Current Issues in Hospitality and Tourism A. Zainal,S.M. Radzi,R. Hashim,C.T. Chik,R. Abu,2012-08-22 Globally the hospitality and tourism industry is evolving and undergoing radical changes. The past practices are now advancing through the rapid development of knowledge and skills acquired to adapt and create innovations in various ways. Hence, it is imperative that we have an understanding of the present issues so that we are able to remedy problems on the horizon. Current Issues in Hospitality and Tourism: Research and Innovations is a compilation of research in the broad realm of hospitality and tourism. This book is divided into eight sections covering the following broad themes: – Training and education (hospitality students learning); – Organization and management (practical issues and current trends in the hotel, catering and tourism industry); – Product and food innovation; – Marketing; – Islamic hospitality and tourism issues; – Gastronomy; – Current trends; – Tourism The contributions, from different parts of the globe, present a new outlook for future research, including theoretical revelations and innovations, environmental and cultural exploration aspects, tourist destinations and other recreation and ecotourism aspects of the hospitality and tourism industry. Current Issues in Hospitality and Tourism: Research and Innovations will be useful as a reference for academics, industry practitioners and policy makers, and for those with research interests in the fields of hotels, tourism, catering and gastronomy.

**The Meaning of Home** Edwin Heathcote,2012-09-18 We are so familiar with the features of our homes, the myriad little decorative details, that we have forgotten how to see them. We might look at a church, read a book or watch a film and attempt to understand its symbolism and its references, but we rarely look at our homes in the same light. Yet from the most ordinary apartment to the most extravagant mansion, every home is a deep well of echoes. Windows to wardrobes, fireplaces to door knockers, Edwin Heathcote attempts to fathom the elements of our everyday domestic lives. The Meaning of Home explores how we build our houses on the souls of our ancestors: how ritual and symbolic elements transmute over time into practical features, and how often this symbolic charge ensures that those features last long after their practical uses are forgotten. After reading this scintillating book, home will never look quite the same again.

*Gorillas, markets and the search for economic values* Abraham Bob Hoogenboom,2013 The nickname of the Lehman CEO Dick Fuld was 'The Gorilla of Wallstreet'. In *Gorillas, Markets and the Search for Economic Values* the Nyenrode academic community discusses the five years following the Lehman Brothers demise (as a metaphor for the ongoing financial crises). We try to understand the complexities of the financial crises for future research and lecturing. Do the crises challenge common wisdom? Can long-standing theoretical models stand the test of ongoing turbulences in markets and financial institutions? Are relationships between governments, markets and regulation in dire need of redefinition? What are explanations and remedies for the crises? In short: whats new? Four themes are discussed that could spark theoretical innovations. We offer governments, regulators, financial institutions, shareholders, companies, and clients suggestions, tools, and mentalities to address the crises. The themes are: The blame game Psychology and culture Reinventing regulation and overcoming information asymmetry Other business models, new values Bron: Flaptekst, uitgeversinformatie.
