As Is: An Insider's Guide to Real Estate Joan Herlong, 2023-09-26 With over 30 years of experience in real estate in the Upstate of South Carolina, Joan Herlong knows there's more to buying and selling houses than what you see on HGTV. In this book, she shares everything she has learned about her often misunderstood profession, including how to separate the professional agents from the part-timers, how she trains her company's agents to succeed by serving their clients, plus proven, practical advice she gives to buyers and sellers to help them get the most out of every real estate transaction. Featuring humorous, sometimes unbelievable anecdotes from three decades in the field, it's everything you need to know about real estate but didn't know to ask. It's a must-read for anyone considering buying or selling a home, or someone looking to build a successful and sustainable career as a real estate professional.

**Naturalistic Decision Making** Caroline E. Zsombok, Gary Klein, 2014-01-02 If you aren't using the term naturalistic decision making, or NDM, you soon will be. Even as a very young field, NDM has already had far-reaching applications in areas as diverse as management, aviation, health care, nuclear power, military command and control, corporate teamwork, and manufacturing. Put simply, NDM is the way people use their experience to make decisions in the context of a job or task. Of particular interest to NDM researchers are the effects of high-stake consequences, shifting goals, incomplete information, time pressure, uncertainty, and other conditions that are present in most of today's work places and that add to the complexity of decision making. Applications of NDM research findings target decision aids and training that help people in their decision-making processes. This

book reports the findings of top NDM researchers, as well as many of their current applications. In addition, the book offers a historical perspective on the emergence of this new paradigm, describes recent theoretical and methodological advancements, and points to future developments. It was written for people interested in decision making research and applications relative to a diverse array of work settings and products such as human-computer interfaces, decision support systems, individual and team training, product designs, and organizational development and planning.

Perspectives on Mental Representation Jacques Mehler, Edward C.T. Walker, Merrill Garrett, 2017-03-16 Originally published in 1982, the editors felt that their field was clearly in need of explanatory accounts for many different areas. This volume presents statements of the status of research in several areas by scholars at the forefront of the discipline. It tries at the same time to juxtapose theoretical and experimental perspectives in order to display some of the major lines of tension in the field. Divided into 5 parts it covers: Theoretical Perspectives; Experimental Studies in Processing; Neuropsychological Studies in Processing; Studies in Development; followed by Commentary on some specific chapters.

**New Bar and Club Design** Bethan Ryder, 2005 Following the highly successful Bar and Club Design (2002), New Bar and Club Design examines current international trends, showcasing 47 bars and clubs completed since 2001. The 1990s restaurant boom led to an increase in both the volume and diversity of restaurants, and this in turn heralded an increasingly sophisticated bar market. There has been a resurgence of cocktail culture and an explosion of the 'style bar' - professionally designed venues that serve high-quality drinks. As this book demonstrates, such bars continue to open in cities from New York to Moscow, Beirut to Kuala Lumpur. There is also a trend in lower-budget designer bars that are as visually interesting as the big budget productions, such as Andy Wahloo in Paris and Opal

in London. Likewise, club culture continues to thrive. Many nightclubs are cosier than the 'superclubs' so popular during the late 1980s and '90s, and recent years have seen the emergence of the 'boutique club' - small, exclusive nightclubs where the focus has returned to the music, the sound system and the dancing. Other alternatives include late-night lounge bars with DJs that cater to the 'grown-up clubber', offering comfort and luxury rather than an empty shell in which to dance. Some 'superclubs' are still being built and these offer the very best in technology and audiovisual entertainment, usually laid out over several different areas. This book explores the design Zeitgeist of bar and club culture worldwide. Following a brief introduction tracing the latest international trends, four themed chapters on bars, restaurant bars, hotel bars and clubs showcase the most interesting and unusual venues from around the world. New Bar and Club Design is a must for anyone with an interest in interior design, bar or club culture.--BOOK JACKET.

A Box of Darkness Sally Ryder Brady,2011-02-01 In the tradition of Joan Didion's The Year of

Magical Thinking, comes a poignant memoir about a marriage that was as deep and strong as it was mysterious and complex. Upton and Sally Brady were a rare breed: cultivated and elegant, they lived a life of literary glamour and high expectations. Sally a debutante; Upton a classics major from Harvard, they met at the Boston Cotillion. He was articulate, witty, and worldly, and he danced like Fred Astaire. How could she resist? Despite raising four children on Upton's modest wage as the editor-in-chief of the Atlantic Monthly Press, theirs was a world of champagne, sailboats, private islands, famous writers, family rituals, and ice-cold martinis. They lived life on their terms. But as time wore on, Upton, the charming and brilliant husband, the inventive, beguiling partner, grew opinionated, cranky, controlling, and dangerous. When Upton died suddenly one evening in their Vermont cottage, Sally began uncovering secrets. As she went through his papers, she discovered that her husband of forty-six years had desired the love of other men. Her riveting, charismatic husband was not quite the man he appeared to be, and a year of mourning became for Sally a time to unravel the dark and unexpected web he had left behind. Hers is a moving and powerful story of coming to terms with what cannot be changed. It is also a story of great love.
