The Winds of the World Talbot Mundy,1917 The Winds of the World by Talbot Mundy, first published in 1917, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. We believe the literary significance of the text justifies offering this reproduction, allowing a new generation to appreciate it.

Senegalese Stagecraft Brian Valente-Quinn,2021-07-15 Senegalese Stagecraft explores the theatrical stage in Senegal as a site of poetic expression, political activism, and community engagement. In their responses to the country's colonial heritage, as well as through their innovations on the craft of theater-making, Senegalese performers have created an array of decolonizing stage spaces that have shaped the country's theater history. Their work has also addressed a global audience, experimenting with international performance practices while proposing new visions of the role of culture and stagecraft in society. Through a study of the innovative work of Senegalese theater-makers from the 1930s onward, Senegalese Stagecraft explores a wide range of historical contexts and themes, including French colonial education, cultural Pan-Africanism, West African Sufism, uses of television and mass media, and popular theater and activism. Using a multidisciplinary approach that includes field, archival, and literary methods, Valente-Quinn offers a fresh look at performance cultures of West Africa and the Global South in a book that will interest students and scholars in African, Francophone, and performance studies.

Law and Order Wil Mara,2016-08-01 In Law and Order, readers will learn about another side of the American government, both past and present. Sidebars include thought-provoking trivia, and ask questions about current events as well as the readers' own lives. Questions in the backmatter ask for text-dependent analysis. Slaves for Peanuts Jori Lewis,2022-04-19 Finalist, James Beard Foundation Book Award for Reference, History, and Scholarship A stunning work of popular history—the story of how a crop transformed the history of slavery Americans consume over 1.5 billion pounds of peanut products every year. But few of us know the peanut's tumultuous history, or its intimate connection to slavery and freedom. Lyrical and powerful, Slaves for Peanuts deftly weaves together the natural and human history of a crop that transformed the lives of millions. Author Jori Lewis reveals how demand for peanut oil in Europe ensured that slavery in Africa would persist well into the twentieth century, long after the European powers had officially banned it in the territories they controlled. Delving deep into West African and European archives, Lewis recreates a world on the coast of Africa that is breathtakingly real and unlike anything modern readers have experienced. Slaves for Peanuts is told through the eyes of a set of richly detailed characters—from an African-born French missionary harboring runaway slaves, to the leader of a Wolof state navigating the politics of French imperialism—who challenge our most basic assumptions of the motives and people who supported human bondage. At a time when Americans are grappling with the enduring consequences of slavery, here is a new and revealing chapter in its global history.

Sufism and Jihad in Modern Senegal John Glover,2007 Examines through the use of Murid oral and written sources the creation of an alternative modernity as an understanding of historical change by Sufi notables and disciples. The Murid order, founded in Senegal in the latter decades of the nineteenth century, grew into a major Sufi order during the colonial period and is now among the most recognizable of the Sufi orders in Africa. Murids have spread the voice of Islam and Africa in concert halls and on the airwaves through pop singers -- especially Youssou N'Dour -- and the image of Shaykh Amadu Bamba M'Backé, the founding saint of the order, often used to grace the covers of works concerning Islam, African culture, abolition, and European colonization. In this insightful and revealing study, John Glover explores the manner in which a Muslim society in West Africa actively created a conception of modernity that reflects its own historical awareness and identity. Drawing from Murid written and oral historical sources, Glover carefully considers how the Murid order at the collective and individual levels has navigated the intersection of two major historical forces -- Islam, specifically in the contexts of reform and mysticism, and European colonization -- and achieved in the process an understanding of modernity not as an unwilling witness but as an active participant. Ultimately, Sufism and Jihad in Modern Senegal presents the reader with a new portrait of a society that has used its notion of modernity to adapt and incorporate further historical changes into its identity as an African Sufi order. John Glover is Associate Professor of History at the University of Redlands in southern California.
