Rancho Costa Nada Phil Garlington,2003-01-01 Rancho Costa Nada outlines the principles for the dirt cheap desert homestead, including transportation, sanitation, food storage, electricity, and much, much more, plus fascinating portraits of the desert homesteaders who are Phil Garlington's neighbours. This book is an American classic, full of ingenuity and good old Yankee know-how, and making do, and living way off the grid, and getting by on your own without kissing anybody's ass, or being a slave to the consumer economy. This is an amazing tale of what can be done on a low-tech scale with good old American free-thinking in these high-tech times.

Cruising Boat Basics Cap'n Fatty Goodlander,2018-01-03 This book contains 58 years of seamanship and ship's husbandry distilled into more than 350 readable pages. It is chockfull of technical information gathered during three circumnavigations and a lifetime of living aboard in foreign ports. It tells you the nitty-gritty technical details of the sea gypsy lifestyle. It isn't merely about the boat, it is also about the knowledge required to safely handle that boat and, ultimately, how to manage the cruise as well. It contains what every sea gypsy understands-but few marine publications address-the good, the bad, and the ugly of ocean cruising. It does not cop-out by telling you to throw money at your problems by hiring marine experts. It does exactly the opposite. It informs you how to not need those experts. It clearly communicates the morality, the economy, the karma, and the delights of sailing the world with empty pockets and full hearts. Cruising offshore isn't rocket science. It is all basic, logical stuff. The skills required can be explained step-by-step. This book reveals the reality of buying a well-found, inexpensive boat and outfitting it for living aboard-then taking it inshore gunkholing, coastal sailing, offshore cruising, and ocean storm-strutting. Reading this book is like sitting in the cockpit of a battered ketch at anchor in an exotic port-and having one of the most famous circumnavigators spin yarns, tell jokes, and give the most outrageous of advice on cruising under sail. Forget the you gotta have a pile of money rock-hugger thinking. You don't. There are a million good reasons why not to go to sea-lack of money is not one of them. Basic seamanship is far more important than coinage-and you can't buy seamanship. In fact, circumnavigators with large purses actually have less fun than work-as-you-sail sea gypsies. This book was not written for the edification of Topside-clad yachtsmen or teak-trodding credit card captains-but rather for the working-class sailor attempting to transit from dirt dweller to ocean vagabond without losing sight of the daily fun factor. Does sailing across an ocean on a small vessel seem like an immense challenge? It doesn't need to be-if you are prepared with a well-found boat, strong offshore safety gear, and some basic seamanship skills. Fatty and his wife Carolyn are currently on their fourth circumnavigation. They sail across oceans with no more concern than most yachties experience while putt-putting to the fuel dock. Are you just getting your sealegs but have a burning desire to live within Mother Ocean's warm embrace? To be truly free? To sail to Borneo, Madagascar, Cocos Keeling, the Caribbean, and Chagos? To kiss life full on the lips from the deck of a small boat on a big ocean? Then you are in luck. This book is written with the specific aim of helping sailors exactly like you accomplish these very real, very worthwhile cruising dreams-without a massive amount of money, complication, or BS. Welcome aboard!

A Foolish Voyage Neil Hawkesford,2015-11-24 This is a true story of adventure aboard a small sailboat. Disillusioned with his life of normality a young man decides to buy an 18ft sailboat, make her his home and set sail in search of adventure. He finds it. Single-handedly sailing the South Coast of England to Falmouth. Working as yacht delivery crew. Near shipwreck on Spain's 'Costa da Morte'- the Coast Of Death. Fire onboard in the Atlantic. Engine failure in the Mediterranean. Then he decides to sail his own tiny boat across the

Bay of Biscay. It doesn't go well. This is a book not just about sailing but about life. It's about what happens at the very limits of physical, emotional, and mental capacity. Ultimately it's about how personal tragedy led to a life-changing discovery - The realisation that hidden deep inside of us all is the perseverance and passion needed for achieving long-term goals. It's a book that might just start you on your own Foolish Voyage. WHAT READERS ARE SAYING I really enjoyed this book. I started reading it for the sailing adventure aspect....but ended up getting so much more out of it. B.RICH First book I've read in years that I literally couldn't put down - great story. AMAZON CUSTOMER Simple honesty of the best and rarest kind. If this book were a bell it would ring loud and sweetly and our hearts would resonate just as sweetly, just as poignantly. This book is the story we need to hear. A story of hope, of failure and the truths that only failure brings, and of hope regained and triumph on one's own terms. KEN STEPHENS I read it in one sitting, and if there's an ounce of longing for freedom and adventure left in your heart, so will you. BORDER CORSAIR I have a feeling reading Neil's book will be a life changer for me. He is right, there is more to life than this. R.N.SCOTT

The Care and Feeding of Sailing Crew Lin Pardey, Larry Pardey, 2014-06-03 The Care and Feeding of Sailing Crew, despite the title, is hardly a cookbook; rather it's a primer on successful cruising. Certainly, anyone contemplating, or preparing for, off shore passages would want to read and then keep this volume aboard. A 50 day passage from Japan to Victoria, Canada in 1979 provides Lin a base for discussing everything from menus to clothing, to choosing a fresh chicken, to dealing with port officials, to preventing sea sickness, to buying liquor abroad as well as the best material for underwear. Lin and Larry have been full time cruisers and professional sailors for some 40 plus years, it's all that they do. They've learned a lot and a great deal of their wisdom appears in this book, where specific situations mix with general guidelines. As a bonus, Lin writes very well. She's able to seamlessly tie one subject to the next in a style that seems like great conversation rather than reading a how-to-do-it text. By structuring the flow of information in and around the process of food preparation while experiencing the joys and travails of a very long passage, she provides the reader with a good cruising tale enhanced with a thousand useful tips. Tips vary from entertaining aboard to coping with money transfers. There are great tips on provisioning in foreign ports as well as a strong suggestion to only go a short distance before anchoring following a farewell party. Excellent chapters will help insure your crew stays healthy and well rested. Others deal with creating an ideal galley. From big ideas to small tips, all are presented logically and with useful illustrations. Learn why credit cards are safer to use than debit cards, how to keep eggs for up to 3 months without refrigeration. How you can determine which engine parts are likely to fail, which plastic material makes the best water jugs, how Lin outsmarted weevils and learned to bake fresh bread. Find out which galley layout works best offshore. Rain water catchers - how to make the best kind. On board trash collection and dealing with black water in boats lacking holding tanks. Which cutlery and dinnerware holds up best. Standing watches, getting rest and using Dramamine as a sleeping aid. The book covers everything from the value of a little black cocktail party dress to the safety of double sinks. Finally, intertwined in the cornucopia of wisdom is meal after nourishing meal sure to lift the spirits of a weary crew. Those recipes and cooking tips alone make for a book of great value. All the other info is just priceless gravy. This fourth edition of The Care and Feed of Sailing Crew incorporates ideas and information gathered by Lin and Larry during their more recent voyages through the Line Islands and south through the Pacific to New Zealand. The majority of chapters have been expanded to include the most up-to-date information on sources, supplies and new technology. Additional recipes and cooking ideas for use on cruising boats of all sizes have been added to ensure this valuable reference source continues to be relevant for all sailors who venture away from home, be it for a weekend cruise to nearby islands or a

voyage around the world.

Warhol-isms Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist. One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well. I went to [a psychiatrist] once, and he never called me back. They always say that time changes things, but you actually have to change them yourself. I've never met a person I couldn't call a beauty. New things are always better than old things. I'm still a commercial artist. I was always a commercial artist.

The Voyages of Pirate Juan E. Corradi, 2019-07-07 With great good humor and a Wagnerian sense of the majesty in an ocean crossing, Juan Corradi makes his sailboat the star of the narrative, and inspires anyone to take to sea in a small sailing vessel, and see the World from the deck of a sailboat. He gives details of her design and build, her string of lucky owners, and the great adventures at sea over 25 years. Sailing at the highest levels of competition and seamanship, Juan E Corradi sailed and raced his beloved black-hulled racing yacht, a Swan 38 named Pirate, across many thousands of adventuresome ocean miles, from Bermuda to the Mediterranean, back to the Caribbean Sea, and into the Baltic and the Arctic Circle, always with a circle of close friends and his wife Christina. Pirate won the Bermuda Race, and won her class in a difficult transatlantic race in 1992, the Atlantic 500 commemorating Columbus' voyage of 1492. Cruising the Scaninavian waters, he found rocky outcrops that now bear his name. In Greece, he sailed with the Homeric myths and dear friends, and in Scotland he and crew toured the outer islands in a dedicated Single Malt Whisky Cruise. Juan brings his cheerful erudition and worldly viewpoint to the ancient venture of man against the sea, including the delights of approaching waterspouts, ocean racing, and occasional groundings. He considers what defines a classic yacht and the appeal of adventure.
