Ka John Crowley, 2017-10-24 "Ka is a beautiful, often dreamlike late masterpiece." -Los Angeles Times "One of our country's absolutely finest novelists." -Peter Straub, New York Times bestselling author of Interior Darkness and Ghost Story From award-winning author John Crowley comes an exquisite fantasy novel about a man who tells the story of a crow named Dar Oakley and his impossible lives and deaths in the land of Ka. A Crow alone is no Crow. Dar Oakley—the first Crow in all of history with a name of his own—was born two thousand years ago. When a man learns his language, Dar finally gets the chance to tell his story. He begins his tale as a young man, and how he went down to the human underworld and got hold of the immortality meant for humans, long before Julius Caesar came into the Celtic lands; how he sailed West to America with the Irish monks searching for the Paradise of the Saints; and how he continuously went down into the land of the dead and returned. Through his adventures in Ka, the realm of Crows, and around the world, he found secrets that could change the humans' entire way of life—and now may be the time to finally reveal them.

Acoustic Communication in Animals Yoshimasa Seki, 2023-07-19 This book is the first volume of the bioacoustics series published by the Society for Bioacoustics. This volume provides an overview of the advances and recent topics in acoustic communication in various animals. Most animals produce vibrations and sounds by moving their body parts, including vocal organs. These sounds can be

research targets of bioacoustics studies. How animals use these sounds, especially in inter-individual relationships, is the focus of this volume, "Acoustic Communication in Animals". The authors' expertise varies from molecular biology, neurobiology to psychology, and human brain imaging. Their research subjects range from invertebrates to humans. Despite the variety of topics, chapters are developed under the consideration of ethology and evolution. Readers will recognize the profundity of the topics in each chapter. In addition, the view and understanding of natural sound sequences produced by animals can vary among different cultures. Research from Japan and regions that have been underrepresented in previous literature can offer new ideas and unique perspectives in the study of bioacoustics. Readers can grasp the progress of this research field in a broad range of species in one book. The book presents multi- and interdisciplinary topics and appeals to researchers and students in fields including psychology, physiology, zoology, ethology, and neurosciences.

Two Tales of Crow and Sparrow Alan Dundes, 1997
This provocative book by a leading folklorist offers a new analysis of caste in India, focusing on the rationale underlying the customs surrounding untouchability. Drawing on clues contained in two fascinating folktales, Alan Dundes goes beyond Dumont's classic *Homo Hierarchicus* in deconstructing the pervasive pollution complex that prevents millions of individuals from entering temples or drawing water from community wells. His graceful and erudite explanation of caste also illuminates the mysterious worship of the sacred cow as well as sati/suttee, or widow burning. The author concludes by relating caste to the theory of marginal survival, drawing on Gypsy concepts of

pollution. This controversial book offers a fresh perspective for anyone interested in India, folklore, and psychoanalytic anthropology_a detailed case study documenting how folklore, as a source of native categories and symbols, can yield unique insights into the unconscious functioning of a culture through time. In this comprehensive textbook, renowned philosopher J. N. Mohanty examines the range of Indian philosophy from the Sutra period through the 17th century Navya Nyaya. Classical Indian Philosophy is divided into three parts that cover epistemology, metaphysics, and the attempt to transcend the distinction between subject and object. Mohanty focuses on the major concepts and problems dealt with in Indian philosophy, including ethics, social philosophy, law, and aesthetics. Students of Indian philosophy at every level will find this a rich and rewarding text.

A Grammar of Maonan Tian Qiao Lu, 2008 Maonan is a Kam-Tai (Tai-Kadai) language spoken by 75,000 people in the border area of Guangxi and Guizhou provinces of China. This grammar book is the first volume to account for the phonology, word-formation, syntax, grammaticalization and lexicalization patterns of Maonan from a typological and ethno-linguistic perspective. It renders a comprehensive description of Maonan with analysis of the neutralization of semantic

macroroles and the dialectic interrelations between subject and topic. Particular attention is paid to the interplay between syntactic and semantic valencies. The detailed analysis of the Maonan aspects is also unprecedented. It examines Maonan tone sandhi from a totally new approach. The book also gives a full description of the clause final particles of Maonan.

Knocking on Heaven's Door Sharman Apt Russell, 2016-01-12 On a hotter and more volatile earth in the twenty-third century, humans like Clare and Jon live in utopia, hunting and gathering in small tribal bands, engaged in daily art and ritual, reunited with old friends like the shaggy mammoth and giant ground sloth. Even better, they still have solar- powered laptops and can communicate with each other around the world. The understanding of physics has also advanced. When scientists first cloned extinct species from the Pleistocene, they discovered that many of them were telepathic—that consciousness travels in waves. For most people, animism has become the preferred religion, a panpsychism compatible with the laws of a fractal holographic universe. As Clare tells one of her students, the return to an older, Paleolithic lifestyle is “one of humanity's greatest achievements.” It's too bad that utopia had to come at such a cost: a genetically engineered super-virus that wiped out most of earth's human population. Humanity was shaken by that event, and humanity vowed to change. Now, on the 150th anniversary of that catastrophe, a small group of men and women—as well as a smarter-than-average dire wolf and saber-toothed cat—are suddenly faced with decisions in which the stakes are higher than ever before. Will earth repeat the cycle of unbridled hubris? Or is humanity's destiny even stranger than that? Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction

(space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more.
