**Parasitic Infections of Domestic Animals** Johannes Kaufmann,1996-01-26 The manual is intended as a tool for the identification and control of the wide spectrum of parasites affecting domestic animals throughout the world. It's of great value for personnel in field laboratories, veterinarians and technicians, as well as for teachers and students. On another practical level, it is relevant for meat inspectors and other public health officials to identify parasites in domestic animals which are potentially harmful to humans.

**Sagalassos I** Marc Waelkens,1993 Sagalassos, once the metropolis of the Western Taurus range (Pisidia, Turkey), was only thoroughly surveyed in 1884 and 1885 by an Austrian team directed by K. Lanckoronski. In 1986-1989 this work was resumed by a British-Belgian team co-directed by Dr. Stephen Mitchell (University College of Swansea) and by Prof. Dr. Marc Waelkens (Catholic University of Leuven). In 1990 Sagalassos became a full scale Belgian project and a leading center for interdisciplinary archaeological and archaeometrical research. Due to its altitude, the site is one of the best preserved towns from classical antiquity, with a rich architectural and sculptural tradition dating from the second century BC to the sixth century AD. From early Imperial times until the early Byzantine period a complete range of coarse and red slip wares was produced locally. Excavations are concentrated on the upper and lower agoras to document the political and commercial life in the town and also in the area where a late Hellenistic fountain house, which still functions to date, and a Roman library were discovered. Major efforts are undertaken to restore the excavated monuments in their old glory. Several disciplines integrate the town again within its ancient environment and document the central role which Sagalassos played in the area.

**Troia** Bonnie Bremser,2007 In this newly rediscovered memoir, Bonnie Bremser, ex-wife of Beat-poet Ray Bremser, chronicles her life on the run from the law in the early Sixties. When Ray fled to Mexico in 1961 to avoid imprisonment for armed robbery, a crime he claimed he did not commit, Bonnie followed with their baby daughter, Rachel. In a foreign country with no money and little knowledge of the language, Bonnie was forced into a life of prostitution to support her family and their drug habit. Just twenty-three years old, Bonnie was young and inexperienced, but very much in love with her husband; indeed, she was ready to go to any lengths in an attempt to keep their small family alive and together, even if it meant becoming une troia.

The Underclass Ken Auletta,2023-12-05 The acclaimed author and New Yorker columnist delves into the core of American poverty in the early 1980s: "Invaluable." —The Washington Post First appearing as a three-part series in the New Yorker, Ken Auletta's *The Underclass* provides an enlightening look at the lives of addicts, dropouts, ex-convicts, welfare recipients, and individuals experiencing homelessness. Auletta's investigation began with a seemingly simple goal: to find out who exactly makes up the poorest of the poor, and to trace the many paths that took them there. As the author follows 250 hardened members of this "underclass," he focuses on efforts to help them reconstruct their lives and find a functional place in mainstream society. Through the lives of the men and women he encounters, Auletta discovers the complex truths that have made hard-core poverty in America such an intractable problem. In a nation where poverty and welfare rolls are declining but the underclass persists, the United States is as conflicted as ever about its responsibilities toward all its people. With his empathy, insight, and expert reportage, Auletta's *The Underclass* remains as pertinent as ever.

Literature and Society Edward W. Said,2018 In its emphasis on the text as a complex abstraction, much of the most influential recent work in criticism and theory has distanced itself from the traditional social and cultural questions of literary scholarship. In *Literature and Society*, seven critics consider anew the situation of writing in history and human society. Their contributions deal with the subject from many viewpoints, all of which are informed but not overwhelmed by current trends in modern critical theory. --

*Plato's Symposium* Plato,Allan Bloom,2001-02 Plato, Allan Bloom wrote, is the most erotic of philosophers, and his *Symposium* is one of the greatest works on the nature of love ever written. This new edition brings together the English translation of the renowned Plato scholar and translator, Seth Benardete, with two illuminating commentaries on it: Benardete's *On Plato's Symposium* and Allan Bloom's provocative essay, *The Ladder of Love*. In the *Symposium*, Plato recounts a drinking party following an evening meal, where the guests include the poet Aristophanes, the drunken Alcibiades, and, of course, the wise Socrates. The revelers give their views on the timeless topics of love and desire, all the while addressing many of the major themes of Platonic philosophy: the relationship of philosophy and poetry, the good, and the beautiful.

*Tourist Behavior* Metin Kozak,Nazmi Kozak,2018-04-18 This book examines and analyzes tourism consumption and tourist experiences, employing a systematic and case study-driven perspective. Covering approaches with a wider geographical background, it considers issues like tourism place experience and co-creation, as well as the behavior of tourists on guided tours, at trade shows and exhibitions, and in museums. Dedicated chapters deal with the aspect of customer satisfaction in places such as hotels or restaurants. In closing, the book highlights tourist behavior in the context of cultural heritage, regional and cultural differences and the general frameworks of consumer happiness and responsibility. Given its focus, the book provides a unique view on the interplay of tourism consumption and tourist experiences, and presents a comprehensive selection of case studies to exemplify and discuss in detail the frameworks covered and the current state of practice.

**Heaven and Earth in Ancient Greek Cosmology** Dirk L. Couprie,2011-03-23 In Miletus, about 550 B.C., together with our world-picture cosmology was born. This book tells the story. In Part One the reader is introduced in the archaic world-picture of a flat earth with the cupola of the celestial vault onto which the celestial bodies are attached. One of the subjects treated in that context is the riddle of the tilted celestial axis. This part also contains an extensive chapter on archaic astronomical instruments. Part Two shows how Anaximander (610-547 B.C.) blew up this archaic world-

picture and replaced it by a new one that is essentially still ours. He taught that the celestial bodies orbit at different distances and that the earth floats unsupported in space. This makes him the founding father of cosmology. Part Three discusses topics that completed the new picture described by Anaximander. Special attention is paid to the confrontation between Anaxagoras and Aristotle on the question whether the earth is flat or spherical, and on the battle between Aristotle and Heraclides Ponticus on the question whether the universe is finite or infinite.
