Steam Trains and Jigsaw Puzzles David Platt, 2007-07-18 Steam Trains and Jigsaw Puzzles strikes most people as an intriguing title. The origin is simple, however my trainspotting youth has been synchronized with a later interest in jigsaw puzzles. The result is expensive I have a collection of over 250 jigsaws depicting British steam railways. The conclusion is impossible there are over 500 steam railway jigsaw puzzles to collect and they are being supplemented annually. The Liverpool & Manchester Railway marked the arrival of the true passenger railway service in 1830 and presented jigsaw manufacturers with another subject on which to focus. Prior to this date the jigsaw experience, started by John Spilsbury in c1760, was restricted to subjects such as religion, geography, history, monarchs, the alphabet and art. Many characteristics combine to form the basis of nostalgic images buried indelibly in the minds of people who travelled in the steam railway age. Manufacturers have not been slow to tap into this nostalgia and produce jigsaws aimed at stirring those memories and inviting people to reflect on past experiences, good, bad or indifferent. Chad Valley, Victory, Good Companion, Falcon, Waddingtons and Arrow are just a few manufacturers who produced steam railway jigsaws in the past. Most of these companies are now a distant memory while others are in foreign ownership. Equally famous names such as Wentworth, Ravensburger (Germany), House of Puzzles, Gibsons, JR Puzzles and King Puzzles (Holland) continue the manufacturing tradition. Output is generally superb thanks to the efforts of fine railway artists such as Terence Cuneo, George Heiron, T. E. North, Don Breckon, John Austin, Barry Freeman and Malcolm Root. The book is aimed at anyone with an interest in jigsaw puzzles and at those enthusiasts and aficionados who refuse to allow those evocative memories of the Golden Age of Steam to die.

A Jigsaw Guide to Making Sense of the World Alex McLellan, 2012-10-03 Puzzled about life? Sometimes the world doesn't make sense. Things seem random and disconnected, and we wonder if there's any purpose to it all, any meaning to our lives. But what if everything could make sense? What if the pieces actually do fit together? Alex McLellan says that figuring out life is like assembling a jigsaw puzzle. You don't have to have every piece in place before you start to see the big picture. You just need enough important pieces to fit together. There are enough clues in the universe and in human experience to discern that there is an underlying order and significance to all things. McLellan explores competing views of truth and belief and examines the nature of doubt. Ultimately Christianity is reasonable because it resonates with how we see and experience the world. Even if we don't have absolute certainty, we have enough to go on to have confidence in the Christian worldview. You don't have to have all the answers. Just start putting the pieces together, and the big picture will emerge.

Jigsaw Reading and Writing Activities John N. Sivell,Lily Hui-E Yang,1993 This reproducible activities kit emphasises academic reading, writing and discussion skills. The target audience for these materials is adult or young-adult students in high school, college, or college/university entrance courses. It has been devised to give students the chance to think, talk and write about real life topics. The book is structured in three units, each individual unit has four jigsaw parts, which are used first for reading and discussion and then, when they are thoroughly familiar to students, as examples for analysis and imitation in the process of improving writing skills. The book concentrates on realistic writing, not just exercises. There are drills and practice on specific language points, but only in preparation for much freer writing activities. The main thing is for students to develop their own arguments about subjects that matter. Includes an extensive Teacher's Notes on how to exploit the materials.
