Step Forward 2E Introductory Student's Book Barbara Denman,Chris Mahdesian,2020-07-09 A five level four-skills course that integrates language instruction into meaningful, real-life contexts. conversation, and real-life reading, carefully developing learners' understanding through use of all

four skills. •A transparent lesson structure makes the text accessible to learners, while minimizing teacher preparation time. •Strong vocabulary and grammar strands provide learners with the tools they need to master language. •A variety of assessment tools allow teachers and learners to monitor progress. •Interactive CD-ROM PROGRAM! A Stand Alone Level (levels 1-4) Interactive CD-ROM Program that provides extensive practice of vocabulary, grammar and lifeskills through a unique blend of more than 300 activities, games and tests. language assessment. The first goal is to explore the difference between fairness and justice in language assessment. The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests which are used as gatekeeping devices to determine access to education and employment, immigrant status, citizenship, and other rights. The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics, in particular the models collectively known as Rasch measurement. “This book will have an enormous impact on the field of language assessment. Using Rasch analysis models to explore and identify sources of unfairness, the authors make a compelling case for fairness in the design and implementation of language assessment instruments and for justice in the interpretation and use of test results. A real strength of the book is that it guides readers through analytical techniques in an accessible way.” Dan Douglas, Professor Emeritus, Applied Linguistics Program, Iowa State University.

*Or Get in the Way!* D. Charles Gossman,2022-07-06 The phrase, “Lead, follow, or get out of the way,” is attributed to founding father Thomas Paine. Two hundred years later, those three choices are still quoted by the no-nonsense industry leaders who push through any obstacle to succeed at all costs. Dan Graham, however, found an important fourth choice that Paine never considered: sometimes, you have to get in the way! Whether competing with rocket scientists as a fresh-faced junior engineer or dodging labor union threats during his executive years, Graham prevailed despite a personality assessment that considered him too quiet and not promotable. In his journey through corporate America, Dan was exposed to great leaders, poor leaders, and just about every other kind in between. Like many today, he faced anxiety over missed promotions, combative relationships, toxic management, and foolish corporate directives. He also came to realize the importance of luck in shaping a career. *Or Get in the Way!* is a lighthearted look at corporate America’s leadership challenges through Dan Graham’s eyes. While much has changed over these last few years, many will catch a glimpse of the universal truths revealed in his corporate adventures. Enjoy this thinly veiled memoir, as we look in on Dan’s extended journey through a maze of jobs, humorous escapades, and—more importantly—life lessons still relevant today.

*Love 'Em or Lose 'Em, Sixth Edition* Beverly Kaye,Sharon Jordan-Evans,2021-03-02 This sixth edition of the number one bestselling employee retention book in the world (over 800,000 copies sold) puts a new emphasis on diversity and inclusion but keeps the same appealing format: twenty-six simple strategies from A to Z. Despite booms and busts, technology advances, talent wars, layoffs, and even a global pandemic, people want what they've always wanted. Employees want—and now expect—meaningful work, supportive bosses, regular recognition, and a chance to learn and grow. And managers want their amazing people to stay—for at least a little while longer. For two decades, this Wall Street Journal bestseller—over 800,000 sold—has offered twenty-six simple strategies, from A to Z, that managers can use to address their employees' real concerns and keep them engaged. The authors have gone over every word of the previous edition, revising, updating, and streamlining. This edition includes a timely focus on diversity and inclusion in every chapter. For example, chapter 6 focuses on family. Different cultures view family responsibilities differently, so the authors address how to take that into consideration when a treasured employee asks for extended leave to care for a grandparent. And a new section called “Conversations That Count” offers discussion questions for sparking deeper conversation around the topics in the book. This new edition will ensure that *Love 'Em or Lose 'Em* will continue to help managers all over the world create a supportive workplace culture so they can fight burnout and keep the people they can least afford to lose.

Hearings on Proposed Amendments to the Job Training Partnership Act United States. Congress. House. Committee on Education and Labor. Subcommittee on Employment Opportunities, 1991 This document records the oral and written testimony of persons testifying at Congressional hearings about proposed amendments to change and improve the Job Training Partnership Act (JTPA) of 1982. Witnesses testifying and/or presenting written testimony at the hearings included several Representatives, the Secretary of Labor (Lynn Martin), and representatives of local JTPA programs, Private Industry Councils, literacy programs, unions, and public agencies in the New Jersey and Pennsylvania areas. Witnesses said that there is concern about lack of oversight and fraud in the program, but that audits have found the actual incidence of fraud to be very small. Witnesses also stressed that the program has been successful and that more complicated government regulations could do more harm than good. Changes were suggested to allow the program to serve more than the cream of the eligible population, and additional funding was proposed to expand JTPA services to more than the 5 percent that are presently being served. More stringent and specific performance standards were also advocated. (KC)

**Teaching Students to Drive Their Brains** Donna Wilson, Marcus Conyers, 2016-06-28 Research suggests that metacognition is key to higher student achievement, but studies of classroom practice indicate that few students are taught to use metacognition and the supporting cognitive strategies that make learning easier. You can teach metacognition to your students, so why wouldn't you? This book shows you how. Metacognition is a tool that helps students unlock their brain's amazing power and take control of their learning. Educational researchers and professional developers Donna Wilson and Marcus Conyers have been exploring and using the explicit teaching of metacognition for years, and in this book they share a practical way to teach preK-12 students how to drive their brains by promoting the following practices: \* Adopt an optimistic outlook toward learning, \* Set goals, \* Focus their attention, \* Monitor their progress, and \* Engage in practices that enhance cognitive flexibility. Wilson and Conyers explain metacognition and how it equips students to meet today's rigorous education standards. They present a unique blend of useful metaphors, learning strategies, and instructional tips you can use to teach your students to be the boss of their brains. Sample lessons show these ideas in a variety of classroom settings, and sections on professional practice help you incorporate these tools (and share them with colleagues and parents) so that you are teaching for and with metacognition.

**Sensitive to Listen and Willing to Obey** Doris M. Arwine, 2014-05-15 God uses people daily to communicate His fragrance and message to us. Too often we don't check to see what aroma or impression we are leaving for others to see, hear, or smell. After visiting someone's home or before checking out of a motel, or when moving, we double check to make sure we haven't left anything behind. Even criminals check to make sure they haven't left any clues at the crime scene to identify them. A story reminded me of this. A robber thought he had committed the perfect crime. He assumed he left no clues behind. But he didn't count on someone remembering how he smelled. The smell he left behind was what helped convict him. Yes, we leave something everywhere we go. Stuart Holden reminded a young man moving from a boarding house of this fact when the young man said, he was just double checking to make sure he wasn't leaving anything behind. "There's one thing you will leave behind, young man, your influence."
