**A Casual Revolution** Jesper Juul,2012-02-10 How casual games like Guitar Hero, Bejeweled, and those for Nintendo Wii are expanding the audience for video games. We used to think that video games were mostly for young men, but with the success of the Nintendo Wii, and the proliferation of games in browsers, cell phone games, and social games video games changed changed fundamentally in the years from 2000 to 2010. These new casual games are now played by men and women, young and old. Players need not possess an intimate knowledge of video game history or devote weeks or months to play. At the same time, many players of casual games show a dedication and skill that is anything but casual. In A Casual Revolution, Jesper Juul describes this as a reinvention of video games, and of our image of video game players, and explores what this tells us about the players, the games, and their interaction. With this reinvention of video games, the game industry reconnects with a general audience. Many of today's casual game players once enjoyed Pac-Man, Tetris, and other early games, only to drop out when video games became more time-consuming and complex. Juul shows that it is only by understanding what a game requires of players, what players bring to a game, how the game industry works, and how video games have developed historically that we can understand what makes video games fun and why we choose to play (or not to play) them. They both lived with their mum in a tired little terraced house that was in total disrepair. Their mum totally doted on them and although she was struggling trying to cope on her own she never showed it. Every weekend she took them for a picnic come rain or shine to the local country park that was home to an old castle ruins. The children would go exploring while their mum sat in the same spot every week taking in every inch of the breath-taking scenery. This is where they all were today. A fine spring Saturday, the sun was shining and the birds were singing their spring songs. But little does this simple perfect family know that today would not be like every other Saturday they'd known, today was going to be the day that would change their lives forever and life as they knew it was never going to be the same again.

*When Parents Text* Sophia Fraioli,Lauren Kaelin,2011-09-01 A collection of insanely funny texts between parents and kids, When Parents Text is a surprisingly affecting window into the complicated time when parents aren't ready to let go, and kids aren't ready to be let go. The parents are well-meaning but hopeless, silly and a little corny, and befuddled by the technology. The kids are bewildered yet patient: the perfect straight man. And the authors, two recent college graduates, Lauren Kaelin and Sophia Fraioli, have an unerring editorial instinct to select the funniest, sweetest, quirkiest, most-telling exchanges. There's the revelatory: Mom: My fingers are saying words. This is amazing. The virtual scolding:Dad: I will deal with your sassy behavior when I get home. Meanwhile have some fiber. The autofill-challenged: Mom: dig up some tadpoles on ur way homo. Me: ummm, what? Mom: It autocorrected me. I mean to say dig up some tadpoles on ur way homo. (4 minutes later) Mom: PICK UP SOME TAMPONS ON YOUR WAY HOME. The manically inappropriate:Mom: Woo Hoo—Ruth died, you know Uncle Lyman's wife, BUT I have your Braves tickets and check on the table!! And the downright inexplicable:Dad: You could poop your pants in the yankee candle store and no one would know. Launched as a website just last year, www.whenparentstext.com is a phenomenon. It receives 300,000 to 500,000 page views a day, with features in The Huffington Post, Entertainment Weekly, College Humor, and more. When Parents Text includes the best of texts from the website, plus more than 50 percent all-new material never before published. Includes an emoticon glossary and 16-page color insert of MMS texts— multimedia messaging service, aka, bizarre photos from mom and dad. It's the perfect gift for every text-savvy kid to give to his or her parents.

**Cultural Code** Phillip Penix-Tadsen,2016-02-19 How culture uses games and how games use culture: an examination of Latin America's gaming practices and the representation of the region's cultures in games. Video games are becoming an ever more ubiquitous element of daily life, played by millions on devices that range from smart phones to desktop computers. An examination of this phenomenon reveals that video games are increasingly being converted into cultural currency. For video game designers, culture is a resource that can be incorporated into games; for players, local gaming practices and specific social contexts can affect their playing experiences. In Cultural Code, Phillip Penix-Tadsen shows how culture uses games and how games use culture, looking at examples related to Latin America. Both static code and subjective play have been shown to contribute to the meaning of games; Penix-Tadsen introduces culture as a third level of creating meaning. Penix-Tadsen focuses first on how culture uses games, looking at the diverse practices of play in Latin America, the ideological and intellectual uses of games, and the creative and economic possibilities opened up by video games in Latin America—the evolution of regional game design and development. Examining how games use culture, Penix-Tadsen discusses in-game cultural representations of Latin America in a range of popular titles (pointing out, for example, appearances of Rio de Janeiro's Christ the Redeemer statue in games from Call of Duty to the tourism-promoting Brasil Quest). He analyzes this through semiotics, the signifying systems of video games and the specific signifiers of Latin American culture; space, how culture is incorporated into different types of game environments; and simulation, the ways that cultural meaning is conveyed procedurally and algorithmically through gameplay mechanics.
