Acceptance of Mediocrity David E. Pullmann,2010-06-07 Are you gifted? Are you the best at what you do? One of the most difficult concepts for us to accept is the fact that as multi-talented as we may be and as competitive as we may be to achieve the best, there is always someone else out there who does it better. Read about an Iowa farm boy who strikes out for the big time, becoming accomplished in several disciplines from concert pianist to stenographer to master craftsman to automation expert to flight instructor to handwriting analyst to man of letters, but for all his talents is still mediocre in the end. Filled with humorous anecdotes and poignant moments, the book will have you spellbound to learn what characters lie in the path ahead.

Mayday! Mayday! Jeff Wadley,Dwight McCarter,2002 About 50 aircraft have crashed in the Great Smoky Mountains. This book details all known incidents and rescue efforts from 1920 to 2000, including those that occurred within the area before the establishment of the park in 1934. Stories are based on official documents, newspaper archives, and interviews with survivors, family members, and eyewitnesses. B & w photos are included. Wadley is a lieutenant colonel in the Tennessee Civil Air Patrol who serves as a mission coordinator and trainer in the Smoky Mountains. McCarter served as a backcountry ranger in Great Smoky National Park for 20 years. Annotation copyrighted by Book News Inc., Portland, OR.

Thanks for the Great Flight Captain James F Vaughan,2019-09-16 I never considered I would become an airline pilot. It was always too expensive or took too much time, or I would not be hired with-out a four college degree.

Perhaps because I wore eye-glasses... I was content to offer Flight Instruction in my community, and did quite well teaching new low time private pilot students, and Advanced certificate pilots. I have been employed by six airlines, and the only reason I was hired at each one was because the airline needed pilots to operate the airline! I began researching the commercial pilot status and numbers, and realized there truly is a pilot shortage world wide. In my book I speak about the training and preparation that go into obtaining a pilot license. I will take the reader on an actual Airline Transport Pilot check-flight, describing the sensations and maneuvers required for the Captain candidate to master. We will fly a simulator during our training, and I will relate a humorous story that helped to break up the monotony of performing the same flight profile over, and over again. I will explain the various aircraft systems as they pertain to flight, so perhaps a non-pilot airline passenger may feel more informed of how an aircraft operates. I will also address the aircraft performance factors that may actually aid the passenger in selecting routes and times, to ease their occasional travel delays. Lastly, I will relate a few super-natural instances that by my only explanation the Christian Lord was watching over my flight. I have truly been blessed in my life by becoming a commercial airline pilot!
