*Midnight in Chattanooga* James Irwin,2010-06-17 During a five-year stretch in the middle of the decade, the James Madison Dukes emerged as one of the elite programs in FCS football. Behind a confident coach and an established recruiting pipeline, the Dukes steamrolled their way to four playoff appearances, one national championship and a 49-15 record from 2004-2008. The origins of this run, however, began much earlier — in critical moments and decisions made during a long rebuilding effort. Madison football had most recently been marked by poor attendance, young players, mediocrity and tragedy when the 2004 season opened. And yet there also existed a foundation of camaraderie, purpose and talent — the building blocks of a successful program. As the '04 season got underway, the backdrop of an embattled coach, a quarterback controversy and a family in pain gave way to thrilling plays, comeback victories, and a historic run that changed the future of the program. In *Midnight in Chattanooga*, James Irwin examines the disparity between the pre- and post-championship landscapes of JMU football, giving readers an exclusive look at the pivotal season — and game — that catapulted the Dukes to the upper levels of the FCS arms race. Fortunate to cover the Dukes throughout the 2004 season, Irwin weaves through a powerful story of a group of men on the doorstep of their first championship, the friendships they developed, the tragedies they overcame, and the community that embraced them.

**Elusive Togetherness** Paul Lichterman,2012-01-06 Many scholars and citizens alike have counted on civic groups to create broad ties that bind society. Some hope that faith-based civic groups will spread their reach as government retreats. Yet few studies ask how, if at all, civic groups reach out to their wider community. Can religious groups--long central in civic America--create broad, empowering social ties in an unequal, diverse society? Over three years, Paul Lichterman studied nine liberal and conservative Protestant-based volunteering and advocacy projects in a mid-sized American city. He listened as these groups tried to create bridges with other community groups, social service agencies, and low-income people, just as the 1996 welfare reforms were taking effect. Counter to long-standing arguments, Lichterman discovered that powerful customs of interaction inside the groups often stunted external ties and even shaped religion's impact on the groups. Comparing groups, he found that successful bridges outward depend on group customs which invite reflective, critical discussion about a group's place amid surrounding groups and institutions. Combining insights from Alexis de Tocqueville, John Dewey, and Jane Addams with contemporary sociology, *Elusive Togetherness* addresses enduring questions about civic and religious life that elude the popular social capital concept. To create broad civic relationships, groups need more than the right religious values, political beliefs, or resources. They must learn new ways of being groups.
