Learning Japanese Hiragana and Katakana Kenneth G. Henshall,Tetsuo Takagaki,2013-12-20 Learning Hiragana and Katakana is a systematic and comprehensive Japanese workbook that is perfect for self-study or use in a

classroom setting. Written Japanese combines three different types of characters: the Chinese characters known as kanji, and two Japanese sets of phonetic letters, hiragana and katakana, known collectively as kana, that must be mastered before the Japanese kanji can be learned. A comprehensive introduction presents their primary function, origin, pronunciation and usage. The main body of the book is devoted to presenting the 92 hira and kata characters along with their variations, giving step-by-step guidelines on how to write each character neatly in the correct stroke order, with generous practice spaces provided for handwriting practice. This Japanese workbook includes: Systematic and comprehensive coverage of the two Japanese kana systems. Ample provision for Japanese kana practice, review, and self-testing at several levels Detailed reference section explaining the origin and function of kana, and the various kana combinations. Access to online Japanese audio files to aid in correct pronunciation. Helpful additional information for language students accustomed to romanized Japanese. Vocabulary selected for usefulness and cultural relevance. About this new edition: The new third edition has been expanded and revised to include many additional reading and writing exercises. **Remembering the Kana** James W. Heisig, 2007-04-30 Following on the phenomenal success of Remembering the Kanji, the author has prepared a companion volume for learning the Hiragana and Katakana syllabaries of modern Japanese. In six short lessons of about twenty minutes, each of the two systems of kana writing are introduced in such a way that the absolute beginner can acquire fluency in writing in a fraction of the time normally devoted to the task. Using the same basic self-taught method devised for learning the kanji, and in collaboration with Helmut Morsbach and Kazue Kurebayashi, the author breaks the shapes of the two syllabaries into their component parts and draws on what he calls imaginative memory to aid the student in reassembling them into images that fix the sound of each particular kana to its writing. Now in its third edition, Remembering the Kana has helped tens of thousands of students of Japanese master the Hiragana and Katakana in a short amount of time . . . and have fun in the process.

**The Global Smartphone** Daniel Miller ,Laila Abed Rabho ,Patrick Awondo , Maya de Vries,Marília Duque,Pauline Garvey, Laura Haapio-Kirk,Charlotte Hawkins,Alfonso Otaegui ,Shireen Walton,Xinyuan Wang, 2021-05-06 The smartphone is often literally right in front of our nose, so you would think we would know what it is. But do we? To find out, 11 anthropologists each spent 16 months living in communities in Africa, Asia, Europe and South America, focusing on the take up of smartphones by older people. Their research reveals that smartphones are technology for everyone, not just for the young. The Global Smartphone presents a series of original perspectives deriving from this global and comparative research project. Smartphones have become as much a place within which we live as a device we use to provide 'perpetual opportunism', as they are always with us. The authors show how the smartphone is more than an 'app device' and explore differences between what people say about smartphones and how they use them. The smartphone is unprecedented in the degree to which we can transform it. As a result, it

quickly assimilates personal values. In order to comprehend it, we must take into consideration a range of national and cultural nuances, such as visual communication in China and Japan, mobile money in Cameroon and Uganda, and access to health information in Chile and Ireland – all alongside diverse trajectories of ageing in Al Quds, Brazil and Italy. Only then can we know what a smartphone is and understand its consequences for people's lives around the world.
