Neoliberalism and U.S. Foreign Policy Catherine V. Scott,2018-01-23 While there has been a flood of scholarly efforts to extend, adapt, and revise Foucault's exploration of the emergence and operations of neoliberalism, the study of foreign policy has remained steeped in the analysis of partisanship, institutions, policies, and personality and their influence on various issue areas, toward particular countries, or specific presidential doctrines. This book brings the political rationality of neoliberalism to bear on U.S. foreign policy in two distinct ways. First, it challenges, complicates, and revises the numerous interpretations of U.S. nationalism that posit a homologous relationship between "1898" and contemporary nationalism, instead arguing that alterations in the operations of capitalism and its correlative forms of governance have produced a differently formatted nationalism, which in turn has produced different operations of U.S. hegemony in the twenty-first century that markedly depart from earlier eras. Second, this book argues for a new timeline—one that starts with the Carter-Reagan era and the crisis of capitalism—ultimately encouraging us to think beyond particular presidencies, wars, bureaucratic politics, and policies in order to train our sights on how long-term and sustained shifts in the economy and attendant government practices have emerged to produce new myths of exceptionalism that more fully cohere with the neoliberal foundations of the U.S. nation-state.

Abject Relations Megan Warin,2010 *Abject Relations* presents an alternative approach to anorexia, through detailed ethnographic investigations. Megan Warin looks at the heart of what it means to live with anorexia on a daily basis. Unraveling anorexia's complex relationships and contradictions, Warin provides a new theoretical perspective rooted in a socio-cultural context of bodies and gender. *Abject Relations* departs from conventional psychotherapy approaches and offers a different logic, one that involves the shifting forces of power, disgust, and desire and provides new ways of thinking that may have implications for future treatment regimes. --Publisher.

That Girl's Not Right Kathleen Wooton, 2010 As a doctor, Kathleen Wooton strongly believes that laughter is the best medicine; she also believes that the best way for her to administer that medicine is by being a humorist, which allows her to give the kind of shot in the arm that so many of us need a good belly laugh on a daily basis. As a mother, Kathy believes that every day she manages to survive motherhood without personal injury or criminal charges is a blessing. *That Girl's Not Right* is a delightful romp through the mind and musings of Kathleen Wooton. Her hilarious commentary provides a unique and often quirky look at what other wise might be mundane life situations from the entirely relatable *Why Does Water Need a Child-Proof Cap?* to the all-too-true *Sleep Deprivation and the Exhausted Mom*, *That Girl's Not Right* speaks to all of us through the universal language of laughter. Whether poetry or prose and Wooton offers a healthy dose of each the homespun humor in this collection is just what the doctor ordered.
