John de Witt, Grand Pensionary of Holland, 1625-1672 Herbert Harvey Rowen,2015-03-08 Known to his contemporaries for his sharpness of mind, strength of purpose, fortitude, and good humor, John de Witt was a brilliant leader whose career ended in a death of horror rarely paralleled in history. Herbert Rowen's biography embraces all aspects of De Witt's political, intellectual, and personal life, including his role as a mathematician admired by Newton, an unphilosophical Cartesian, and a political thinker. The author describes De Witt's youth, Dutch society of his day, and his central part in the domestic and foreign politics

of the Dutch Republic from 1651 to 1672. He puts De Witt's relation to the House of Orange in a new light, more subtle than in the traditional history. He also examines in detail De Witt's system of government as councilor pensionary of Holland. Originally published in 1978. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
