Teachers Engaging Parents and Children in Mathematical Learning Regina M. Mistretta,2008
This book serves to enliven three-way partnerships among parents, teachers, and students concerning mathematical learning in elementary and middle school settings. Key tenets of the principles concerning constructivism and overlapping spheres of influence are presented in the first two chapters to provide a solid theoretical basis for teaching mathematics the way we do and for involving parents in the learning process. The remaining chapters describe parental involvement initiatives that reflect a model consisting of an invitation, an initial meeting, an engagement workshop, home activities, a follow-up session, and additional tasks to maintain connections between the mathematics classroom and the home.

Tales of a Fourth Grade Nothing Judy

Blume,2011-12-01 Living with his little brother, Fudge, makes Peter Hatcher feel like a fourth grade nothing. Whether Fudge is throwing a temper tantrum in a shoe store, smearing smashed potatoes on walls at Hamburger Heaven, or scribbling all over Peter's homework, he's never far from trouble. He's a two-year-old terror who gets away with everything—and Peter's had enough. When Fudge walks off with Dribble, Peter's pet turtle, it's the last straw. Peter has put up with Fudge too long. How can he get his parents to pay attention to him for a change?

Kids Learn! Grades 4-5 - eBook ,2014-01-15 Keep

students sharp and prevent learning loss with activities aligned to Common Core and other state standards in this second edition, full-color resource. Students risk falling behind at the start of a new school year without practicing skills learned in the previous year. This parent-involvement resource is designed to bridge the away-from-school gap with reading, writing, and mathematics activities that reinforce learning from fourth grade and prepare students for fifth grade. With clear instructions for quick and fun family activities, this is the perfect resource for parents to get involved in their child's education and set them up for a successful school year.

Read 180 ,2002 READ 180 is a comprehensive reading intervention program designed to meet the needs of elementary to middle school students whose reading achievement is below the proficient level. The program directly addresses individual needs through differentiated instruction, adaptive and instructional software, high-interest literature, and direct instruction in reading, writing, and vocabulary skills. Stage A provides tools for young struggling readers in elementary school to develop critical literacy skills. Stage B provides middle school struggling readers with topics designed for their level of reading that hold their interest. System 44 was designed for the most challenged, older struggling readers, and helps these students understand that the English language is a finite system of 44 sounds and 26 letters that can be mastered. It uses validated assessment for screening and placement, research-

based phonics instruction and highly motivating and age-appropriate adaptive technology.
