Criminal Justice at the Crossroads William R. Kelly, 2015-05-05 Over the past forty years, the criminal justice system in the United States has engaged in a very expensive policy failure, attempting to punish its way to public safety, with dismal results. So-called tough on crime policies have not only failed to effectively reduce crime, recidivism, and victimization but also created an incredibly inefficient system that routinely fails the public, taxpayers, crime victims, criminal offenders, their families, and their communities. Strategies that focus on behavior change are much more productive and cost effective for reducing crime than punishment, and in this book, William R. Kelly discusses the policy, process, and funding innovations and priorities that the United States needs to effectively reduce crime, recidivism, victimization, and cost. He recommends proactive, evidence-based interventions to address criminogenic behavior; collaborative decision making from a variety of professions and disciplines; and a focus on innovative alternatives to incarceration, such as problem-solving courts and probation. Students, professionals, and policy makers alike will find in this comprehensive text a bracing discussion of how our criminal justice system became broken and the best strategies by which to fix it.

Legalization of International Law and Politics Henry (Chip) Carey, Stacey M. Mitchell, 2023-01-01 This book provides an expanded conceptualization of legalization that focuses on implementation of obligation, precision, and delegation at the international and domestic levels of politics. By adding domestic politics and the actors to the international level of analysis, the authors add the insights of Kenneth Waltz, Graham Allison, and Louis Henkin to understand why most international law is developed and observed most of the time. However, the authors argue that law-breaking and law-distorting occurs as a part of negative legalization. Consequently, the book offers a framework for

understanding how international law both produces and undermines order and justice. The authors also draw from realist, liberal, constructivist, cosmopolitan and critical theories to analyse how legalization can both build and/or undermine consensus, which results in either positive or negative legalization of international law. The authors argue that legalization is a process over time and not just a snapshot in time.

Justice 4 All Donnell Harris, 2023-04-13 JUSTICE 4 ALL is basically about an individual who found the hypocrisy in law intriguing and proceeded to fulfill his aspiration of becoming a lawyer by attending Rutgers University in Camden, New Jersey. Coming from out of the most notorious section of Camden, North was a community that you don't casually stroll through especially without an invitation. Being raised in the DMZ Zone, Afrika didn't have to endure the constant harassments and fighting that was the norm. An incident in elementary school will introduce him to five guys that will become his family, their journey will take them down paths that was never conceived, but like a duck takes to water, they appear to do the same with their journeys.
