The Coming Jobs War Jim Clifton, 2013-09-16 Definitive leadership strategy for fixing the American economy, drawn from Gallup's unmatched global polling and written by the company's chairman. What everyone in the world wants is a good job. "This is one of the most important discoveries Gallup has ever made," says the company's Chairman, Jim Clifton. In *The Coming Jobs War*, Clifton makes the bold assertion that job creation and successful entrepreneurship are the world's most pressing issues right now, outpacing runaway government spending, environmental degradation and even the threat of global terrorism. The book is grounded in findings from Gallup's World Poll, which reveals the implications of the jobs war on everything from economics to foreign policy to nothing less than America's moral authority in the world. And it offers a prescription for attacking the jobs issue head-on. Clifton argues that the solution to creating good jobs must be found in cities, not in the federal government. Promoting entrepreneurship and job creation must be the sole mission and purpose of cities' business leaders, government officials and philanthropists. Clifton says that the next big breakthrough will come from the combination of the forces within big cities, great universities and powerful local leaders. Their combined effect is the most reliable, controllable and predictable solution to America's biggest problem. Strong leadership teams and a natural order are already in place within cities — in governments and local business and philanthropic entities, with caring leaders working on initiatives to fuel local economic growth and to create good jobs. The feat these leaders have to pull off is doubling their entrepreneurial energy by aligning their local forces: local tribal leaders, super mentors and universities. Winning the jobs war will require all hands on deck, and failure is not an option, especially for the United States, which has been the global leader in promoting freedom and entrepreneurship. America's place in the world is at stake, and there are other countries poised to surpass a sputtering U.S. economy that is currently growing at only 2% annually. The biggest threat? China, with a GDP that is increasing at nearly 10% annually — a pace that will make it the world's leading and most influential economy within the next 30 years. While the statistics are dire, Clifton remains optimistic about America's ability to win the jobs war because America has been here before. "The Greatest Generation saved America by beating the Japanese and Germans at [World War II]. The Baby Boomers saved America a second time by beating the same foes, Japan and Germany, in an economic war that determined the leadership of the free world, again," he says. *The Coming Jobs War* offers a clear, brutally honest look at America's biggest problem and a cogent prescription for solving it.

The Big Ripoff Timothy P. Carney, 2011-01-13 Praise for THE BIG RIPOFF Politicians like to say that government is on the side of the little guy. But with impressive documentation and persuasive examples, Tim Carney shows how government power and regulation are typically used to assist the powerful. -Paul A. Gigot Editorial Page Editor, the Wall Street Journal Exposes the dirty little secret of American politics: how big businesses work with statist politicians to diminish the prosperity and freedom of consumers, taxpayers, and entrepreneurs. Carney employs top-notch writing ability, passion for liberty, and understanding of economics to demolish the myth that big business is a foe of big government. Everyone who seeks to understand who really benefits from big government should read this book, as should anyone who still believes that the interventionist state benefits the average person. -Congressman Ron Paul U.S. House of Representatives, 14th District of Texas Small entrepreneurial businesses are the backbone success of our great economy. They are the biggest job and wealth creators. Is that why big corpocratic behemoth firms collude with big government for a liberal agenda of higher taxes and overregulation that will punish the small risk-takers? Tim Carney's new book describes how anti-business big business can be. -Lawrence Kudlow Host of CNBC's Kudlow & Company Tim Carney explodes the myth that big business and big government are natural opponents. All too often, as he points out, they're both engaged in a common enterprise: picking your pocket. -Ramesh Ponnuru Senior Editor, National Review A romping tour de force of the love affair between big business and big government from Teddy Roosevelt and the Robber Barons to Enron and the Kyoto Treaty. Indispensable for understanding how government regulation really works. -Donald Devine Grewcock Professor of Political Science, Bellevue University Every CEO in America should read this book today, issue new directives to their bureaucrat-appeasing Washington lobbyist tomorrow, and join in the fight for economic liberalization. -Fred L. Smith, Jr. Founder and President, Competitive Enterprise Institute
