God, even in the worst of times. My heart is moved with love and compassion for you. The Word is working in your life. Since God declares the end at the beginning, and since He made us in His image, we can also keep moving ahead in our paths toward what we were made to do, by focusing out thoughts on what He has promised in His Word. I pray that you will rise above all circumstances in your everyday life, take dominion over that which is already yours, and acknowledge the presence of Him who loves you forever-----Jesus Christ.

Jade of the Shang Dynasty Kako Crisci, From around 3000 to 1900BC, the late Neolithic period was a time of transition. In Mesopotamia, Egypt, and all around the Mediterranean basin, better living standards saw the rise of new cultures. In China Far East, along the Yellow River, settlements started to flourish and create their own unique identity. Jade was a precious and extremely difficult to carve mineral, mainly dedicated to the service of rituals or religious ceremonies. However, for a long time, the Shang dynasty jade design was regarded as a mere reproduction of the widely available bronzes the Shang were known for. In this book, the author revisits pre-conceived historical knowledge and, based on the research of well-respected scholar Hayashi Minao and expert historians Deng Shuping and Cai Qingliang, proposes that many of the jades pieces exhibited today in museums and private collections may have come from distinct earlier cultures and that bronze design may have been influenced by these devotional objects, not the reverse. Part one of this book, Jade from the early and middle Shang, presents the historical context in which cultures such as the Erlitou and the Erligang developed their unique style before being assimilated into the later Shang Dynasty. Part two, Jade from the late Shang, focuses on specific examples of ceremonial, weapons, and decorative jade to prove further that these pieces may actually have been anterior to the predominantly bronze ear and, by doing so, bring to light the exceptional craftsmanship of much older cultures. Eighty-four illustrations and photographs of unique jade artworks open a unique window of appreciation for these late neolithic times' sophisticated and little-known cultures.

Hongshan Jade KAKO CRISCI, 2022-08-16 The Hongshan culture came from the north-eastern part of China, around Liaoning, inner Mongolia, and close to the northern province of Hebei. Based on the findings at the Niuheliang site, the Hongshan demonstrated that they had a highly developed pyramide-shape society where the person that had the unique gift to communicate with the gods was the leader of that community. Religion and secular activities were merged, and they used their temples, altars, and burial mounds to connect and maintain their social system. Hongshan culture lasted nearly 2000 years. During this period, they created some of their most outstanding jade. Jade is among the most well-preserved remnants of their culture. Unlike pottery, jade was not meant to be used for daily activities. It is a unique window that allows us to understand the Hongshan belief system, their way of thinking, their perception of life and society. Toward the late 1980s, our knowledge of these people expanded considerably. In this book, the author started with what jade was, how jade was made, what kind of jade were made to the meaning of jade to Hongshan people, step by step to guide you into the wonderful longevity of jade culture, bring to light the exceptional craftsmanship of the oldest jade group. More than fifty illustrations and photographs of unique jade artworks open a unique window of appreciation for the oldest, most imaginative jade, full of mysterious beauty.
