Hansons Marathon Method Humphrey Luke,2012-11-27 In Hansons Marathon Method, the coaches of the Hansons-Brooks Distance Project reveal the methods they've used to turn their runners into race winners, national champions, and Olympians. Hansons Marathon Method offers a radical overhaul of marathon training that promises to turn any runner into a true marathoner and help experienced marathoners set new personal bests. Hansons Marathon Method does away with mega-long runs and high-mileage weekends--two outdated traditions that make most runners miserable. Instead, runners using the Hansons method will gradually build up to the moderate-high mileage required for marathon success, spreading those miles more sensibly throughout the week. Running easy days mixed with precisely paced speed, strength, and tempo workouts, runners will steel their bodies and minds to run the hardest miles of the marathon. Both Beginner and Advanced training programs feature the unique Hansons 16-mile long run which, as part of the Hansons program, is ideal for preparing the body for the marathon. Humphrey explains how runners should set their goal race pace and shows how to customize the Hansons method to their own needs, like adding extra racing, running more miles, and handling training interruptions. Detailed nutrition and hydration chapters help runners pinpoint their personal energy and hydration needs so they know precisely how much to eat and drink during workouts, race week, race day, and for recovery. The Hansons approach to pacing and nutrition means marathoners will never hit the wall. Hansons Marathon Method lays out the smartest marathon training program available from one of the most accomplished running groups in the nation. Using this innovative approach, runners will mold real marathon muscles, train their body to never hit the wall, and prepare to run their fastest marathon.

The Incomplete Book of Running Peter Sagal,2019-09-10 Peter Sagal, the host of NPR's Wait Wait...Don't Tell Me! and a popular columnist for Runner's World, shares "commentary and reflection about running with a deeply felt personal story, this book is winning, smart, honest, and affecting. Whether you are a runner or not, it will move you" (Susan Orlean). On the verge of turning forty, Peter Sagal--brainiac Harvard grad, short bald Jew with a disposition towards heft, and a sedentary star of public radio--started running seriously. And much to his own surprise, he kept going, faster and further, running fourteen marathons and logging tens of thousands of miles on roads, sidewalks, paths, and trails all over the United States and the world, including the 2013 Boston Marathon, where he crossed the finish line moments before the bombings. In *The Incomplete Book of Running*, Sagal reflects on the trails, tracks, and routes he's traveled, from the humorous absurdity of running charity races in his underwear--in St. Louis, in February--or attempting to "quiet his colon" on runs around his neighborhood--to the experience of running as a guide to visually impaired runners, and the triumphant post-bombing running of the Boston Marathon in 2014. With humor and humanity, Sagal also writes about the emotional experience of running, body image, the similarities between endurance sports and sadomasochism, the legacy of running as passed down from parent to child, and the odd but extraordinary bonds created between strangers and friends. The result is "a brilliant book about running...What Peter runs toward is strength, understanding, endurance, acceptance, faith, hope, and charity" (P.J. O'Rourke).

Born to Run Christopher McDougall,2010-12-09 A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

The Cool Impossible Eric Orton,2014-05-06 Featured in the book *Born to Run*, running coach Eric Orton offers a guide for every runner... Natural running is more than barefoot running. It's about the joy of running that we were all born with and can reawaken. With a program focused on proper form, strength development, and cardiovascular training, Orton will help beginners, competitors, and enduring veterans reach "the cool impossible"--the belief that any achievement, athletic or otherwise, is within our reach. Inside you'll find: * Foot strength exercises for runners to catapult performance, combat injuries, and transform technique * A total-body-strength program designed for runners * Step-by-step run-form coaching for performance and lifelong healthy running * A training program for building endurance, strength, and speed * No-nonsense nutrition for runners * Visualization and mind-training tactics to run and live the Cool Impossible * And much more... ATHLETICISM IS AWARENESS--awareness of form and technique, awareness of our effort level, and, most important, awareness of what we think. And with that awareness comes the endless potential for mastery and achievement beyond anything you thought possible. INCLUDES PHOTOS

The Road to Sparta Dean Karnazes,2016-10-25 The Road to Sparta is the story of the 153-mile run from Athens to Sparta that inspired the marathon and saved democracy, as told--and experienced--by ultramarathoner and New York Times bestselling author Dean Karnazes. In 490 BCE, Pheidippides ran for 36 hours straight from Athens to Sparta to seek help in defending Athens from a Persian invasion in the Battle of Marathon. In doing so, he saved the development of Western civilization and inspired the birth of the marathon as we know it. Even now, some 2,500 years later, that run stands enduringly as one of greatest physical accomplishments in the history of mankind. Karnazes personally honors Pheidippides and his own Greek heritage by recreating this ancient journey in modern times. Karnazes even abstains from contemporary endurance nutrition like sports drinks and energy gels and only eats what was available in 490 BCE, such as figs, olives, and cured meats. Through vivid details and internal dialogs, *The Road to Sparta* offers a rare glimpse into the mindset and motivation of an extreme athlete during his most difficult and personal challenge to date. This story is sure to captivate and inspire--whether you run great distances or not at all.

November Project: The Book Brogan Graham, Bojan Mandaric, Caleb Daniloff, 2016-04-12 November Project: The Book is the story of how two irreverent, way-outside-the-box fitness fanatics are flipping the fitness industry on its head and literally making the world a better place, one city at a time. No facility. No machines. Just two dudes and a tribe of thousands. Welcome to November Project's world takeover. What started 4 years ago as a simple monthlong workout pact between two former Northeastern University oarsmen in Boston has grown into an international fitness phenomenon. November Project espouses free, public, all-weather, outdoor group sweats that turn strangers into friends and connect everyone to the city in which they live. It's been described as everything from flashmob fitness to "the fight club of running clubs" and a cult. But November Project prides itself on defying categories. In November Project: The Book, Brogan Graham (a.k.a. BG) and Bojan Mandaric, in their own spicy, big-hearted words, chronicle, along with tribe member and writer Caleb Daniloff, their fitness movement's genesis, evolution, operations, membership, "secret sauce," and future—and along the way, show you how you can get fit and societally engaged. The book also includes illustrated workouts; the keys to meaningful civic engagement; information on using your city as a gym; advice on starting an NP tribe; tips on growing, sustaining, and invigorating membership through social media; and thoughts on the collective power of community.

What I Talk About When I Talk About Running Haruki Murakami, 2009-08-11 From the best-selling author of The Wind-Up Bird Chronicle and After Dark, a rich and revelatory memoir about writing and running, and the integral impact both have made on his life. In 1982, having sold his jazz bar to devote himself to writing, Haruki Murakami began running to keep fit. A year later, he'd completed a solo course from Athens to Marathon, and now, after dozens of such races, not to mention triathlons and a slew of critically acclaimed books, he reflects upon the influence the sport has had on his life and—even more important—on his writing. Equal parts training log, travelogue, and reminiscence, this revealing memoir covers his four-month preparation for the 2005 New York City Marathon and includes settings ranging from Tokyo's Jingu Gaien gardens, where he once shared the course with an Olympian, to the Charles River in Boston among young women who outpace him. Through this marvellous lens of sport emerges a cornucopia of memories and insights: the eureka moment when he decided to become a writer, his greatest triumphs and disappointments, his passion for vintage LPs and the experience, after the age of fifty, of seeing his race times improve and then fall back. By turns funny and sobering, playful and philosophical, What I Talk About When I Talk About Running is both for fans of this masterful yet guardedly private writer and for the exploding population of athletes who find similar satisfaction in distance running.

I Swear I'll Make It Up to You Mishka Shubaly, 2016-03-08 An odyssey of family, heartbreak, violence, punk rock, brokenness, broke-ness, sex, love, loss, drinking, drinking, drinking, and an unlikely savior: distance running. A misfit kid at the best of times, Mishka Shubaly had his world shattered when, in a twenty-four-hour span in 1992, he survived a mass shooting on his school's campus, then learned that his parents were getting divorced. His father, a prominent rocket scientist, abandoned the family and their home was lost to foreclosure. Shubaly swore to avenge the wrongs against his mother, but instead plunged into a magnificently toxic love affair with alcohol. Almost two decades later, Shubaly's life changed again when a fateful five-mile run after a bar fight inspired him to clean up his life. And when he finally reconnected with his estranged father, he discovered the story of his childhood was radically different from what he thought he knew. In this fiercely honest, emotional, and self-laceratingly witty book, Shubaly relives his mistakes, misfortunes, and infrequent good decisions: the disastrous events that fractured his life; his incendiary romances; his hot-and-cold career as a rock musician; meeting his newborn nephew while out of his gourd on cough syrup. I Swear I'll Make It Up to You is an apology for choices Shubaly never thought he'd live long enough to regret, a journey so far down the low road that it took him years of running to claw his way back.
