**The Orphanmaster** Jean Zimmerman,2013-04-30 A love story wrapped around a murder mystery, set in seventeenth-century Manhattan In 1663 in the hardscrabble colony of New Amsterdam—today's lower Manhattan—orphan children are going missing and residents suspect a serial killer. The list of possible culprits is long and strange. Among those looking into the mystery are a shrewd young Dutch woman, Blandine van Couvering, and a dashing Englishman, Edward Drummond, whose newfound romance is threatened by horrible accusations. In this spellbinding work of historical fiction, Jean Zimmerman relates the harsh realities of life in early Manhattan, re-creating the sights, smells, and textures of the rough settlement surrounded by wilderness and subject to political turmoil. Compulsively readable and filled with New York history, The Orphanmaster will delight fans of Caleb Carr, Hilary Mantel, and Geraldine Brooks.

*Merriam-Webster's Rhyming Dictionary* Merriam-Webster, Inc,2002 New edition! Convenient listing of words arranged alphabetically by rhyming sounds. More than 55,000 entries. Includes one-, two-, and three-syllable rhymes. Fully cross-referenced for ease of use. Based on best-selling Merriam-Webster's Collegiate® Dictionary, Eleventh Edition.

**Homophones and Homographs** ,2014-11-01 This expanded fourth edition defines and cross-references 9,040 homophones and 2,133 homographs (up from 7,870 and 1,554 in the 3rd ed.). As the most comprehensive compilation of American homophones (words that sound alike) and homographs (look-alikes), this latest edition serves well where even the most modern spell-checkers and word processors fail--although rain, reign, and rein may be spelled correctly, the context in which these words may appropriately be used is not obvious to a computer.

*Homophones and Homographs* ,1993 Reviews of the first edition: The best roster of these phenomena--Wilson Library Bulletin; a good choice for any library--RQ. Now greatly expanded, the second edition includes over 7,000 (up from 3,500) homophones (words that sound alike) and over 1,400 (up from 600) homographs (look-alikes). Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Overcoming School Refusal Joanne Garfi,2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

**Cinematic Rotterdam** Floris Paalman,2011 This publication zooms in on the part cinema has played in urban development between 1920 and 1980. Rotterdam acts as an inspiring example, as observed from an international perspective. This city has its very own history in film. Besides providing the backdrop for a variety of feature films and avant-garde classics, Cinematic Rotterdam describes how the city has established and maintained its identity through thousands of promotional and educational films and television programmes. This diverse collection of filmed material presents an audiovisual map of Rotterdams emergence as a modern city. Written by film scholar Floris Paalman, Cinematic Rotterdam is not only a thorough study of the audiovisual history of Rotterdam but is more especially a conceptual exploration of a hidden dimension of the city itself. Besides being an exhaustive reference work for policymakers, clients, producers and researchers in architecture, media and social studies, this overview makes a fascinating visual guide for anyone interested in looking at the city of Rotterdam from a different angle -- Publicaciones Arquitectura y Arte.

Before Bruegel AlisonG. Stewart,2017-07-05 Peasant festival imagery began in sixteenth-century Nuremberg, when the city played host to a series of religious and secular festivals. The peasant festival images were first produced as woodcut prints in the decade between 1524 and 1535 by Sebald Beham. These peasant festival prints show celebrating in a variety of ways including dancing, eating and drinking, and playing games. In Before Bruegel, Alison Stewart takes a fresh look at these images and explores them within their historical and cultural contexts, including the introduction of the Lutheran Reformation into the town's institutions and the accompanying re-evaluation of the town's popular festivals. Stewart goes beyond the black-and-white approaches of previous interpretations, to examine the festival prints in a more complex manner. In the first publication of its kind, Stewart makes the case for a range of meanings these works held for a sixteenth-century audience and for Beham's pictorial inventiveness and his business savvy. Beham is credited with inventing the subject of peasant festivals in Northern Renaissance art and for creating a market for the subject by the middle of the sixteenth century, with his large-scale woodcuts at Nuremberg and with tiny engravings at Frankfurt. Stewart shows that the market Beham created for prints with the theme of peasant festivals paved the way for Pieter Bruegel's Netherlandish paintings of the same theme, dating but a few years later.

**Antifascisms** David Ward,1996 This book is an in-depth analysis of three of the most crucial years in twentieth-century Italian history, the years 1943-46. After more than two decades of a Fascist regime and a disastrous war experience during which Italy changed sides, these years saw the laying of the political and cultural foundations for what has since become known as Italy's First Republic. Drawing on texts from the literature, film, journalism, and political debate of the period, Antifascisms offers a thorough survey of the personalities and positions that informed the decisions taken in this crucial phase of modern Italian history.

**Electrothermics** Javad Fouladgar,2012-12-13 This book concerns the analysis and design of induction heating of poor electrical conduction materials. Some innovating applications such as inductive plasma installation or transformers, thermo inductive non-destructive testing and carbon-reinforced composite materials heating are studied. Analytical, semi-analytical and numerical

models are combined to obtain the best modeling technique for each case. Each model has been tested with experimental results and validated. The principal aspects of a computational package to solve these kinds of coupled problems are described. In the first chapter, the mathematical tools for coupled electromagnetic and thermal phenomena are introduced. In Chapter 2, these tools are used to analyze a radio frequency inductive plasma installation. The third chapter describes the methodology of designing a low frequency plasma transformer. Chapter 4 studies the feasibility of the thermo inductive technique for non-destructive testing and the final chapter is dedicated to the use of induction heating in the lifecycle of carbon-reinforced composite materials. Contents 1. Thermal and Electromagnetic Coupling, Javad Fouladgar, Didier Trichet and Brahim Ramdane. 2. Simplified Model of a Radiofrequency Inductive Thermal Plasma Installation, Javad Fouladgar and Jean-Pierre Ploteau. 3. Design Methodology of A Very Low-Frequency Plasma Transformer, Javad Fouladgar and Sourì Mohamed Mimoune. 4. Non Destructive Testing by Thermo-Inductive Method, Javad Fouladgar, Brahim Ramdane, Didier Trichet and Tayeb Saidi. 5. Induction Heating of Composite Materials, Javad Fouladgar, Didier Trichet, Samir Bensaid and Guillaume Wasselynck

Strategic Affection? Irma Thoen,2007 Since the early days of humanity, gifts as varied as valued objects, hospitality, and works of art have been an essential means of establishing and maintaining social ties. Strategic Affection? studies the exchange of gifts in order to explore the nature of seventeenth-century Dutch social relations. Looking at such widely divergent figures as schoolmasters, artisans, poets, and nobles, Irma Thoen compares seventeenth-century Dutch gifts with contemporary gift exchanges to show that both strategy and affection are necessary elements of any social relations—and that what changes most is not the system but the discourse of exchange.

Sex and Drugs Before Rock 'n' Roll Benjamin Roberts,2012 Sex and Drugs Before the Rock 'n' Roll is a fascinating volume that presents an engaging overview of what it was like to be young and male in the Dutch Golden Age. Here, well-known cohorts of Rembrandt are examined for the ways in which they expressed themselves by defying conservative values and norms. This study reveals how these young men rebelled, breaking from previous generations: letting their hair grow long, wearing colorful clothing, drinking excessively, challenging city guards, being promiscuous, smoking, and singing lewd songs. Cogently argued, this study paints a compelling portrait of the youth culture of the Dutch Golden Age, at a time when the rising popularity of print made dissemination of new cultural ideas possible, while rising incomes and liberal attitudes created a generation of men behaving badly.

**Peasant Scenes and Landscapes** Larry Silver,2012-01-04 Larry Silver investigates the origins of new pictorial types and their media as a phenomenon of sixteenth-century Antwerp and interprets several pictorial genres as he charts their evolution and their role in the development and marketing of individual artistic styles.

**Syntagma Musicum** Michael Praetorius,1991 Syntagma Musicum is a book by the German musicologist Michael Praetorius, published in Wittenberg and Wolfenbüttel in three parts between 1614 and 1620. It is one of the most commonly used research sources for the music theory of the seventeenth century. The second work De Organographia illustrates and describes musical instruments and their use; becoming a valuable resource for the research and reconstruction of early instruments.
