International Financial Statistics, January 2016 International Monetary Fund. Statistics Dept.,2016-01-04 This January 2016 issue of International Financial Statistics (IFS) is a standard source of statistics on all aspects of international and domestic finance. IFS, Balance-of-Payments Statistics, Direction of Trade Statistics, and Government Finance Statistics are available on CD-ROM by annual subscription. The IMF normally determines the currencies that are used in transactions and operations with members. Each quarter, the IMF prepares a financial transactions plan, in which it indicates the amounts of currencies and SDRs to be used during the relevant period. The monthly printed issue of IFS reports current monthly, quarterly, and annual data, while the yearbook reports 12 observations of annual data. In IFS, exchange rates are expressed in time series of national currency units per SDR and national currency units per US dollar, or vice versa.

The Death of the Irreparable Injury Rule Douglas

Laycock, 1991-01-17 The irreparable injury rule says that courts will not grant an equitable remedy to prevent harm if it would be adequate to let the harm happen and grant the legal remedy of money damages. After surveying more than 1400 cases, Laycock concludes that this ancient rule is dead--that it almost never affects the results of cases. When a court denies equitable relief, its real reasons are derived from the interests of defendants or the legal system, and not from the adequacy of the plaintiff's legal remedy. Laycock seeks to complete the assimilation of equity, showing that the law-equity distinction survives only as a proxy for other, more functional distinctions. Analyzing the real rules for choosing remedies in terms of these functional distinctions, he clarifies the entire law of remedies, from grand theory down to the practical details of specific cases. He shows that there is no positive law support for the most important applications of the legal-economic

theory of efficient breach of contract. Included are extensive notes and a detailed table of cases arranged by jurisdiction.
