**Stones To Abbigale** Onision, 2015-03-29 I want to be direct, my name is Greg. I go by "Onision" online. This book is made up of events that occurred in my own life mixed with fiction from the made up life of James. James is essentially a better version of myself. His home, his school & his life all resemble my own at his age. The people James analyzes and is surrounded by are not so unlike those I've known as well. I have experienced much of the loss James has however his happier moments are more often than not also mine. I want to share my story without it being purely non-fiction. I simply felt this approach would make for a far better book. Stones to Abbigale is not just my book, it is a piece of who I am.

**We Are Legion (We Are Bob)** Dennis E. Taylor, 2017-04-14 Bobiverse fans: a signed limited edition of all three books in a boxed set, signed by the author, is now available on Amazon. Look for The Bobiverse [Signed Limited Edition] on Amazon Bob Johansson has just sold his software company and is looking forward to a life of leisure. There are places to go, books to read, and movies to watch. So it's a little unfair when he gets himself killed crossing the street. Bob wakes up a century later to find that corpsesicles

have been declared to be without rights, and he is now the property of the state. He has been uploaded into computer hardware and is slated to be the controlling AI in an interstellar probe looking for habitable planets. The stakes are high: no less than the first claim to entire worlds. If he declines the honor, he'll be switched off, and they'll try again with someone else. If he accepts, he becomes a prime target. There are at least three other countries trying to get their own probes launched first, and they play dirty. The safest place for Bob is in space, heading away from Earth at top speed. Or so he thinks. Because the universe is full of nasties, and trespassers make them mad - very mad.

**Look What You Made Me Do** Megan Norris, 2023-08-02 One Australian woman is hospitalised every three hours and two more lose their lives each week as a result of family violence. But for some women, there is a punishment far more enduring than injury or their own death. Look What You Made Me Do, is a timely exploration of the evil inflicted by vengeful fathers who have killed their own flesh and blood simply to punish partners for ending unrewarding - often abusive - relationships. Focussing on ten different, but equally harrowing cases of 'spousal revenge' dating back thirty years, award winning author Megan Norris, draws upon her own experience as a former court and crime reporter, to examine the horrific murders of eighteen children who were the collateral damage in crimes where the real target of their angry dad's rage was their mother. From the 2018 cold-blooded shooting murders of Sydney teenagers, Jack and Jennifer Edwards, whose abusive businessman father was granted a licence to kill by the NSW Firearms Registry, despite a shocking history of family violence dating back three decades, to the heinous premeditated homicides of Queensland mum, Hannah Clarke, who succumbed to her own horrific injuries after watching her three young children burn to death at the hands of their violent father, this book shows it is not only women

who are at risk when family violence turns deadly. Now recognised as the ultimate act of domestic violence a man could inflict on his partner, Norris's award-winning book shines a light on the disturbing connection between family violence and retaliatory homicide and explores the shattering legacy of grief that such crimes have on surviving mothers. A book that allows these serious crimes to be better understood and ultimately informs and advocates for new approaches to managing these complex and deadly situations.

*Veritas Liberabit Vos - Part One and Two* R M M WALKER, 2013-10-26 What would it take for you, to stop for a moment and imagine that everything you have ever understood to be true, everything you have learnt about the world you live in, and everything you have been told, could in fact be an elaborate fiction? If one piece of the veil of reality is shattered, what next? Part One A Skydive goes wrong and the participants share an experience that on the one hand gives them a definitive explanation for a controversial phenomenon, but on the other, sets before them a myriad of questions they decide to investigate. They go their separate ways and back to their normal lives, yet things aren't quite the same and for some, life seems to have taken a twist towards the surreal. Part Two The group reassembles and discuss their findings. As alarming events are recounted, they are unified by what they hear; fear and shock grips them. What would normally be considered a bizarre suggestion, now appeals, and they set course to that end. As they continue to investigate and events unfold, how will the revelations ahead sit with them and could they turn back, even if they wanted to?

Jack Stephen Walton, 2007-11-01 An old legend that no one could catch. That puzzled several generations with his bizarre behaviour. That vanished as abruptly as he appeared. And that no one knew anything about. Until now. Three remarkable people find their routines torn apart when they are dragged into a mystery that is far older than ever assumed. They begin a battle for their lives against a shadowy organisation intent on suppressing sensitive information, while at the same time trying to help an unusual creature realise an impossible goal. At 209,000 words, this adventure mystery is based upon the elusive but well documented Spring-Heeled Jack figure from the 19th century and should appeal to most audiences, especially those already aware of the legend.

Mobile Communication in Everyday Life Joachim Höflich, Maren Hartmann, 2006-05-03 The mobile phone has become an integral part of our everyday life communication - in this sense a domestication of a 'nomadic'

medium has taken place. For the very reason that the telephone has left its fixed home environment, it requires us to take an 'ethnographic view' in describing both this development and the changes taking place therein. Mobile Communication in Everyday Life takes a closer look at the mobile phone as an object of inquiry in the tradition of the so-called media ethnography. Consequently, the benefits and limitations of such research designs are the focus of the book. Some contributions focus on the tension between private and public communication, others on cultural dimensions. Overall, the book presents a range of the most up-to-date research in the field of mobile communication.
