The Legend of Con-way Jeffrey L. Rodengen,2008 Con-way Inc., a \$4.7 billion motor freight transportation and logistics company, traces its heritage from 1929, when industry pioneer Leland James founded an intercity trucking company in Portland, Oregon. Initially named Consolidated Truck Lines, this company grew from a one-truck operation into one of the largest long-haul carriers in the United States by the early 1980s, and became one of the few freight transportation firms to originate in the West and successfully expand eastward. In 1983, three regional, less-than-truckload (LTL) freight companies Con-Way Central Express, Con-Way Western Express, and eventually Con-Way Eastern Express emerged to challenge the industry with a surprising nonunion presence. These beginnings laid the foundation for one of the most successful short-haul market trucking enterprises. Con-way s exponential growth included long-haul trucking, short-haul trucking, airfreight forwarding, ocean shipping, and logistics solutions. Not surprisingly, operations of the diversified company remain dedicated to customer satisfaction, a strong sign of the company s longevity and innovative spirit. In 2006, Con-way again displayed its keen ability to meet ever-evolving market needs in a tremendous rebranding effort to unite its 500 locations in 17 countries and more than 27,000 employees under one contemporary, unified presence. The Legend of Con-way: A History of Service, Reliability, Innovation, and Growth provides a compelling account of how Con-way adapted and thrived despite government regulations, fuel shortages, and union pickets, and continues today as a leader in the highly competitive transportation industry.

Freight Forwarder Business Startup Allen McCarthy, 2017-02-02 Freight Forwarder Business Startup How to Start, Run & Grow a Successful Freight Forwarding Business The global freight forwarding market has been seeing a steady growth of around 5% for last four years in a row now. This trend is expected to continue and grow bigger. With all the new trade deals like TPP (Trans-Pacific Partnership), TAP (Trans-Atlantic Partnership) and many other similar trade deals between countries are bringing the whole world into one marketplace. According to Transportation Intelligence, a leading logistics research firm, in 2013 the freight forwarding industry was at 129 Billion, but as of today, it has grown by another 16-20 billion more. This is an industry that in my opinion still in its infancy, with TPP, TAP and many other global trade agreements, the need for such services will grow higher every year. Another rapid growth I see in this business is from all the Amazon FBA (Fulfilled By Amazon) business owners, most of who buy their merchandise from China. Now Amazon never accepts merchandise directly from a foreign country, so each and every piece of merchandise has to come through a freight forwarder/broker. This way the merchandise can get relabeled and shipped to various Amazon warehouses. In This Book You Will Learn: What is a Freight Forwarder What Is Freight Forwarding Business Types of Freight Forwarders Steps To Becoming A Freight Forwarder How to get started How and Where to Get Trained What Courses You Should Take How To Setup Your Business Legal Factors Freight Forwarder Licenses Steps to FMCSA Registration Insurance Requirements Running a Freight Forwarding Business Trading Condition and Limiting Liability How To Promote & Grow Your Business The Elements of Price Quote Links to all forms and applications But one word of caution, please don't think reading this book will be enough to get started as a freight forwarder, it takes some training either on the job (like I did) or formal school or online training to get started in this business. In this book, I shared some of the resources that are available for you to get started. If you are thinking about getting into this business, trust me when I say this, there is not a better time than now to get started. Do your research, get educated, get started. Good luck!
