**Justice for Kids** Nancy E. Dowd, 2011 An important book at an important time. –Choice Remarkable and sobering. . . . Educators, policymakers, and advocates all should find this book as motivating as it is disturbing: for every reason it gives to despair about the current system, it also reveals a pathway toward a far less populated system of juvenile justice, one that actually helps children rather than harms them. –Daniel Losen, co-author of *The School-to-Prison Pipeline: Structuring Legal Reform* Children and youth become involved with the juvenile justice system at a significant rate. While some children move just as quickly out of the system and go on to live productive lives as adults, other children become enmeshed in the system, developing deeper problems and at times introduced into the adult criminal justice system. *Justice for Kids* is a volume edited by leading academics and activists that focuses on ways to intervene at the earliest possible point to rehabilitate and redirect—to keep kids out of the system—rather than to punish and drive kids deeper. In the *Families, Law, and Society* series Contributors: Shay Bilchik, Brian R. Barber, Benjamin Cairns, David Domenici, Nancy E. Dowd, Jeffrey Fagan, James Forman, Jr., Joseph C. Gagnon, Theresa Glennon, Thalia N.C. González, Leslie Joan Harris, David R. Katner, KharyLazarre-White, Thomas A. Loughran, Thomas P. Mulvey, Kenneth B. Nunn, Vanessa Patino, Alex R. Waldman, and Barbara Bennett Woodhouse Nancy Dowd is Director of the Center for Children and Families at the University of Florida Fredric G. Levin College of Law and holds the David H. Levin Chair in Family Law. She is the author of several books, most recently *The Man Question: Male Subordination and Privilege* (NYU Press).

**Keeping Kids Out of the Middle** Benjamin Garber, 2008-08-11 Offers advice and information on co-parenting in the middle of a divorce or separation.

Keeping Kids Out of the Middle Benjamin Garber, 2010-01-01 Decades of psychological research has taught us that divorce need not harm children. The damage is done when kids are triangulated into adult conflict, with or without the formalities of marriage or divorce. Enlisted as infantrymen in an adult war, these kids are at tremendous risk for serious social, emotional, educational and health concerns. Dr. Benjamin Garber –child psychologist, Guardian ad litem, Parenting Coordinator, national speaker and award winning author- paints the picture of the children triangulated into their caregivers' conflict with bold strokes. This is the first book to present this epidemic of childhood as it exists beyond the legalities of divorce. In doing so, Dr. Garber gives us here-and-now useful strategies with which to improve our co-parenting and to keep our kids out of the middle. Dr. Garber brings his background in child and family development, his expertise as a court-appointed evaluator and his deep compassion for children's wellbeing to the task of helping us to better meet our kids' needs. *Keeping Kids Out Of The Middle!* gives parents and child-centered professionals alike the tools with which to: Improve child-centered communication even among highly conflicted co-parents Make child-centered decisions about the future of the adult relationship 'Script' adult conflict and family transition so that the kids hear one, consistent message Answer children's painful and provocative questions Create child-centered post-separation and post-divorce parenting plans Recognize and minimize the kids' risk of being adultified, parentified, infantilized and alienated Anticipate and respond to 'visitation' resistance and refusal *Keeping Kids Out of the Middle!* is both a title and a mandate. Its about the health of the next generation. *Keeping Kids Out of the Middle!* is required reading in the ancient art of cooperative caregiving.

**Keeping Your Kids Out of the Emergency Room** Christopher M. Johnson, 2013-10-15 Last year America's 76 million children made 27 million trips to hospital emergency departments—one for every three children. That represents a lot of fevers, coughs, sore ears, twisted ankles, and broken bones, plus the wide gamut of other illnesses and injuries children can experience. Whether or not an emergency room visit was warranted for each of these visits, however, is an entirely different story. *Keeping Your Kids Out of the Emergency Room* is an essential guide to the most common illnesses, injuries, and ailments that send kids to the ER, and when particular symptoms warrant those trips or not. Christopher Johnson, a seasoned pediatrician, offers a go-to resource for all new parents and parents of young children, providing solid information on those instances when a trip to the ER is essential, when a trip to the doctor will suffice, and when a wait and see approach works best. He tackles all the most common ailments that cause parents to wonder if they should take their child to the emergency department. Since these problems appear as a bundle of symptoms, not a diagnosis, the book is organized around what parents actually see in front of them. It also teaches parents how emergency departments work, so the experience is understandable when a trip to the ER is essential. With this helpful guide, any parent can learn practical things about which pediatric health problems need immediate attention, which do not, and how to tell the two apart. Knowing the differences, and understanding those situations that require immediate care and those that don't, may help parents avoid the emergency room and still get the best care for their child in the meantime. Every new parent, or parent of young children, will find here a ready introduction to the most common childhood ailments, and when they rise to the level of true emergencies. Knowing what to do before a child becomes ill or injured will help parents make informed decisions when situations arise.

**How Children Become Violent** Kathryn Seifert, 2006 Argues that children who are exposed to violence and are neglected and abused in their early years are more prone to commit violent acts.

**Figuring Kids Out** Sandra Merwin, 1993-04

*Justice for Kids* Nancy E. Dowd, 2011 Children and youth become involved with the juvenile justice system at a significant rate. While some children move just as quickly out of the system and go on to live productive lives as adults, other children become enmeshed in the system, developing deeper problems and/or transferring into the adult criminal justice system. *Justice for Kids* is a volume of work by leading academics and activists that focuses on ways to intervene at the earliest possible point to rehabilitate and redirect—to keep kids out of the system—rather than to punish and drive kids deeper. *Justice for Kids* presents a compelling argument for rethinking and restructuring the juvenile justice system as we know it. This unique collection explores the system's fault lines with respect to all children, and focuses in particular on issues of race, gender, and sexual orientation that skew the system. Most importantly, it provides specific program initiatives that offer alternatives to our

thinking about prevention and deterrence, with an ultimate focus on keeping kids out of the system altogether.
