**Captain Crash and the Dallas Cowboys** Cliff Harris,2014-09-02 How does it feel to see your name among the Cowboys greats in Texas Stadium's Ring of Honor? What was it like to be recruited by professional scouts? What happened to the guy who hooked Randy White in the back with a wayward fishhook? How did legendary coach Tom Landry motivate his players? How did a waterbed and transcendental meditation help Cliff Harris gain an edge over his opponents? **Honey Badger Don't Care** Randall,2012-01-24 Never before has wildlife narration been this bold and this hilarious. More than 40 million people have viewed Randall's honey badger video, "The Crazy Nastyass Honey Badger." "It has no regard for anyone or anything—it just takes what it wants! What a little badass!" When viewing wildlife footage, who hasn't thought at times, "Ewww! What the hell is that?!" Randall thinks it – and says so! In Honey Badger Don't Care, Randall examines and humorously informs on a dozen crazy, nasty animals of the wild kingdom employing his unique style of telling it like it is! His wildlife writing is refreshingly honest. If an animal scares Randall, he's not afraid to share. Unlike most nature writers, Randall doesn't deliver the sugarcoated or drab description. He "goes there" and shares his true feelings with his audience. Because of this, his readers feel that they can relate. Randall loves animals—even the ones that terrify him. He may not agree with how these animals conduct themselves in the world, but Randall wants everyone to know who they are. Just as he introduced the world to the honey badger, the Jesus lizard, and others, so will Randall shed light on twelve bizarre and interesting animals. Designed with callouts, sidebars, and more than fifty photos, Honey Badger Don't Care presents a wildlife book for adults—hilarious, irreverent, profane, yet charming, chatty, and informative. Don't be stupid—buy this book!

**Althusser and Law** Laurent de Sutter,2013-03-05 Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

Yet, as consumers we have become insensitive to most advertising. We easily forget brands and may switch to another product on a whim. There are ways for brands to break this cycle. Brands that succeed are the ones that help us find meaning. In this process, the brands become meaningful in and of themselves. Brand Hacks takes you on an exploratory journey, revealing why most advertising campaigns fail and examining the personal, social, and cultural meanings that successful brands bring to consumers' everyday lives. Most importantly, this book will show you how to use simple brand hacks to create and grow brands that deliver meaning even with a limited budget. Brand Hacks is supported by in-depth research in consumer psychology, interviews with industry-leading marketers, and case studies of meaningful brands, both big and small.
