Riding Rockets Mike Mullane,2007-02-06 Selected as a Mission Specialist in 1978 in the first group of shuttle astronauts, Mike Mullane completed three missions and logged 356 hours aboard the Discovery and Atlantis shuttles. It was a dream come true. As a boy, Mullane could only read about space travel in science fiction, but the launch of Sputnik changed all that. Space flight became a possible dream and Mike Mullane set out to make it come true. In this absorbing memoir, Mullane gives the first-ever look into the often hilarious, sometime volatile dynamics of space shuttle astronauts - a class that included Vietnam War veterans, feminists, and propeller-headed scientists. With unprecedented candour, Mullane describes the chilling fear and unparalleled joy of space flight. As his career centred around the Challenger disaster, Mullane also recounts the heartache of burying his friends and colleagues. And he pulls no punches as he reveals the ins and outs of NASA, frank in his criticisms of the agency. A blast from start to finish, *Riding Rockets* is a straight-from-the-gut account of what it means to be an astronaut, just in time for this latest generation of stargazers.

In “A Private Experience,” a medical student hides from a violent riot with a poor Muslim woman, and the young mother at the centre of “Imitation” finds her comfortable life in Philadelphia threatened when she learns that her husband has moved his mistress into their Lagos home. Master Potter of Meiji Japan Moyra Clare Pollard,2002 This is the first book in a European language to make a comprehensive study of the life and works of the astonishingly versatile and accomplished Meiji potter, Makuzu Kozan (1842 - 1916), who was acclaimed as one of the greatest ceramic artists of the Meiji period. The Meiji period, after the opening of Japan to the West in the mid-nineteenth century, was a time of momentous change for Japanese society and Kozan's Makuzu workshop makes an ideal case study to examine the effects of these changes on the Japanese ceramic industry. This book tells the story of Kozan's Makuzu wares from their origins in a traditional workshop in Kyoto to their maturity in a prolific factory in the newly-opened port of Yokohama, where Kozan's ability to cater to the demands of a new Western export market and to incorporate new Western glaze techniques led to enormous success, both in Japan and abroad at the international exhibitions that flourished from the 1850s. Lavish illustrations highlight Kozan's remarkable and technical and artistic achievements, while ceramic marks and box inscriptions are analysed as a practical guide to dating Makuzu ware. Clare Pollard discusses the role of later generations of the Miyagawa family in the running of the workshop and relates developments in Makuzu ware to the work of other major potters of the era, both in Japan and in Europe and America. Incorporating contemporary sources (including previously unstudied archival material from the Makuzu workshop itself), recent research and the study of a large corpus of Makuzu wares in museums and private collections all over the world, the book examines the artistic, political, and commercial factors that influenced Kozan and his contemporaries as they strove to come to terms with shifting life-styles and changing attitudes to the arts, and moved towards the creation of a modern ceramic industry.
