*Community Governance and Citizen-Driven Initiatives in Climate Change Mitigation* Jens Hoff, Quentin Gausset, 2015-08-20 One of the most heartening developments in climate change mitigation in recent years has been the increasing attention paid to the principle of 'thinking globally and acting locally'. The failure of the international community to reach significant global agreements on the reduction of greenhouse gas emissions has led local governments, environmental organisations and citizens themselves to focus increasingly on the local possibilities for action on climate change. This book analyses the strengths and weaknesses of the co-production of climate policies that take place where citizen engagement and local initiatives converge with public agencies. Case studies from Northern Europe, Australia/New Zealand and the USA reveal that traditional individualist approaches to promoting environmental behaviour epitomised by information campaigns and economic incentives cannot trigger the deep behavioural changes required to materially improve our response to climate change. Only by marshalling the forces of thousands, and eventually millions of citizens, can we manage to reach environmental sceptics, reinforce political action and create the new social norms that are sorely needed in our local, and global, response to climate change. This book will be of great relevance to scholars and policy makers with an interest in climate change politics and governance, community engagement and sustainable development.

Contested Energy Futures Stuart Rosewarne, 2022-06-11 This book unpacks the politics of climate change in Australia in the context of successive conservative Coalition governments resisting any moves to mitigate emissions and as local communities and transnational corporations struggle with each other to control the transition to a sustainable energy future. As Australia has abundant clean energy resources in terms of solar and wind, the book offers a test case for study of the energy policy transition in the 21st century. It does so by using tools from political economy and sociology, teasing out public attitudes to renewable energy technologies and innovative infrastructure investments, unpacking the complex parameters of this historical debate, tracing the rise of household 'prosumers' and arguing the case for grassroots ownership of renewable infrastructure or 'energy sovereignty' - already pioneered by some isolated communities in Australia. The cultural and emancipatory benefits of cooperative ventures are well known. However, capitalism is not readily defeated by democracy. The promotion of individual households as 'virtual power stations', of 'smart technologies' and even of cryptocurrency into the energy transition innovative mix opens up ever new horizons for corporate control.

*Klimaanpassung in Forschung und Politik* Andreas Marx, 2016-11-25 Dieses Buch präsentiert das Themenfeld Anpassung an den Klimawandel erstmals aus unterschiedlichen, disziplinären Sichtweisen – von der Ökonomie über Geographie und Rechtswissenschaft bis hin zu Politikwissenschaft und Soziologie. Darüber hinaus werden Vulnerabilität und Resilienz sowie Indikatoren und Leitfäden für die Anpassung diskutiert. Konkrete Beispiele aus der urbanen Anpassung und dem Komplex Klimaschutz/Anpassung/Ökosystemdienstleistungen runden die Thematik ab. Erkenntnisse über die Anpassung an den Klimawandel haben nach der gesellschaftlichen Diskussion längst auch Entscheidungsträger auf europäischer sowie kommunaler Ebene erreicht. Das Buch behandelt das Thema Anpassung auf diesen unterschiedlichen Ebenen. Vor allem auf der lokalen Entscheidungsebene liegen bis heute wenig wissenschaftlich gesicherte Daten zu Klimawandel und seinen Auswirkungen vor. Das Buch zeigt, dass und warum Handeln unter Unsicherheit, das Arbeiten mit Szenarien oder das Zusammenführen von natur- und sozialwissenschaftlichen Informationen auf der Tagesordnung der Anpassungsforschung und -politik stehen.

**Hitlers Tischgespräche im Führerhauptquartier** Henry Picker,2014-03-05 Der Spiegel nennt Henry Pickers Aufzeichnungen von Hitlers Tischgesprächen im Führerhauptquartier »Wolfsschanze« eine »publizistische Wertsensation«. Bis heute gelten sie als einzigartiges zeitgeschichtliches Ereignis: 1942 wird der 30jährige Henry Picker als Jurist ins Hauptquartier nach Wolfsschanze berufen – und von Hitler zu seinem »ständigen Tischgast« bestimmt. Henry Pickers Dokumentation von Hitlers Tischgesprächen im Kreise seiner wichtigsten Mitarbeiter bietet authentische Einblicke in dessen Persönlichkeit, Gedankenwelt, Politik und Kriegsführung auf dem Höhepunkt von Hitlers Macht – immer mit der Unbestechlichkeit des historisch politisch und juristisch geschulten Beobachters. Gerhard Ritter, Prof. der Geschichte an der Universität Freiburg, schrieb dazu in seiner Einführung: »Dieses Buch ist ein geschichtliches Dokument, der Zweck seiner Veröffentlichung ist nur: zu zeigen, »wie es eigentlich gewesen ist«. Jenseits von Anklage und Verteidigung, von Verdammnis und Verherrlichung gibt es die nüchterne Pflicht des Erkennens, ohne das kein Verstehen und somit kein Urteilen möglich ist. Diese Publikation ist darum wichtig, weil sie die Wahrheit, oder doch ein wesentliches Stück von ihr, an den Tag bringen hilft.«
