The Job Search Navigator Matt Durfee,2015-12-21 "A no-holds-barred view of career management in a turbulent world ... provides a reality-based perspective that should be of value to all who read [it]." —Len Schlesinger, president emeritus at Babson College, Baker Foundation professor, Harvard Business School In these uncertain times, The Job Search Navigator is a reliable guide to every step of the twenty-first-century job hunt, whether readers are laid off, wanting to change careers after surviving cutbacks, or seeking a better full-time gig in a stagnant marketplace. Author Matt Durfee writes from the perspective of someone who has both recruited for some of America's biggest companies and navigated his way through nine of his own job losses. The book combines practical real-world perspectives with the technical knowledge job seekers need in order to excel at every aspect of their searches. Drawing on the knowledge Durfee accumulated through his own experiences, searches, and big-brand corporate hiring responsibilities, The Job Search Navigator abandons the "clinical approach" of many other career-advice books. Instead, Durfee gives easy-to-follow strategies and, perhaps more importantly, recounts in illuminating detail the kinds of mistakes that led him to develop these strategies. "From the strategic to the emotional to the tactical—this is one of the most practical and useful books on career management I've read in a very, very long time." —L. Kevin Cox, chief human resources officer, American Express Company "Matt's expertise in this space is unmatched. We live in a world where constant reinvention is the rule and The Job Search Navigator is essential reading for those who want to take control of their career trajectory." —Scott Westerman, executive director & associate vice president for alumni relations, Michigan State University

Workforce Education William B. Bonvillian, Sanjay E. Sarma, 2021-02-02 A roadmap for how we can rebuild America's working class by transforming workforce education and training. The American dream promised that if you worked hard, you could move up, with well-paying working-class jobs providing a gateway to an ever-growing middle class. Today, however, we have increasing inequality, not economic convergence. Technological advances are putting quality jobs out of reach for workers who lack the proper skills and training. In Workforce Education, William Bonvillian and Sanjay Sarma offer a roadmap for rebuilding America's working class. They argue that we need to train more workers more quickly, and they describe innovative methods of workforce education that are being developed across the country.

<u>Cockpit Commander: A Navigator's Life</u> Bruce Gibson,2013-06-19 Previously self-published by the author, this book charts the course of a dramatic career as a Wing Commander. Living through one of the most dynamic periods in military and Aviation development history, Bruce Gibson saw events play out from his elevated aerial position. His fascinating story will appeal to a wide audience, focussing as it does not only upon Aviation concerns. From life as a mischievous child living in the East End of London, to realising his true direction and joining the RAF Air Volunteer Reserves in 1937, and then the Royal Air Force, and beyond into Aviation ventures in a Civilian capacity. His amusing observations and anecdotes provide the most colourful insight into life during the monochromatic blackout years of World War II, and beyond. Many historical records and operational logs are available on the market to those looking for cold facts and statistical analyses of events; this account features the human tales, the anecdotes and spirit of camaraderie which characterised Gibson's experiences.

Economic Dignity Gene Sperling,2020-05-05 "Timely and important ... It should be our North Star for the recovery and beyond." —Hillary Clinton "Sperling makes a forceful case that only by speaking to matters of the spirit can liberals root their belief in economic justice in people's deepest aspirations—in their sense of purpose and self-worth." —The New York Times When Gene Sperling was in charge of coordinating economic policy in the Obama White House, he found himself surprised when serious people in Washington told him that the Obama focus on health care was a distraction because it was "not focused on the economy." How, he asked, was the fear felt by millions of Americans of being one serious illness away from financial ruin not considered an economic bisue? Too often, Sperling found that we measured economic success by metrics like GDP instead of whether the economy was succeeding in lifting up the sense of meaning, purpose, fulfillment, and security of people. In Economic Dignity, Sperling frames the way forward in a time of wrenching change and offers a vision of an economy whose guiding light is the promotion of dignity for all Americans.
