The Attack on Higher Education Ronald G. Musto,2022-01-20 American higher education is under attack today as never before. A growing right-wing narrative portrays academia as corrupt, irrelevant, costly, and dangerous to both students and the nation. Budget cuts, attacks on liberal arts and humanities disciplines, faculty layoffs and retrenchments, technology displacements, corporatization, and campus closings have accelerated over the past decade. In this timely volume, Ronald Musto draws on historical precedent - Henry VIII's dissolution of British monasteries in the 1530s - for his study of the current threats to American higher education. He shows how a triad of forces - authority, separateness, and innovation - enabled monasteries to succeed, and then suddenly and unexpectedly to fail. Musto applies this analogy to contemporary academia. Despite higher education's vital centrality to American culture and economy, a powerful, anti-liberal narrative is severely damaging its reputation among parents, voters, and politicians. Musto offers a comprehensive account of this narrative from the mid-twentieth century to the present, as well as a new set of arguments to counter criticisms and rebuild the image of higher education.

Mental Illness in Popular Media Lawrence C. Rubin, 2014-01-10 Whether in movies, cartoons, commercials, or even fast food marketing, psychology and mental illness remain pervasive in popular culture. In this collection of new essays, scholars from a range of fields explore representations of mental illness and disabilities across various media of popular culture. Contributors address how forms of psychiatric disorder have been addressed in film, on stage, and in literature, how popular culture genres are utilized to communicate often confusing and conflicted relationships with the mentally ill, and how popular cultures around the world reflect mental illness and disability. Analyses of sources as disparate as the Batman films, Broadway musicals and Nigerian home movies reveal how definitions of mental illness, mental health, and of psychology itself intersect with discourses on race, gender, law, capitalism, and globalization.
