The Exceptionally, Extraordinarily Ordinary First Day of School Albert Lorenz, 2019-10-15 On the first day back to school from summer vacation, John is the new kid. When the librarian asks him if the school is any different from his last one, he begins a wildly imaginative story about what it was like. What follows are hilarious scenarios—his old school bus was a safari jeep pulled by wild creatures, the school was a castle, and the lunch menu included worms! His imagination wins him the attention and awe of his librarian and peers, setting the tone for a compelling story about conquering the fears of being a new kid, as well as the first-day jitters that many children experience. Albert Lorenz's over-the-top illustrations, reminiscent of the work of MAD magazine's early artists, bring the story to life. Speech bubbles and side panels make reference to and define objects in the art (in the most humorous and irreverent way).

**Place Value** David A. Adler, 2016-02-15 You had better not monkey around when it comes to place value. The monkeys in this book can tell you why! As they bake the biggest banana cupcake

ever, they need to get the amounts in the recipe correct. There's a big difference between 216 eggs and 621 eggs. Place value is the key to keeping the numbers straight. Using humorous art, easy-to-follow charts and clear explanations, this book presents the basic facts about place value while inserting some amusing monkey business.
