Annual Reports in Organic Synthesis — 1980 L. G. Wade,Martin J. O'Donnell,2013-10-22 Annual Reports in Organic Synthesis—1980 presents an annual

review of synthetically useful information that would prove beneficial to nearly all organic chemists, both specialist and nonspecialist in synthesis. It should help relieve some of the information storage burden of the specialist and should aid the nonspecialist who is seeking help with a specific problem to become rapidly aware of recent synthetic advances. In producing this volume the editors abstracted 46 primary chemistry journals, selecting useful synthetic advances. All reactions and methods which are new, synthetically useful, and reasonably general are included. Each entry is comprised primarily of structures accompanied by very few comments. The purpose of this is to aid the reader in rapidly scanning the book. Chapters I-III are organized by reaction type and constitute the major part of the book. Chapter IV deals with methods of synthesizing heterocyclic systems. Chapter V covers the use of new protecting groups. Chapter VI is divided into three main parts and covers those synthetically useful transformations that do not fit easily into the first three chapters. The first part deals only with functional group synthesis. The second part covers ring expansion and contraction, and the third part involves useful multistep sequences.

Synthesis of Defined Polymer Architectures B. Voit,Brigitte Voit,F. Böhme,Hans-Jürgen P. Adler,2002-04-11 'Synthesis of Defined Polymer Architectures' was the topic of the 8th Dresden Polymer Discussion held in Meissen, near Dresden, in April 2001. At the conference new and interesting results concerning synthetic strategies (ionic, cationic, radical, metallocene, catalyzed), specific polymer architectures (block, graft, stars, dendritic) and supramolecular structures were presented by many of the world's leading researchers in this field. A selection of oral papers from the discussion has been collected for this volume of Macromolecular Symposia.
