand years ago. And now, not only is Mars in their sites, but Earth is as well. Something new, powerful, and frightening is also happening to Alex Faraway with each passing day and each time he uses the strange Martian-made device called a Luss. His nightly dreams of an ancient people long forgotten are growing more physical in nature as the Glass Tunnels blur the immutable barrier between past and present, dreams and reality. The Ghosts and the Nethlins are coming. And all the while, the unknown rogue world, the shadowy Planet X, draws ever nearer to its ten-thousand-year close-encounter with Mars. What mysteries from the distant past does that strange glittering world hold?

This is a story of their plight, from freedom into slavery and sometimes back to freedom. Across the globe, not only humans but also exotic animals, precious gems, timber, petroleum, natural gas, and other limited natural resources face similar perils and are illegally transported through the same distribution pipelines. In a world faced with rapidly diminishing resources, the theft of human life and scarce

resources has become a major criminal enterprise across the globe. To stop this criminal epidemic, the public must be aware and prepared to report any suspicious activity pertaining to any of the crimes previously mentioned. This should be reported immediately to the appropriate authorities. Personal intervention is not advised unless it's the only viable option.

First Casualty Toby Harnden, 2021-09-07 An award-winning journalist reveals the dramatic true story of the CIA's Team Alpha, the first Americans to be dropped behind enemy lines in Afghanistan after 9/11. America is reeling; Al-Qaeda has struck and thousands are dead. The country scrambles to respond, but the Pentagon has no plan for Afghanistan—where Osama bin Laden masterminded the attack and is protected by the Taliban. Instead, the CIA steps forward to spearhead the war. Eight CIA officers are dropped into the mountains of northern Afghanistan on October 17, 2001. They are Team Alpha, an eclectic band of linguists, tribal experts, and elite warriors: the first Americans to operate

inside Taliban territory. Their covert mission is to track down Al- Qaeda and stop the terrorists from infiltrating the United States again. First Casualty places you with Team Alpha as the CIA rides into battle on horseback alongside the warlord Abdul Rashid Dostum. In Washington, DC, few trust that the CIA men, the Green Berets, and the Americans' outnumbered Afghan allies can prevail before winter sets in. On the ground, Team Alpha is undeterred. The Taliban is routed but hatches a plot with Al- Qaeda to hit back. Hundreds of suicidal fighters, many hiding weapons, fake a surrender and are transported to Qala-i Jangi—the “Fort of War.” Team Alpha's Mike Spann, an ex-Marine, and David Tyson, a polyglot former Central Asian studies academic, seize America's initial opportunity to extract intelligence from men trained by bin Laden—among them a young Muslim convert from California. The prisoners revolt and one CIA officer falls—the first casualty in America's longest war, which will last two decades. The other CIA man shoots dead the Al-Qaeda jihadists attacking his comrade. To survive, he must fight his way out against overwhelming odds. Award-winning author Toby Harnden gained unprecedented access to all living Team Alpha members and every level of the CIA. Superbly

researched, First Casualty draws on extensive interviews, secret documents, and deep reporting inside Afghanistan. As gripping as any adventure novel, yet intimate and profoundly moving, it tells how America found a winning strategy only to abandon it. Harnden reveals that the lessons of early victory and the haunting foretelling it contained—unreliable allies, ethnic rivalries, suicide attacks, and errant US bombs—were ignored, tragically fueling a twenty-year conflict. Masterful, complex, and heartfelt, from the deeply personal to the critically strategic. Captures many lessons on many levels.
