The Directory of Jobs & Careers Abroad ,1997

Jobs in the Sun Charles Davey,2006 For English speakers, the dream of working in a sunnier environment is easier to realise than for anyone else. Not only is English spoken in many parts of the world, and is often the first or second language of business in those countries, but there is great demand for native English speakers to teach

English. Complementing this demand for English speakers is the huge increase in the availability of cheap flights to warmer destinations - as a result, it's now far more practical to consider working abroad than ever before. For people considering a gap year before or after university, or for those seeking to take a career-break year that combines both travel and work experience, Jobs in the Sun examines the issues involved in working abroad, from taxation and visa issues to residency and job opportunities. Profiled countries include: the USA, Canada, South Africa, Australia, New Zealand, Spain, Portugal, France and Greece. Additional chapters cover summer vacation work and voluntary job opportunities, and the book concludes with useful addresses and other travel information.

Careers in Upheaval Simone Janson, 2024-01-10 What the 3rd edition brings you: You support climate protection, quickly receive compact information and checklists from experts (overview and press reviews in the book preview) as well as advice proven in practice, which leads to success step by step - also thanks to add-on. Because professional upheavals are the order of the day today and career paths have long since ceased to be predetermined: Rather crises, up and down as well as lifelong learning determine our career path. At the same time, many people are dissatisfied with their work, have often even resigned inwardly and would like to tap their full potential and set themselves new, more suitable goals and thus promote their personal growth. This book accompanies the new beginning: It shows chances and change possibilities as well as motivational blockades and helps to overcome the fear of the next step. It also provides concrete tips for a career change. We give you the best possible help on the topics of career, finance, management, personnel work and life assistance. For this purpose, we gather in each book the

best experts in their field as authors - detailed biographies in the book - , who give a comprehensive overview of the topic and additionally offer you success planner workbooks in printed form. Our guidebooks are aimed primarily at beginners. Readers who are looking for more in-depth information can get it for free as an add-on with individual content in German and English as desired. This concept is made possible by a particularly efficient, innovative digital process and Deep Learning, AI systems that use neural networks in translation. Moreover, we give at least 5 percent of our proceeds from book sales to social and sustainable projects. For example, we endow scholarships or support innovative ideas as well as climate protection initiatives and in some cases also receive government funding for this. With our translations from German into English we improve the quality of neural machine learning and thus contribute to international understanding. You can find out more on the website of our Berufebilder Yourweb Institute. Publisher Simone Janson is also a bestselling author as well as one of the 10 most important German bloggers according to the Blogger-Relevance-Index, furthermore she was a columnist and author of renowned media such as WELT, Wirtschaftswoche or ZEIT - more about her in Wikipedia.
