information about their subjects, making them non-fiction gift books like no other. Over 200,000 copies of the Shine-a-Light series sold! A non-fiction gift book like no other with amazing see-through pages and a glossary and additional information about their subjects.

Dying to Be Me Anita Moorjani, 2022-03-08 THE NEW YORK TIMES BESTSELLER! I had the choice to come back ... or not. I chose to return when I realized that 'heaven' is a state, not a place. In this truly inspirational memoir, Anita Moorjani relates how, after fighting cancer for almost four years, her body began shutting down—overwhelmed by the malignant cells spreading throughout her system. As her organs failed, she entered into an extraordinary near-death experience where she realized her inherent worth . . . and the actual cause of her disease. Upon regaining consciousness, Anita found that her condition had improved so rapidly that she was released from the hospital within weeks—without a trace of cancer in her body! Within this enhanced e-book, Anita recounts—in words and on video—stories of her childhood in Hong Kong, her challenge to establish her career and find true love, as well as how she eventually ended up in that hospital bed where she defied all medical knowledge. In *Dying to*

Be Me, Anita Freely shares all she has learned about illness, healing, fear, being love, and the true magnificence of each and every human being!

Room Åke Edwardson, 2013-03-05 A YOUNG WOMAN IS DISCOVERED hanged in a room in a decrepit hotel, and Gothenburg's Chief Inspector Erik Winter must try to figure out what happened. As Winter looks around, he realizes that he was in the same hotel room many years earlier, when it was the last known location of a woman who subsequently disappeared and was never found. The two women seem to have nothing in common except for this hotel room, but Winter suspects that there may be other connections. The young woman's parents are bereft and unable to explain the puzzling contents of a note she left behind. Winter, however, senses that they are holding back some secret that might help him to find her murderer. As he pursues his hunch and digs into the old police report on the woman who disappeared—one of his first cases as a young detective—Winter becomes increasingly convinced that the two cases are somehow related. Room No. 10 is a first-rate thriller, suffused with the gray seaside beauty of Gothenburg and filled with the characters that Åke Edwardson's readers have come to love: Winter, the veteran detective who veers between pessimism and optimism but never gives up; Bertil Ringmar, the methodical old-timer whose analytical mind keeps everyone focused; hotheaded Fredrik Halders, whose

temper sometimes overwhelms his passion for justice; and Aneta Djanali, Halders's girlfriend, an immigrant from Burkina Faso whose ability to talk to other women can open new leads. As compelling as they are dedicated, they are an unforgettable team determined to find a bizarre killer.

F3D/EF-10 Skyknight Units of the Korean and Vietnam Wars

Joe Copalman, 2022-01-20 The Douglas F3D Skyknight was an early but effective attempt at combining new technologies together in a lethal package capable of shipboard operation. Whereas most

fighters relied on speed and maneuverability, the portly, straight-winged F3D relied on three radars, four 20mm cannon, and – most importantly – darkness. Having first flown in March 1948, the Skyknight's first taste of war came in September 1952, when Marine Night Fighter Squadron 513 [VMF(N)-513] deployed to Korea. The most important job assigned to VMF(N)-513 was the escorting of USAF B-29 bombers over northern Korea. Whereas Chinese and North Korean MiG-15s relied on ground-controlled intercept radar for steering guidance into firing positions, the F3D, with its own onboard radars, was autonomously lethal – it could detect, track and target MiGs all on its own. Skyknight crews ended the Korean War with six nocturnal kills in exchange for one combat loss. After the war, 35 Skyknights were converted into electronic warfare (EW) aircraft. As US air operations over North Vietnam intensified in early 1965, the need for a tactical EW jet to provide electronic countermeasures (ECM) protection to accompany strike packages north became apparent. For all of its early effectiveness over North Vietnam, the proliferation of radar-guided guns and missiles began to erode the advantage created by EF-10 escort support, which flew its last combat mission in October 1969. This highly illustrated volume explores the F3D Skyknights and their

deployment during the Korean and Vietnam wars, using first-hand accounts from aircrew, original photographs and 30 profile artworks to explore their key roles as an escort aircraft and electronic warfare aircraft.
