A Life in Music Daniel Barenboim, 2013-08-01 A Life in Music reviews five decades of the rich and uniquely varied musical life of Daniel Barenboim. A child prodigy as a pianist and a virtuoso conductor of symphonies and opera, he has known and worked with many of the most distinguished and exciting musicians of the 20th century, not least his own wife Jacqueline du Pré. With memories of music heard and performed, and thoughtful examinations of global influences and professional inspiration, A Life in Music offers a profound window to the mind of one of the twentieth century's greatest musicians. In this definitive edition, Barenboim discusses his work in Bayreuth, where he has been the most important artistic influence on the annual Wagner Festival; his involvement with the rebirth of the Berlin State Opera House in post-wall Berlin, and as conductor of two great orchestras in Berlin and Chicago; his thoughts on the state of Israel and his work with young Israeli and Arab musicians in Germany; his worldwide travels, his discovery of young talent and his insights into the changing world of music.

Facts and Fantasies D. Fatma Türe, 2015-06-18 The question of women and their rights was a prominent and ongoing topic of debate in the popular press of Turkey in the 1920s. This work presents an insightful analysis of those debates and follows its traces in obscene literature of the period, as a marginal, but influential branch of popular literature. Popular literature of the time carefully scrutinizes urban Istanbul women in particular, from their biological responsibilities to their behavior in the public arena, down to their clothes and their relations with the opposite sex. It was believed that it was urban women above all who threatened the contemporary social order. Bearing in mind that the traditional faith-based, patriarchal Ottoman social system began to disintegrate after the First World War, and was increasingly replaced by a nationalist and modern, but

still patriarchal, structure, this book shows that the popular press sought to integrate women as individuals into the new social structure and define them according to common social perceptions. Women who defied society's definition of the ideal woman were often depicted as heroines in popular obscene stories. While these stories offered a social fantasy in which society's concerns and paranoia about women turned into reality, from another perspective, they also reflected the ongoing social disintegration after years of secrecy and seclusion, and the excitement and awkwardness felt both by men and women as a result of coexisting in the same environment.

Women's Memory D. Fatma Türe, Fatma Türe, 2011-07-12 Women's archives appear to have been largely disregarded until the last couple of decades. Most countries lack well-documented archives, and the question of methodology has become a common concern and ever more significant for researchers. Aiming to contribute to the growing efforts of developing women's archives, the present book brings together the works of numerous researchers from various disciplines. The researchers contributed to this volume in order to share information and experiences about the problems of sources and archives in women's studies. The articles in the book not only analyse the problems encountered by researchers in the field of women's studies, but also examine perceptions of women in collective memories. The book comprises five parts: Women's Archives and Women's Libraries; Art, Literature and Journal; Letters and Petitions; Oral History; and Cinema. All the articles present fresh ideas on the collective memory, perceptions, experiences, and the collection of documents on women. The aim is to present discussions about the works of oral, written, and visual culture that constitute the collective memory and to form accessible archives on an international level, thereby opening up new areas of research on this subject.

Istanbul under Allied Occupation 1918-1923 Nur Bilge Criss, 2024-03-11 This study covers the socio-political, intellectual and institutional dynamics of underground resistance to the Allied occupation in Istanbul. The city was clearly not the seat of treason against the Nationalist struggle for independence, nor was collaboration with the occupiers what it was made out to be in Republican historiography. Above and beyond the international conjuncture in post-WWI Europe, factors that helped the Turkish Nationalists to succeed were: inter-Allied rivalries in the Near East that carried over to Istanbul; the British, French and Italians as major occupation forces, failing to establish a balance of strength among themselves in their haste to promote respective national interests; the victors underestimating the defeated as they were engrossed with bureaucracy and were assailed by the influx of Russian refugees, Bolshevik propaganda, and the Turkish left.
