What is AVVID? Previously called Configuring Cisco Communications Networks (CCN), Architecture for Voice, Video, and Integrated Data (AVVID) is the latest development from Cisco Systems that will soon redefine the way businesses communicate. AVVID allows businesses to transmit voice, data, and video over one combined architecture, whereas in the past, three separate systems were required. Configuring Cisco AVVID will be the first book to discuss the components of the AVVID architecture and will be timed to release with the launch of the technology in early 2000. A practical guide to the AVVID technology this book will include an introduction to AVVID, and its software, hardware, network architecture, installation, operation and configuration. Topics include CallManager, Cisco Gateways, and IPCC (Cisco IP Contact Center). * The first book to discuss the components of this important new technology * Practical guide; many engineers will find this a great source of AVVID product knowledge * Cisco is planning to launch AVVID hardware and software in Spring 2000 - demand is already high for information * Book will be timed to release with technology

Silverlight 4 Business Intelligence Software Bart Czernicki,2011-01-27 Business intelligence (BI) software

allows you to view different components of a business using a single visual platform, which makes comprehending mountains of data easier. BI is everywhere. Applications that include reports, analytics, statistics, and historical and predictive modeling are all examples of business intelligence. Currently, we are in the second generation of business intelligence software—called BI 2.0—which is focused on writing business intelligence software that is predictive, adaptive, simple, and interactive. As computers and software have evolved, more data can be presented to end users with increasingly visually rich techniques. Rich Internet application (RIA) technologies such as Microsoft Silverlight can be used to transform traditional user-interfaces filled with boring data into fully interactive analytical applications that quickly deliver insight from large data sets. Furthermore, RIAs now include 3D spatial-design capabilities that move beyond a simple list or grid and allow for interesting layouts of aggregated data. BI 2.0 implemented via an RIA technology can truly bring out the power of business intelligence and deliver it to an average user on the Web. Silverlight 4 Business Intelligence Software provides developers, designers, and architects with a solid foundation in business intelligence design and architecture concepts for Microsoft Silverlight. This book covers key business intelligence design concepts and how they can be applied without an existing BI infrastructure. Author Bart Czernicki provides you with examples of how to build small BI applications that are interactive, highly visual, statistical, predictive—and most importantly—intuitive to the end-user. Business intelligence isn't just for the executive branch of a Fortune 500 company—it is for the masses. Let Silverlight 4 Business Intelligence Software show you how to unlock the rich intelligence you already

have.

On War and Politics Arnold L. Punaro,David Poyer,2024-08-15 After being wounded and awarded the Bronze Star for valor as a Marine infantry platoon commander in Vietnam, Arnold Punaro thought he'd left the battlefield behind. Instead, he redeployed onto the battlefield of Washington politics. For almost fifty years, he's toiled at the intersection of the political and defense

establishments, working with such luminaries as Sam Nunn, John Glenn, John McCain, Colin Powell, Robert Gates, Ash Carter, and many others. Today Democrats, Republicans, and career public officials agree on one thing: few individuals possess the military experience, governmental expertise, and personal integrity of Arnold Punaro. Partnered with best-selling writer David Poyer, Punaro offers revelations about the most contentious issues of the past and sage advice for the future. From his military service, to his role formulating and overseeing all major defense and intelligence legislation, Punaro reveals how decisions are really made inside the Beltway, providing insights into the actions of presidents since Jimmy Carter and Secretaries of Defense back to James Schlesinger. Unsparing in his criticisms of both parties, whose partisanship is leading our country over a precipice, Punaro presents radical proposals for much-needed reform to save the country for which so many have given their lives.

Theoretical Perspectives on Family Businesses

Mattias Nordqvist, Leif Melin, Matthias Waldkirch, Gershon Kumeto, 2015-07-31 Family business has become an increasingly studied field over the last decade and forms one of the fastest growing research areas today. The uniqueness of family business is the interaction between two systems: the family and the firm, leading to speci

The Ever-Shrinking Fighting Force Arnold

Punaro, 2021-02 Its capabilities unrivaled and its global reach unmatched, America's military is the envy of the world. Yet, to those in the know, like retired Marine Major

General Arnold Punaro, a former Staff Director of the Senate Armed Services Committee, there is compelling need for improvement in its support elements. From the glacial pace of acquisitions to the spiraling growth of the defense agencies to the fully-burdened costs of the All-Volunteer Force, the Department of Defense's non-warfighting elements are not getting enough bang for the buck. Every recent Secretary of Defense has pushed business-minded reforms as a high priority, citing the need to convert overhead to warfighting capacity. Despite substantial increases in defense spending over the last decades, the number of warfighters is still declining. The Ever-Shrinking Fighting Force lays out, in clear and compelling detail, the major factors that contribute to this adverse trend that has outlasted efforts to reverse it by strong Defense Secretaries and even Presidents. Drawing on his half-century of experience in national security, Gen. Punaro offers a no-nonsense look at the inefficiencies that have plagued the Pentagon's creeping bureaucracy for decades. With calls for defense reform emanating from both the executive and legislative branches, this timely book provides a road map for thoughtful and balanced improvements.

Puffling Margaret Wild, 2009-10-27 Puffling is a baby—small, white, and very hungry. Every day he waits in the burrow while his parents, Big Stripy Beak and Long Black Feather hunt for food. As he grows, Puffling dreams of the day when he will leave his nest and fly away—but he isn't ready yet, not until he's tall and brave enough to fend for himself. Every day Puffling asks his parents, but every day they say he must wait until he has grown bigger. Will he ever be ready to head out into the world on his own? This story about how love makes us strong, brave, and happy, too, is perfect for so many milestones: first times

with babysitters, first days of school, and even graduation.
