J. MICHAEL RYAN

[Before Big Blue](#) Gregory Kent Stanley,2021-12-14 In the heart of the Bluegrass, basketball is king of collegiate athletics. But it wasn't always so. Before Big Blue chronicles the early history of organized sports at the University of Kentucky, from the tenuous beginnings under student leadership, through the early scandals, financial instability, and clashes with administration, to the purge of 1938 that paved the way for basketball's ascendancy. Once upon a time in Lexington, football ruled the athletic department. In the 1890s and 1900s the most intense competition was with crosstown rival Transylvania University. The annual Thanksgiving Day game was the biggest event of the season, and its gate receipts essentially funded the entire department. Among other highlights, Gregory Kent Stanley reveals the story behind the Wildcats' nickname, reports on the greased pants game against Mississippi State in 1914, and divulges the origins of the post-victory nightshirt parades through downtown. When basketball finally arrived on campus, it was the women's team that was organized first. Its transfer out of the women's physical education department in 1903 led to a twenty-year turf war that was one of the period's most intense. Whether played by men or by women, however, basketball during the early years of the century was of minor consequence. The men's team played in a gym without facilities for spectators, most players were from the football team, and all the early coaches—including Adolph Rupp—assisted with the football program. Nevertheless, the early years showed signs of the success to come: the 9-0 team of 1912, which never trailed an opponent; the 1921 squad, losers of only one game and winners of the school's first tournament; and Rupp's winning percentage of .820 during the 1930s that saved his job during President McVey's massive reorganization of the athletic department. Before Big Blue tells a story both unique and universal. As the first comprehensive history of the rise of intercollegiate athletics at UK, it makes a valuable contribution to the growing literature of sports history.

[Kentucky's Domain of Power, Greed and Corruption](#) Betty Boles Ellison,2001-02 Referring to college athletics as amateur sports is as archaic as football's flying wedge that was outlawed almost a century ago. College athletics are all about multi-million-dollar programs, billion-dollar television contracts, corporate control and cronyism. Power, greed and corruption have turned the top athletic programs into money-making machines controlled as much by people outside the program as university presidents and athletics directors. Few, if any, books written about college athletics closely examine the behind-the-scenes deal making, how lucrative contracts are awarded and the favored few who benefit. This book reveals how and why sports decisions were made at the University of Kentucky, one of the nation's top programs, how they were influenced by powerful elements who profited, sometimes by questionable legal and ethical tactics from these actions. Six years of solid academic research stands behind the facts revealed in this book.

[Adolph Rupp and the Rise of Kentucky Basketball](#) James Duane Bolin,2019-03-15 Known as the Man in the Brown Suit and The Baron of the Bluegrass, Adolph Rupp (1901--1977) is a towering figure in the history of college athletics. In *Adolph Rupp and the Rise of Kentucky Basketball*, historian James Duane Bolin goes beyond the wins and losses to present a full-length biography of Rupp based on more than one-hundred interviews with Rupp, his assistant coaches, former players, University of Kentucky presidents and faculty members, and his admirers and critics, as well as court transcripts, newspaper accounts, and other archival materials. This biography presents the fullest account of Rupp's life to date. His teams won four NCAA championships (1948, 1949, 1951, and 1958), one National Invitation Tournament title in 1946, and twenty-seven Southeastern Conference regular season titles. Rupp's influence on the game of college basketball and on his adopted home of Kentucky are both much broader than his impressive record on the court. Bolin covers Rupp's early years -- from his rural upbringing in a German Mennonite family in Halstead, Kansas, through his undergraduate years at the University of Kansas playing on teams coached by Phog Allen and taking classes with James Naismith, the inventor of basketball -- to his success at Kentucky. This revealing portrait of a pivotal figure in American sports also exposes how college basketball changed, for better or worse, in the twentieth century.

[Sole Survivor](#) Holly Dunn,2017-11-07 A memoir of hope, healing, and survival, sure to resonate with fans of Jaycee Dugard's *A Stolen Life* and Elizabeth Smart's *My Story*. On August 28, 1997, just as she was starting her junior year at the University of Kentucky, Holly Dunn and her boyfriend, Chris Maier, were walking along railroad tracks on their way home from a party when they were attacked by notorious serial killer Angel Maturino Resendiz, aka The Railroad Killer. After her boyfriend is beaten to death in front of her, Holly is stabbed, raped, and left for dead. In this memoir of survival and healing from a horrific true crime, Holly recounts how she lived through the vicious assault, helped bring her assailant to justice, and ultimately found meaning and purpose through service to victims of sexual assault and other violent crimes. She has worked as a motivational speaker and activist and founded Holly's House, a safe and nurturing space in her hometown of Evansville, Indiana.

[Breaking Cardinal Rules](#) Katina Powell ,Dick Cady,2015-10-02 An expose of sexual recruiting tactics from the journal pages of an escort queen. *Breaking Cardinal Rules* is an exposé by escort Katina Powell based on her experiences providing sexual services for the basketball program at the University of Louisville. It is written with Pulitzer Prize-winning investigative journalist Dick Cady. Powell has filled five journals with details of her escort escapades, sexual encounters and her activities at the University of Louisville. Most of the U of L services she provided took place in the men's dormitory where most of the basket players reside. Her main contact and the man with the money--the school's former director of basketball operations and former graduate assistant, Andre McGee--kept Powell and her girls busy from 2010 to 2014. Powell does not present a sympathetic character. Her life is full of contradictions. She has no remorse over the choices she has made. Her story is true in all its graphic detail. If you think you've heard seamy tales about recruiting before, wait till you get a load of this. The Louisville High Command has vowed to take the matter very seriously. It should. -Mike Lopresti, retired USA Today sports columnist **Keywords:** University Of Louisville, Cardinals, Recruitment, Basketball, College, Sports, Recruitment Violations, Sex, Striptease Andre McGee, Escorting Services

[The Sports Strategist](#) Irving Rein PhD,Ben Shields,Adam Grossman,2014-08-01 Today's high-performance sports business is more complex than ever before and presents new challenges to the industry at all levels. Sports organizations are fighting hard for the money and engagement of fans, media, and sponsors while facing unprecedented competition both domestically and internationally. The cost of doing business continues to rise, while traditional revenue streams are under increased pressure. In *The Sports Strategist: Developing Leaders for a High-Performance Industry*, authors Irving Rein, Ben Shields, and Adam Grossman demonstrate that relying too much on winning is a losing long-term strategy for dealing with these challenges. Instead, they argue that sports organizations must focus on identifying and maximizing key factors that, unlike winning, can be controlled and shaped. By building a more well-rounded business, sports strategists will position themselves and their organizations for sustainable success in the industry. Blending extensive industry experience and real-world case studies with their academic expertise, the authors arm students with the combination of the necessary tools to help them make better strategic decisions. Students will learn how to design identities, reinvigorate venue experiences, manage narratives, and maximize new technology in today's connected world. In addition, readers will explore how to implement business analytics, build public support, and apply ethics in decision-making. These techniques are vital to creating a successful sports organization that is ready to reap the benefits of winning when it does happen, without having to suffer when it does not. The demand for innovative leaders who can address these issues and make tough decisions on which challenges to prioritize has never been greater. *The Sports Strategist* is an essential resource for anyone looking to thrive in the sports industry.

[The \\$64 Tomato](#) William Alexander,2007-03-02 Bill Alexander had no idea that his simple dream of having a vegetable garden and small orchard in his backyard would lead him into life-and-death battles with groundhogs, webworms, weeds, and weather; midnight expeditions in the dead of winter to dig up fresh thyme; and skirmishes with neighbors who feed the vermin (i.e., deer). Not to mention the vacations that had to be planned around the harvest, the near electrocution of the tree man, the limitations of his own middle-aged body, and the pity of his wife and kids. When Alexander runs (just for fun!) a cost-benefit analysis, adding up everything from the live animal trap to the Velcro tomato wraps and then amortizing it over the life of his garden, it comes as quite a shock to learn that it cost him a staggering \$64 to grow each one of his beloved Brandywine tomatoes. But as any gardener will tell you, you can't put a price on the unparalleled pleasures of providing fresh food for your family.

[Three Ways to Disappear](#) Katy Yocom,2019-07-16 Leaving behind a nomadic and dangerous career as a journalist, Sarah DeVaughan returns to India, the country of her childhood and a place of unspeakable family tragedy, to help preserve the endangered Bengal tigers. Meanwhile, at home in Kentucky, her sister, Quinn--also deeply scarred by the past and herself a keeper of secrets--tries to support her sister, even as she fears that India will be Sarah's undoing. As Sarah faces challenges in her new job--made complicated by complex local politics and a forbidden love--Quinn copes with their mother's refusal to talk about the past, her son's life-threatening illness, and her own increasingly troubled marriage. When Sarah asks Quinn to join her in India, Quinn realizes that the only way to overcome the past is to return to it, and it is in this place of stunning natural beauty and hidden danger that the sisters can finally understand the ways in which their family has disappeared--from their shared history, from one another--and recognize that they may need to risk everything to find themselves again. With dramatic urgency, a powerful sense of place, and a beautifully rendered cast of characters revealing a deep understanding of human nature in all its flawed glory, Katy Yocom has created an unforgettable novel about saving all that is precious, from endangered species to the indelible bonds among family.

[The Great Black Hope](#) Constance Gorman,2012-10-01 Tony is an African-American high school student and a stand-out high school football player on track to participate in college football and, possibly, the NFL. Tony and his older brother learned the social dynamics of surviving on the inner city streets while fostering their love for football. Then his brother, who is also his best friend, went away to college on a football scholarship and Tony found himself alone. He fell into a deep, life-threatening depression when faced with the fact that he was illiterate; he may never graduate from high school and realize his dream of a career in the NFL. Follow Tony's plight from utter despair to a life full of hope and personal victories when he asks a science teacher to teach him to read. God challenges the teacher
