

Kids Phone Dialer

Lynn Schofield Clark

First Phone Catherine Pearlman, PhD, LCSW, 2022-07-26 A fun and informative illustrated kids' guide to safely and productively navigating the digital landscape. Cellphones have become a fact of life, with children as young as eight (yes, eight!) getting their very own "devices." Such boundless access means our kids are in nearly constant contact with technology that was designed specifically for adults. And they're doing so without any type of road map. Enter First Phone: the essential book that apprehensive parents can confidently hand to their kids to read as they begin their journey into the digital world. In First Phone, Catherine Pearlman—licensed clinical social worker and parenting expert—speaks directly to eight- to twelve-year-old children about digital safety in a manner that is playful, engaging, and age-appropriate. With insights and strategies supported by the latest research, First Phone offers: • guidance on privacy, boundaries, social media, and even sexting (yes, young children need to learn about sexting before it happens!) • best digital hygiene and self-care practices, including when to put the darn phone down, when to turn off notifications, and where to charge • how to be a kind and compassionate upstander in a digital world An essential companion when your child receives their first phone, this book provides kids the tools and information they need while giving their parents peace of mind.

When to Get My Kid a Phone Drew Hill, 2020-09-07 Determining when to get your child a smartphone is a complicated yet critical decision. Parents today are facing new challenges as technology and our children's access to it gives rise to new worries and concerns. Thoughtful parents wonder how to steward technology well and protect their children from potential pitfalls. When is the right time to give your child access to such powerful tools? Pastor and author Drew Hill encourages parents that instead of being controlled by fear and forbidding access to all electronic devices, moms and dads can use this question to propel them into deeper relationships with their children. As they navigate important questions of teaching responsibility and guarding against potential dangers, parents are invited to view phone usage as a gradual training process much like their child learning to drive a car. Ultimately, this journey of shepherding a child's personal phone usage is a picture of the overall goal of parenting—prayerfully preparing to one day release children into the adult world and trust that they have a good forever Father watching over them.

The Parent App Lynn Schofield Clark, 2013 Offers parents strategies for coping with the increasing presence of digital and mobile media and for managing new technology for their children, and examines how approaches differ among families according to income.

App Kid Michael Sayman, 2022-08-30 An inspiring and deeply personal coming of age memoir from one of Silicon Valley's youngest entrepreneurs—a second-generation Latino immigrant who taught himself how to code as a thirteen-year-old and went on to claim his share of the American dream. As his parents watched their restaurant business collapse in the wake of the Great Recession, Michael Sayman was googling "how to code." Within a year, he had launched an iPhone app that was raking in thousands of dollars a month, enough to keep his family afloat—and in America. Entirely self-taught, Sayman headed from high school straight into the professional world, and by the time he was seventeen, he was Facebook's youngest employee ever, building new features that wowed its founder Mark Zuckerberg and are now being used by more than half a billion people every day. Sayman pushed Facebook to build its own version of Snapchat's Stories and, as a result, engagement on the platform soared across all demographics. Millions of Gen Z and Millennials flocked to Facebook, and as teen engagement rose dramatically on Instagram and WhatsApp, Snapchat's parent company suffered a billion-dollar loss in value. Three years later, Sayman jumped ship for Google. App Kid is the galvanizing story of a young Latino, not yet old enough to drink, who excelled in the cutthroat world of Silicon Valley and went on to become an inspiration to thousands of kids everywhere by following his own surprising, extraordinary path. In this candid and uplifting memoir, Sayman shares the highs and lows, the successes and failures, of his remarkable journey. His book is essential and affirming reading for anyone marching to the beat of their own drum.

Mobile Apps for Kids Federal Trade Commission, 2014-05-23 In February 2012, Federal Trade Commission (FTC) staff issued a report on a survey of mobile "apps" offered for children in Apple's App Store and Google's Android Market, the two largest U.S. app stores. The report, Mobile Apps for Kids: Current Privacy Disclosures are Disappointing, found that little or no information was available to parents about the privacy practices and interactive features of the mobile apps surveyed prior to download. As a result, the report called on all members of the kids' app ecosystem – app stores, developers, and third parties that interact with the apps – to provide greater transparency about the data practices and interactive features of apps geared to children. The report stated that FTC staff would conduct a follow-up survey

in six months to evaluate whether and how industry had addressed the concerns raised. FTC staff conducted its follow-up survey during the summer of 2012. Like the first survey, the new survey examined the disclosures that apps provided about their privacy practices and interactive features, such as links to social media. However, the new survey went a step further by testing the apps' practices and comparing them to the disclosures made. Specifically, the new survey examined whether the apps included interactive features or shared kids' information with third parties without disclosing these facts to parents. The answer: Yes, many apps included interactive features or shared kids' information with third parties without disclosing these practices to parents. Since issuing the first kids' app report, the Commission has continued to promote consumer protections in mobile technologies by engaging in a host of policy, enforcement, and educational initiatives. Additionally, other government agencies, including the California Attorney General and the U.S. Department of Commerce, have launched efforts to increase transparency in the mobile marketplace, and several trade associations have issued self-regulatory guidelines or launched initiatives regarding mobile app privacy and related issues. Likewise, Apple and Google recently announced changes to their app stores that may address concerns about the failure to post privacy policies and the transmission of personal information by apps.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Grown and Flown Lisa Heffernan, Mary Dell Harrington, 2019-09-03 PARENTING NEVER ENDS. From the founders of the #1 site for parents of teens and young adults comes an essential guide for building strong relationships with your teens and preparing them to successfully launch into adulthood The high school and college years: an extended roller coaster of academics, friends, first loves, first break-ups, driver's ed, jobs, and everything in between. Kids are constantly changing and how we parent them must change, too. But how do we stay close as a family as our lives move apart? Enter the co-founders of Grown and Flown, Lisa Heffernan and Mary Dell Harrington. In the midst of guiding their own kids through this transition, they launched what has become the largest website and online community for parents of fifteen to twenty-five year olds. Now they've compiled new takeaways and fresh insights from all that they've learned into this handy, must-have guide. Grown and Flown is a one-stop resource for parenting teenagers, leading up to—and through—high school and those first years of independence. It covers everything from the monumental (how to let your kids go) to the mundane (how to shop for a dorm room). Organized by topic—such as academics, anxiety and mental health, college life—it features a combination of stories, advice from professionals, and practical sidebars. Consider this your parenting lifeline: an easy-to-use manual that offers support and perspective. Grown and Flown is required reading for anyone looking to raise an adult with whom you have an enduring, profound connection.

The Adventurer's Son Roman Dial,2020-02-18 NATIONAL BESTSELLER Destined to become an adventure classic.—Anchorage Daily News Hailed as gripping (New York Times) and beautiful (Washington Post), *The Adventurer's Son* is Roman Dial's extraordinary and widely acclaimed account of his two-year quest to unravel the mystery of his son's disappearance in the jungles of Costa Rica. In the predawn hours of July 10, 2014, the twenty-seven-year-old son of preeminent Alaskan scientist and National Geographic Explorer Roman Dial, walked alone into Corcovado National Park, an untracked rainforest along Costa Rica's remote Pacific Coast that shelters miners, poachers, and drug smugglers. He carried a light backpack and machete. Before he left, Cody Roman Dial emailed his father: "I am not sure how long it will take me, but I'm planning on doing 4 days in the jungle and a day to walk out. I'll be bounded by a trail to the west and the coast everywhere else, so it should be difficult to get lost forever." They were the last words Dial received from his son. As soon as he realized Cody Roman's return date had passed, Dial set off for Costa Rica. As he trekked through the dense jungle, interviewing locals and searching for clues—the authorities suspected murder—the desperate father was forced to confront the deepest questions about himself and his own role in the events. Roman had raised his son to be fearless, to be at home in earth's wildest places, travelling together through rugged Alaska to remote Borneo and Bhutan. Was he responsible for his son's fate? Or, as he hoped, was Cody Roman safe and using his wilderness skills on a solo adventure from which he would emerge at any moment? Part detective story set in the most beautiful yet dangerous reaches of the planet, *The Adventurer's Son* emerges as a far deeper tale of discovery—a journey to understand the truth about those we love the most. *The Adventurer's Son* includes fifty black-and-white photographs.
