An Indonesian-English Dictionary John M. Echols,Hassan Shadily,John U. Wolff,1989 This dictionary is meant primarily as a tool for English speakers who need to know Indonesian and who deal with Indonesian writings. The aim has thus been to give comprehensive coverage to forms a foreigner might run across in Indonesian readings, from this era or from the past, but excluding classical Malay literature, Much of the Indonesian written production (written and otherwise) contains slangy, colloquial, and regional forms, and we have not excluded such forms. On the other hand we have confined the listing of dialectical forms only to those likely to be widely known...The dictionary should also be useful to Indonesians who wish to learn English equivalents of Indonesian words, but it has not been developed primarily for that purpose, because many English words can only be defined by a sequence of Indonesian words. from Introduction.
