Jyotish (Vedic Astrology) Wing Commander Santosh Sharmaa, 2018-05-16 This is the world's first astrological (Vedic Jyotish) book which is based on scientific evaluation and validation. The interpretations are based on rationale and logic. Your and other people's robotic behavior stems from a pre-programmed chip, which is embedded in your mystic glands inside the brain. This chip controls the inherent behavior of a person. The information about this coded chip is available in your kundali (astrological chart). Shani (Saturn): a new revolutionary understanding Shani is like a GPS with an in-built navigation system. A retrograde (R) or debilitated (D) Shani is like a GPS, which is malfunctioning. Obviously, you land up at wrong places, at wrong timings, thus wasting your life's energy reaching nowhere. This creates frustration, sadness, depression, and mental agony. Self-pity makes you wail in a well of despair, you wallowing, "my fate!"

astrology was codified by the ancient Maharishis to help people achieve the four basic goals of human existence: kama (desire), artha (wealth), dharma (life purpose), and moksha (spiritual growth). Unlike other forms of astrology, Vedic calculations focus more on the primal, unconscious, driving forces linking our thoughts and actions. How to Practice Vedic Astrology shows how to make accurate predictions on when to expect life's changes concerning one's career, love life, children, or spirituality.

**Delineating a Horoscope** Raj Kumar, Astrology is a great science based on sound principles and theory of karma through cycles of rebirth. A horoscope is basically a map of zodiac indicating position of planets in various signs/ Nakshatra at the time and place of birth. The delineation of a chart is the science and art of deciphering it as per the knowledge, intuition of the astrologer and divine help available to him. Therefore the first requisite is to have sound knowledge of nature and characteristics of houses, signs, Nakshatra and planets and their inter-relation. Next comes the basic tools like dasha, transit, yoga and divisional chart and their application in delineating a horoscope. Lagna is the single most important factor in delineating a horoscope. It is the very being of the native, his élan vital & basic potential. Unless the seed of a specific quality or event is contained in this basic potential, other planetary indications will not find suitable opportunities for manifestation. Lagna also determines the numbering of houses with

lagna being the first. With the change in lagna, the significations of any planet will change drastically, as his house & lordship changes, although the sign & constellation of the planet remain unchanged.

*Salient Features of Indian Astrology* U. C. Mahajan, 2007 Humans are always curious about their future. Astrology is one such time-tested science that throws light on one's past and also predicts that unseen future which is clearly visible to those who correctly understand the various centuries-old interpretations. We may err but Astrology never goes wrong. This book provides a simple yet comprehensive approach to the study of the stars and planets, their placements, good and bad implications, and suggested remedies. the author further claims that doctors too have started acknowledging the efficacy of healing through astrological charts. Go ahead. Cast your horoscope and find out what the stars have in store for you--in the present as well as in the future.

*Horoscope Matching for Marriage* KT Astrologer, 2022-05-05 Kathir Subbiah, aka KT Astrologer is a writer, book author, Vedic astrologer, trader, and computer programmer based in California. He graduated with a master's degree in Software Systems from BITS, Pilani, India. He works as a Software Developer at Microsoft Corporation. He learned Vedic astrology thoroughly for over two decades by conducting research, creating case studies, going over analytics, analyzing patterns and real-life events. His moment of fame came in November 2016 after

predicting Donald Trump's victory in the US Presidential election. He predicted the outcome a year in advance in December 2015. He also predicted the March 9, 2020 crash with that exact date a month in advance on February 7, 2020. He has since appeared in Vanakkam Tamizha live morning talk show on Sun TV Tamil on March 19, 2020. He has been writing monthly predictions based on gochar aspects since 2012. They are all available on his website in six languages: English, Hindi, Tamil, Telugu, Kannada and Malayalam. He has been writing monthly predictions in a Marathi magazine, Grahasanket (ग्राहसंकेत) from 2016. A rare gem on Vedic Astrology, this book is intended to teach the basics of astrology. It focuses on how to match kundali and what to expect from your marital life and relationships. The salient points of this book are: The illustrious history of Vedic astrology and how it evolved over a long period of time to tell the tale of the current panchang in use today. The basics of Vedic astrology – the 9 planets, the 12 signs and 27 nakshatras, and the effects of mahadasha. The types of nakshatra compatibilities of the man and woman widely used in both North India and South India. The importance of doing lagna and mahadasha compatibility. The most compatible and incompatible nakshatras in order. The important dosha and yoga - Manglik Dosha, Nadi Dosha, Rajju Dosha, Sarpa Dosha, Sayana Dosha, Pitru Dosha, Putra Dosha, Parivarthana Yoga, Dharma Karmathipathi Yoga, Gaja Kesari Yoga, Viparita Raja Yoga, Neecha Bhanga Raja Yoga. A sizeable collection of case studies that are related to

love marriage, arranged marriage, living together, marital bliss, delayed childbirth, divorce, separation, remarriage and extra marital affairs.

*Vargas: a Vedic Approach* Raj Kumar, The Vargas are the unique feature of Vedic astrology which has given it a definite edge over any other system in vogue. The primary aim of studying a Varga is two folds- to study a particular aspect of human life pertaining to a specific house and to find out the true strength of planets related with the house. A horoscope takes into account linear time and vertical declinations of the planets. Every division of zodiac has a corresponding division of time. Hence a Varga gives projections representing possibilities which might occur in different time frames. Each chart gives a microscopic view of a particular facet of life seen in the light of Dasha sequence. There are many tools available to assess the true strength of a planet. One set of rules rely on PAC of planets, their awasthas and yogas formed by them. The other, Nadi system, studies the effects of lords of sign, Nakshatra and Sub under which a planet is placed. At times these influences change the characteristics of a planet completely. In this book an attempt is made to unite the two systems to get the true strength of planets. In order to understand a planet and its significations in a better way, a comparative study of planets in birth and divisional charts has also been made. This book shall add to precision and accuracy of probable events and their qualitative effects on various aspects related to a native and as such will be of great use to serious students of astrology.

These 14 principles are based on century old classics. Their meaning has been understood in depth; meaning has been analyzed and then presented through simple to understand words and examples. *Rahu and Ketu in Predictive Astrology: North and South Nodes of the Moon* Dr Prem Kumar Sharma, Manisha Koushik, 2024-02-24 It is a well-established fact that since Vedic astrology has its basis in Vedic knowledge, it is as old as human creation and has been used from time immemorial to dispel the unfounded horrors and prejudices of the human mind. Rahu and Ketu, the two nodal points of the Moon, constitute the core of Vedic astrology. Ancient Indian seers visualised the north and the south nodes of the Moon as the most interesting and mysterious planetary influences. However, Rahu and Ketu have either been ignored or misunderstood in studies of Vedic astrology. This book is an attempt to dispel

the darkness that surrounds Rahu and Ketu so that they can be better understood and their importance in Vedic astrology appreciated. By no means the final word on Rahu and Ketu, this book attempts to provide readers with a practical understanding of these two nodes so that they can be placed in perspective. The book also provides other insights into Vedic astrology. The use of horoscopes of some prominent persons makes an understanding of Rahu and Ketu easier both for astrology enthusiasts and for other readers.

Predict with Saptamsha V. P. Goel, This book gives simple easy to apply rules to get the astrological answers to queries like number of children, timing of birth of children, happiness or troubles from them and much more. The luxuries of life of a person are also seen from saptamsha. The principles are fully illustrated with examples.
