The Kite Runner Khaled Hosseini,2007 Traces the unlikely friendship of a wealthy Afghan youth and a servant's son in a tale that spans the final days of Afghanistan's monarchy through the atrocities of the present day.

To the Lighthouse Virginia Woolf,2023-01-01 This landmark work of modernist literature explores the inner lives of a typical English family while vividly exploring the nature of loss and memory. Following her celebrated masterpiece Mrs. Dalloway, Virginia Woolf continues to develop her groundbreaking stream-of-consciousness technique in *To the Lighthouse*. Every summer, the Ramsey family returns to the Isle of Skye for a tranquil holiday, where the imposing lighthouse seems to promise everlasting constancy. But as their idyllic holiday confronts the realities of World War I, the Ramseys must also face the inescapable nature of change. A profound evocation of marriage, parenthood, aging, and grief, *To the Lighthouse* is regarded as one of the greatest novels of the twentieth century.

Fabric Reference Mary Humphries,2009 *Fabric Reference* includes lists of links to its companion dictionary and swatch book, *Fabric Glossary*. Review Questions and Investigations for each main section encourage and further the essential application of technical information as study progresses. A unique perspective on textile science is presented by leading the reader from the detailed technical discussion of fibers, yarns, fabric constructions, and finishes covered by all texts to a consistent focus on the actual fabrics. *Fabric Reference* will continue to serve as a valuable reference--even after a course of study is completed--in almost any area of work involving fabrics. Mary Humphries has nearly sixty years of experience in the textile field, working in industry, communications, and education. Her textbook provides up-to-date information on this fast-moving, highly technical field. *Fabric Reference* covers all of the elements that go into making a fabric, offering the most-current information in a condensed format, presented in clear language and well-illustrated.

100 Things to Do in the Upper Peninsula Before You Die Kath

Usitalo,2017-04-01 Touring Michigan's Upper Peninsula (U.P.) is like taking a two-week trip by station wagon. Not in terms of time—you can sample plenty if four days is all you have. It's about stepping back and appreciating a place of raw scenic beauty dotted with roadside attractions, blinker-light towns, rustic cabins and hand-painted signs advertising smoked fish and homemade jam. With *100 Things to Do in the Upper Peninsula Before You Die*, discover a land mostly surrounded by the Great Lakes Huron, Michigan and Superior, linked to the state's Mitten-shaped Lower Peninsula by a five-mile suspension bridge spanning the Straits of Mackinac. The U.P. surprises with Victorian-era and car-free Mackinac Island, millions of acres of forests, waterfalls, wildlife, remnants of the prosperous copper mining era, and 1,700 miles of spectacular shoreline. It's home to about 311,000 hardy Yoopers (U.P.-ers), just 3% of Michigan's population across a third of the state's territory. Cell phone service can be spotty and the top speed along two-lane highways is 55 mph—all the better to slow down and embrace the U.P., whether you're in search of extreme sports experiences, soft adventure or a simple slice of solitude.

Paper Towns John Green, 2013 Quentin Jacobson has spent a lifetime loving Margo Roth Spiegelman from afar. So when she cracks open a window and climbs into his life - dressed like a ninja and summoning him for an ingenious campaign of revenge - he follows. After their all-nighter ends, Q arrives at school to discover that Margo has disappeared.

Regions and Powers Barry Buzan, Ole Wæver, 2003-12-04 This book develops the idea that since decolonisation, regional patterns of security have become more prominent in international politics. The authors combine an operational theory of regional security with an empirical application across the whole of the international system. Individual chapters cover Africa, the Balkans, CIS Europe, East Asia, EU Europe, the Middle East, North America, South America, and South Asia. The main focus is on the post-Cold War period, but the history of each regional security complex is traced back to its beginnings. By relating the regional dynamics of security to current debates about the global power structure, the authors unfold a distinctive interpretation of post-Cold War international security, avoiding both the extreme oversimplifications of the unipolar view, and the extreme deterritorialisations of many globalist visions of a new world disorder. Their framework brings out the radical diversity of security dynamics in different parts of the world.
