**We Were One** Patrick K. O'Donnell,2007-10-30 A riveting first-hand account of the fierce battle for Fallujah during the Iraq War and the Marines who fought there--a story of brotherhood and sacrifice in a platoon of heroes Five months after being deployed to Iraq, Lima Company's 1st Platoon, 3rd Battalion, 1st Marine Regiment, found itself in Fallujah, embroiled in some of the most intense house-to-house, hand-to-hand urban combat since World War II. In the city's bloody streets, they came face-to-face with the enemy-radical insurgents high on adrenaline, fighting to a martyr's death, and suicide bombers approaching from every corner. Award-winning author and historian Patrick O'Donnell stood shoulder to shoulder with this modern band of brothers as they marched and fought through the streets of Fallujah, and he stayed with them as the casualties mounted.

**Why I Serve** Cassandra Taylor,2023-01-18 My goal for this book was to highlight fifty women

veterans. But the outpouring response from the women warriors' willingness to share the reason behind their selfless service in the US Military was beyond what I could have ever imagined. These stories you are about to read will either make you laugh, cry, cheer, or get angry; they may even shock you! Just know that these women did what most women would not do, and that's serve their country. Women have been serving and loving America long before America loved her, but that never stopped the heart of a warrior. With over two million women that have served, past and present, what better way to show them homage than this? Storytelling is the best form of historical documentation, and these stories need to be told. Here is a small yet powerful introduction to sixty-eight of America's most brave and beautiful women telling their story *Why I Served*.

**Marine Corps** John Hamilton, 2007-01-01 This book introduces the U.S. Marine Corps, which is closely associated with the U.S. Navy. Historical information covers the Continental marines of the Revolutionary War, as well as vital Marine Corps participation in the Mexican War, World War I and the battle of Belleau Wood, World War II, the Korean War, the Vietnam War, Afghanistan, and Iraq. The book highlights key Marine Corps commanders such as two-time Medal of Honor recipient Sergeant Major Daniel Dan Daly and former chairman of the Joint Chiefs of Staff General Peter Pace. Other chapters introduce readers to the organization's hierarchy with a sidebar on officer and enlisted ranks, requirements for enlistment, weapons and combat training, the U.S. Naval Academy, officer training, and the training and job opportunities in the Naval ROTC and the Marine Corps Reserve. Other sections introduce the reader to the Marine Corps' unique role in military service abroad, as well as the aircraft and weapons they depend on, such as the CH-46 Sea Knight helicopter, the F/A-18 Hornet airplane, the AV-8B Harrier jet, amphibious assault vehicles, and other unique transport options, as well as the M16 rifle, the M9 Beretta pistol, grenade launchers, night

vision goggles, and other advanced technology that helps the Marine Corps train for the future. Full-color photographs, sidebars, fun facts, a graphic timeline, a glossary, and an index accompany this easy-to-read text.

**More Than a Woman a Woman Marine** Karen Haynes, 2015-11-30 Inspiration of this book came to me while I was serving on Recruiting Duty in Shreveport, Louisiana. I discovered that there were not only myths about what male marines encounter in basic training but more myths about the women marines training. Most of what I heard was negative. Some of what I heard was that all women marines were masculine. None of them were heterosexual. I listened as some said that before meeting me that they believed that most of the women that joined the marines were unattractive. Also, incapable of landing a husband. I also heard that only women that did not want to accomplish much in life joined the marines. Most of those that I spoke with were thinking as I did before I joined. That women could not join the Marine Corps. That this branch of the armed services was dominated and designed only for men. My goal in writing this book is to share the fact that not only can women become marines but that it can also be a very rewarding experience. To also know that I understand, just like any occupation, everyone will not become a marine. If they could, we would not be such a recognized branch. For those that want a rewarding adventure, I feel that they should be a marine. The Marine Corps' recruiting motto, "The Few, the Proud, the Marines," shows that the important thing is the quality of the person, which is what is looked for and developed. That's why many women that have celebrated successful careers in the Marine Corps can say proudly that they are more than women; they are women marines.

*Spare Parts: From Campus to Combat* Buzz Williams, 2004-03-08 A compelling look into the world of reservists--more than just the spare parts of our nation's military--as seen through one

man's transformation from weekend warrior to combat marine In 1989, Buzz Williams walked into a marine recruiting office to follow in the footsteps of the deceased older brother he grew up idolizing by signing up to join the Marine Reserves. Over the course of the next year, he would earn money to pay his college tuition by devoting one weekend a month and two full weeks in the summer to the grueling and often dangerous rigors of military training, while enduring the jarring readjustment that occurred each time he returned to civilian life. But Williams had no idea that even the newest reservists could find themselves on the frontlines of a battlefield in a matter of weeks. On August 2, 1990--the day that he graduated from Light Armored Vehicle School--Saddam Hussein's forces invaded Kuwait, and Williams' life would change forever. Spare Parts tells the story of Williams' harrowing deployment to the Persian Gulf, where he would be thrust into battle only 38 days after being called up. Enduring both the condescension of full-time Marines and the danger of his limited training, he managed to form a core group that struggles to gain respect from a military machine that viewed them as mere spare parts. In gripping, you-are-there detail, Williams brings to life the physical and emotional trials he would face on the killing fields of Kuwait--where some of the woefully underprepared Marines are able to rise to the challenge and others are broken by the horrors of battle. A powerful portrait of one man's experience in battle--and of the reservists who stand ready to leave civilian life to defend our nation at a moment's notice--Spare Parts adds a moving new perspective to the literature of war.

**Navy Days** E. Jon Spear,2010-05-05 It is 1960, and for a boy of 16, it was the beginning of the most exciting and challenging decade of his life. World events were being threatened by nuclear war with Russia. In November the youngest ever President was elected promising a better, brighter future for everyone. Unfortunately, Khrushchev and Castro weren't on-board with Kennedy's plans and we were heading for a showdown over Berlin and our failed Bay of Pigs attempt to overthrow Castro. For Eddie, the thought of military service became more exciting than school and hanging around the neighborhood. Planning to join the Marines, Eddie and his friends are disappointed when the recruiter is out to lunch. While waiting in the Navy recruiter's office, they are soon destined to join the Navy. As it turns out, Eddie is the only one to go. NAVYDAYS: Memoirs of a Sailor in the 60's, is the true adventure of naval service as a Radioman aboard two aircraft carriers - the USS Saratoga and the USS Franklin D. Roosevelt. Serve with Eddie and his shipmates during the perilous times of the Cuban Missile crisis and live the experiences of liberty in the Caribbean and Mediterranean seas. Guaranteed to make you feel you were there for an interesting and adventurous 4 years.

**One of Us** Jack Ruppert, 2003-04-30 This engaging book plunges readers into the culture shock of Marine Officer Candidates School, a ten-week physical, intellectual, and emotional testing ground so grueling that every fourth candidate fails to complete. What does it take to become a Marine Officer? This engaging book transports readers through the culture shock of Marine Officer Candidates School, a ten-week physical, intellectual, and emotional testing ground that every fourth candidate fails to complete. The Sergeant Instructors' intensity is palpable as candidates are made to strip away civilian habits and attitudes, replacing them the Marine Corps ethos in the hopes of becoming officers. Anecdotes and personal recollections of OCS by two generations of officers provide instructive, poignant, and humorous interludes for the reader. A second focus of the book involves research into the demographics, attitudes, and opinions of two groups of officers, separated in time by 50 years. This comparison across a wide range of personal and social issues and beliefs renders some surprising results that lie in opposition to conventional wisdom. From the older generation, the reader will better understand the lifelong impact of the Marine leadership experience. From today's officers, the reader will discover the motivations of today's allegedly soft and coddled young people to follow the difficult path to a lieutenant's gold bars. This book is required reading for anyone with an interest in the Marine Corps and its culture.
