Floor Coverings from Kashmir Promil Pande,2023-09-30 This book focuses on the floor covering traditions of Kashmir, one of the two distinct regions that constitute the Union territory of Jammu and Kashmir. Kashmir has been historically famous as a producer of the world-renowned and esteemed pashmina shawl. However, the region also produces a variety of floor coverings that are an essential part of its households and its handicraft industry. The variety of floor coverings produced differs in design, their mode of production, the raw material used and the region of production. Kaleen-weaving is a long-standing tradition, dating back to over 600 years, while floor coverings such as the wagoo mats trace their antiquity to the Indus Valley Civilization. This book intends to serve as a lasting narrative of the rich material culture of the Kashmir region. It identifies significant cultural units in design to showcase the age-old craft traditions in production that are integral to regional tangible and intangible cultural practices.

The Credibility of Transnational NGOs Peter A. Gourevitch,David A. Lake,Janice Gross Stein,2012-01-12 We rely on NGOs to monitor the ethical practices of governments and for-profit firms and to undertake many humanitarian tasks that public and private actors will not do. While we are critical of public and private sector failures, we do not reflect enough on the credibility of the NGOs which take their place. Can we be sure that products NGOs label as child-labor free are in fact so, that the coffee labeled as 'fair trade' is farmed in sustainable ways, or that the working conditions monitored by NGOs are safe and that the wages are reasonable? Can we know that humanitarian organizations are, in fact, using our donations to alleviate human suffering rather than pursuing other goals? This book explores the problems of establishing the credibility of NGO activities as they monitor working conditions, human rights and elections and provide finance through microcredit institutions, development aid and emergency assistance.

Paula Deen's Savannah Style Paula Deen,Brandon Branch,2010-03-27 With its lush gardens, stately town houses, and sprawling plantations, Savannah is the epitome of old Southern style, and who better to give you the grand tour than Paula Deen, the city's most famous resident and anointed Queen of Southern Cuisine? In this gorgeous, richly illustrated book, Paula Deen shares a full year of Southern living. Whether it's time to put out your best china and make a real fuss, or you're just gathering for some sweet tea on the porch at dusk, Savannah style is about making folks feel welcome in your home. With the help of decorator and stylist Brandon Branch, you'll learn how to bring a bit of Southern charm into homes from Minnesota to Mississippi. For each season, there are tips on decorating and entertaining. In the spring, you'll learn how to make the most of your outdoor spaces, spruce up your porch, and make your garden inviting. In the summer, things get more casual with a dock party. Sleeping spaces, including, of course, the sleeping porch, are the focal point of this chapter. In the fall, cooler weather brings a return to more formal entertaining in the dining room, and in the winter, attention returns to the hearth, as Paula and her neighbors put out their best silver and show you how they celebrate the holidays. Paula loves getting a peek at her neighbors' parlors, so she's included photographs of some of Savannah's grandest homes. From the vast grounds of Lebanon Plantation to the whimsically restored cottages on Tybee Island, you'll see the unique blend of old-world elegance and laid-back hospitality that charmed Paula the moment she arrived from Albany, Georgia, with nothing but two hundred dollars and a pair of mouths to feed. And she isn't shy about giving you a window into her own world, either. From her farmhouse kitchen to her luxurious powder room, you'll see how Paula lives when she's not in front of the camera. Packed with advice and nostalgia, Paula Deen's Savannah Style makes it easy to bring gracious Southern living to homes north and south of the Mason-Dixon Line.

Beyond the Boycott Gay W. Seidman,2007-09-13 As the world economy becomes increasingly integrated, companies can shift production to wherever wages are lowest and unions weakest. How can workers defend their rights in an era of mobile capital? With national governments forced to compete for foreign investment by rolling back legal protections for workers, fair trade advocates are enlisting consumers to put market pressure on companies to treat their workers fairly. In *Beyond the Boycott*, sociologist Gay Seidman asks whether this non-governmental approach can reverse the race to the bottom in global labor standards. *Beyond the Boycott* examines three campaigns in which activists successfully used the threat of a consumer boycott to pressure companies to accept voluntary codes of conduct and independent monitoring of work sites. The voluntary Sullivan Code required American corporations operating in apartheid-era South Africa to improve treatment of their workers; in India, the Rugmark inspection team provides 'social labels' for handknotted carpets made without child labor; and in Guatemala, COVERCO monitors conditions in factories producing clothing under contract for major American brands. Seidman compares these cases to explore the ingredients of successful campaigns, as well as the inherent limitations facing voluntary monitoring schemes. Despite activists' emphasis on educating individual consumers to support ethical companies, Seidman finds that, in practice, they have been most successful when they mobilized institutions—such as universities, churches, and shareholder organizations. Moreover, although activists tend to dismiss states' capabilities, all three cases involved governmental threats of trade sanctions against companies and countries with poor labor records. Finally, Seidman points to an intractable difficulty of independent workplace monitoring: since consumers rarely distinguish between monitoring schemes and labels, companies can hand pick monitoring organizations, selecting those with the lowest standards for working conditions and the least aggressive inspections. Transnational consumer movements can increase the bargaining power of the global workforce, Seidman argues, but they cannot replace national governments or local campaigns to expand the meaning of citizenship. As trade and capital move across borders in growing volume and with greater speed, civil society and human rights movements are also becoming more global. Highly original and thought-provoking, *Beyond the Boycott* vividly depicts the contemporary movement to humanize globalization—its present and its possible future. International Labour Rights and the Social Clause Arne Daniel Albert Vandaele,2005 Takes as its starting point the observation that a social clause should be concerned with achieving international labour rights. Analyses the conception of international labour rights involving not only law but also other disciplines such as history, morality and economics. Shows that the discussion on the social clause is emblematic of the way the WTO and the international trade system should deal with human rights in general. It requires an approach grounded in international law in the broadest sense, covering general international law, international human rights law, international trade law, international labour law and legal theory.

Advances in Carpet Manufacture K K Goswami,2017-09-13 *Advances in Carpet Manufacture*, Second Edition, discusses the manufacture of carpets, an industry that has evolved over hundreds of years, also exploring the new changes and developments in textile science and manufacturing technology that occur every day. This updated edition provides revised, expanded and updated coverage of carpet manufacturing processes and applications. The book begins by reviewing the different types of carpets and their applications, also exploring the structure and properties of carpet materials. Carpet manufacturing techniques are then reviewed, including a new chapter on tufting and yarn manufacturing techniques, and design and manufacture for handmade carpets. Subsequent chapters review the development of carpets with important properties, including new chapters on carpets for acoustics and sound absorption, carpets with increased fire retardancy and those with antimicrobial and soil-resist finishes. With the variety of topics covered and its international team of contributors, the book offers a valuable and informative reference for technologists in the carpet and associated industries. However, it is also a great resource for researchers and students working in applied textile sciences. Presented by an expert

editor with many years of experience in both academic textile research and industry Provides new research, technologies and other developments in carpet manufacture for academics and developers seeking to update their knowledge Includes a strong focus on industry needs and developing areas with market potential
